SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2025
OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Transition Period from to
Commission File Number 033-37587

Pruco Life Insurance Company

(Exact Name of Registrant as Specified in its Charter)

Arizona
(State or Other Jurisdiction of
Incorporation or Organization)

22-1944557
(I.R.S. Employer Identification Number)

213 Washington Street
Newark, NJ 07102
(973) 802-6000
(Address and Telephone Number of Registrant's Principal Executive Offices)

SECURITIES REGISTERED PURSUANT TO SECTION 12(b) OF THE ACT:

<u>Title of Each Class</u>	<u>Trading Symbol(s)</u>	<u>Name of Each Exchange on Which Registered</u>
Not Applicable	Not Applicable	Not Applicable

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of the Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	☐	Accelerated Filer	☐
Non-accelerated Filer	☒	Smaller Reporting Company	☐
		Emerging Growth Company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of November 7, 2025, 250,000 shares of the registrant's Common Stock (par value \$10) were outstanding. As of such date, The Prudential Insurance Company of America, a New Jersey corporation, owned all of the registrant's Common Stock.

**Pruco Life Insurance Company meets the conditions set
forth in General Instruction (H) (1) (a) and (b) on Form 10-Q and
is therefore filing this Form 10-Q in the reduced disclosure format.**

FORWARD-LOOKING STATEMENTS

Certain of the statements included in this Quarterly Report on Form 10-Q, constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Words such as “expects,” “believes,” “anticipates,” “includes,” “plans,” “assumes,” “estimates,” “projects,” “intends,” “should,” “will,” “shall” or variations of such words are generally part of forward-looking statements. Forward-looking statements are made based on management’s current expectations and beliefs concerning future developments and their potential effects upon Pruco Life Insurance Company and its subsidiaries. There can be no assurance that future developments affecting Pruco Life Insurance Company and its subsidiaries will be those anticipated by management. These forward-looking statements are not a guarantee of future performance and involve risks and uncertainties, and there are certain important factors that could cause actual results to differ, possibly materially, from expectations or estimates reflected in such forward-looking statements, including, among others: (1) losses on investments or financial contracts due to deterioration in credit quality or value, or counterparty default; (2) losses on insurance products due to mortality experience or policyholder behavior experience that differs significantly from our expectations when we price our products; (3) changes in interest rates and equity prices that may (a) adversely impact the profitability of our products, the value of separate accounts supporting these products or the value of assets we manage, (b) result in losses on derivatives we use to hedge risk or increase collateral posting requirements and (c) limit opportunities to invest at appropriate returns; (4) guarantees within certain of our products which are market sensitive and may decrease our earnings or increase the volatility of our results of operations or financial position; (5) liquidity needs resulting from (a) derivative collateral market exposure, (b) asset/liability mismatches, (c) the lack of available funding in the financial markets or (d) unexpected cash demands due to severe mortality calamity or lapse events; (6) financial or customer losses, or regulatory and legal actions, due to inadequate or failed processes or systems, external events and human error or misconduct such as (a) disruption of our systems and data, (b) an information security breach, (c) a failure to protect the privacy of sensitive data (d) reliance on third-parties or (e) labor and employment matters; (7) changes in the regulatory landscape, including related to (a) financial sector regulatory reform, (b) changes in tax laws, (c) fiduciary rules and other standards of care, (d) state insurance laws and developments regarding group-wide supervision, capital and reserves, and (e) privacy and cybersecurity regulation; (8) technological changes which may adversely impact companies in our investment portfolio or cause insurance experience to deviate from our assumptions; (9) ratings downgrades; (10) market conditions that may adversely affect the sales or persistency of our products; (11) competition; (12) reputational damage; and (13) the impact on the Company of a continued shutdown of the U.S. government. Pruco Life Insurance Company does not intend, and is under no obligation, to update any particular forward-looking statement included in this document. See “Risk Factors” included in the Annual Report on Form 10-K for the year ended December 31, 2024 for discussion of certain risks relating to our business and investment in our securities.

