Supplement dated April 26, 2024,
to
Index Strategies Prospectuses dated May 1, 2023,
for
Prudential FlexGuard® Life IVUL Contracts

This supplement updates and amends certain information contained in the current prospectus of the Index Strategies available with your variable universal life insurance Contract, as well as any subsequent supplements thereto. You should read this supplement carefully and retain it for future reference.

The interim value example beginning on page 14 is hereby modified and expanded to include the value of the Segments at maturity (12 months from start date) for comparative purposes. The tables and preceding paragraph are replaced with the following.

The following hypothetical example assumes no deductions from the Segments and also uses one day market data for calculating the fair value and the option value during the start of the Segment and at 9 months into the Segment. Years (12 months) are assumed to have 365 days.
