The definition of Benefit Year has been restated to the following:

Benefit Year: The first Benefit Year begins on the Benefit Effective Date of the Defined Income Benefit or the Dynamic Income Benefit and continues through and includes the day immediately preceding the first anniversary of the Benefit Effective Date. Subsequent Benefit Years begin on the anniversary of the Benefit Effective Date and continue through and include the day immediately preceding the next anniversary of the Benefit Effective Date. For tax qualified contracts with the Defined Income Benefit or the Dynamic Income Benefit, once the first Lifetime Withdrawal or Income Withdrawal, as applicable, has been taken, the next Benefit Year will begin on the first Valuation Day of the following calendar year. Each subsequent Benefit Year will then correspond to the calendar year. For nonqualified contracts with the Defined Income Benefit, once the first Lifetime Withdrawal or Income Withdrawal, as applicable, has been taken, the next Benefit Year begins on the date the next Annuity Year begins. Each subsequent Benefit Year will then correspond to the Annuity Year.