Significant Non-Cash Transactions

2025

"Cash flows from (used in) investing activities" and "Cash flows from (used in) financing activities" for the nine months ended September 30, 2025 excludes non-cash activities related to invested asset transfers in the amount of \$208 million, related to capital contributions the Company received from The Prudential Insurance Company of America ("Prudential Insurance"). See Note 15 for additional information.

2024

"Cash flows from (used in) operating activities" for the nine months ended September 30, 2024 excludes certain non-cash activities in the amount of \$1,129 million related to the affiliated reinsurance transaction with Prudential Universal Reinsurance Entity Company ("PURE") and Prudential Insurance, effective January 1, 2024. See Note 12 for additional information.

See Notes to Unaudited Interim Consolidated Financial Statements

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements

1. BUSINESS AND BASIS OF PRESENTATION

Pruco Life Insurance Company ("Pruco Life") is a wholly-owned subsidiary of Prudential Insurance, which in turn is a direct wholly-owned subsidiary of Prudential Financial, Inc. ("Prudential Financial"). Pruco Life is a stock life insurance company organized in 1971 under the laws of the State of Arizona. It is licensed to sell life insurance and annuities in the District of Columbia, Guam and in all states except New York, and sells such products primarily through affiliated and unaffiliated distributors.

Pruco Life has one wholly-owned insurance subsidiary, Pruco Life Insurance Company of New Jersey ("PLNJ"). PLNJ is a stock life insurance company organized in 1982 under the laws of the State of New Jersey. It is licensed to sell life insurance and annuities in New Jersey and New York only. Pruco Life and its subsidiaries are together referred to as the "Company", "we" or "our" and all financial information is shown on a consolidated basis.

Basis of Presentation

The Unaudited Interim Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") on a basis consistent with reporting interim financial information in accordance with instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission ("SEC"). The Unaudited Interim Consolidated Financial Statements include the accounts of Pruco Life, entities over which the Company exercises control, including majority-owned subsidiaries, and variable interest entities ("VIEs") in which the Company is considered the primary beneficiary. Intercompany balances and transactions have been eliminated.

In the opinion of management, all adjustments necessary for a fair statement of the financial position and results of operations have been made. All such adjustments are of a normal, recurring nature. Interim results are not necessarily indicative of the results that may be expected for the full year. These financial statements should be read in conjunction with the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

Segment Information

Although there are separate products within Pruco Life, the Company is organized as a single reportable segment and manages the business activities on a consolidated basis. The accounting policies are the same as those described in Note 2 included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

The Company analyzes operating performance using "Income (loss) from operations before income taxes and equity in earnings of operating joint venture", as determined in accordance with U.S. GAAP. This is the measure of profit or loss used by the Company's chief operating decision maker to evaluate performance and allocate resources. The measure of segment assets is reported as "Total Assets" on the Consolidated Statements of Financial Position. Segment revenue is reported as "Total Revenues" on the Consolidated Statements of Operations and Comprehensive Income (Loss). As the Company has one reportable segment, there are no intersegment revenues. The Company discloses all significant expense categories separately on the Consolidated Statements of Operations and Comprehensive Income (Loss).

The Company's chief operating decision maker is a group of Prudential Financial executives that include the chief financial officer, controller, treasurer, and business leaders, which include the Company's chief executive officer and chief financial officer. Overall business decisions for the Company are made by this group of executives. Such business decisions include the allocation of capital, distribution/sale of products, and allocation/deployment of overall Prudential Financial resources.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The most significant estimates include those used in determining future policy benefits; policyholders' account balances and reinsurance related to the fair value of embedded derivative instruments associated with the index-linked features of certain universal life and annuity products; market risk benefits ("MRBs"); the valuation of investments including derivatives, the measurement of allowance for credit losses, and the recognition of other-than-temporary impairments; reinsurance recoverables; any provision for income taxes and valuation of deferred tax assets; and accruals for contingent liabilities, including estimates for losses in connection with unresolved legal and regulatory matters.

