EXPENSE EXAMPLES

These examples are intended to help you compare the cost of investing in one Pruco Life Annuity with the cost of investing in other Pruco Life Annuities and/or other variable annuities. Below are examples for each Annuity showing what you would pay cumulatively in expenses at the end of the stated time periods had you invested \$10,000 in the Annuity and assuming your investment has a 5% return each year. The examples reflect the fees and charges listed below for each Annuity as described in “Summary of Contract Fees and Charges.”

§ Insurance Charge
§ Contingent Deferred Sales Charge (when and if applicable)

§ Annual Maintenance Fee
§ Optional benefit fees, as described below

The examples also assume the following for the period shown:

§ You allocate all of your Account Value to the Sub-account with the maximum gross total operating expenses and those expenses remain the same each year*
§ For each charge, we deduct the maximum charge rather than the current charge

§ You make no withdrawals of Account Value
§ You make no transfers, or other transactions for which we charge a fee

§ No tax charge applies
§ You elect the Spousal Highest Daily Lifetime Income v2.1 with Highest Daily Death Benefit, which has the maximum optional benefit charge. There is no other combination of optional benefits that would result in higher maximum charges than those shown in the examples.

Amounts shown in the examples are rounded to the nearest dollar.

* Note: Not all Portfolios offered as Sub-accounts may be available depending on optional benefit selection, the applicable jurisdiction and selling firm.

THE EXAMPLES ARE ILLUSTRATIVE ONLY. THEY SHOULD NOT BE CONSIDERED A REPRESENTATION OF PAST OR FUTURE EXPENSES OF THE UNDERLYING PORTFOLIOS.