Reclassifications

Certain amounts in prior periods have been reclassified to conform to the current period presentation.

Revision to Prior Period Interim Financial Statements

As previously disclosed in the Company's Annual Report on Form 10-K for the year-ended December 31, 2024, during the fourth quarter of 2024, the Company identified multiple errors which impacted previously issued Consolidated Financial Statements, including for the three and nine months ended September 30, 2024. Certain reinsurance recoverable balances associated with the coinsurance with funds withheld of fixed indexed annuities, certain deferred acquisition cost balances associated with indexed variable annuities, and certain other immaterial items were not properly accounted for. Prior period amounts have been revised in the Consolidated Financial Statements and related disclosures to correct these errors. In connection with this revision, the Company also corrected certain other immaterial adjustments within the Financing Section of the Unaudited Interim Consolidated Statements of Cash Flows for the nine months ended September 30, 2024. Management evaluated these adjustments and concluded they were not material to any previously reported quarterly Consolidated Financial Statements. See Note 17 for a more detailed description of the revisions and for comparisons of amounts previously reported to the revised amounts.

2. SIGNIFICANT ACCOUNTING POLICIES AND PRONOUNCEMENTS

Recent Accounting Pronouncements

Changes to U.S. GAAP are established by the Financial Accounting Standards Board ("FASB") in the form of Accounting Standards Updates ("ASUs") to the FASB Accounting Standards Codification ("ASC"). The Company considers the applicability and impact of all ASUs. ASUs listed below include those that have been adopted during the current fiscal year and/or those that have been issued but not yet adopted as of September 30, 2025, and as of the date of this filing. ASUs not listed below were assessed and determined to be either not applicable or not material.

ASUs issued but not yet adopted as of September 30, 2025

Standard	Description	Effective date and method of adoption	Effect on the financial statements or other significant matters
<i>ASU 2024-03—Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses</i>	This ASU requires public companies to disclose, in interim and annual reporting periods, additional information about certain expenses in the notes to financial statements.	The amendments are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted, and should be applied either prospectively or retrospectively.	The Company is currently assessing the impact of the ASU on the Company's Consolidated Financial Statements and Notes to the Consolidated Financial Statements.
<i>ASU 2023-09 Income Taxes (Topic 740) Improvements to Income Tax Disclosures</i>	This ASU requires entities to provide additional information primarily related to the effective tax rate reconciliation and income taxes paid.	Effective for fiscal years beginning after December 15, 2024, and permits early adoption.	The ASU has no impact on the Company's Consolidated Financial Statements but will result in expanded disclosures in the Notes to the Consolidated Financial Statements.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

As of September 30, 2025 and December 31, 2024, the gross unrealized losses on fixed maturity, available-for-sale securities without an allowance of \$1,440 million and \$2,059 million, respectively, related to “1” highest quality or “2” high quality securities based on the National Association of Insurance Commissioners (“NAIC”) or equivalent rating and \$48 million and \$102 million, respectively, related to other than high or highest quality securities based on NAIC or equivalent rating. As of September 30, 2025, the \$1,444 million of gross unrealized losses of twelve months or more were concentrated in the Company’s corporate securities within the finance, consumer non-cyclical and utility sectors. As of December 31, 2024, the \$1,894 million of gross unrealized losses of twelve months or more were concentrated in the Company’s corporate securities within the finance, consumer non-cyclical and utility sectors.

In accordance with its policy described in Note 2 to the Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024, the Company concluded that an adjustment to earnings for credit losses related to these fixed maturity securities was not warranted at September 30, 2025. This conclusion was based on a detailed analysis of the underlying credit and cash flows for each security. Gross unrealized losses are primarily attributable to increases in interest rates, general credit spread widening and foreign currency exchange rate movements. As of September 30, 2025, the Company did not intend to sell these securities, and it was not more likely than not that the Company would be required to sell these securities before the anticipated recovery of the remaining amortized cost basis.

The following table sets forth the amortized cost and fair value of fixed maturities by contractual maturities, as of the date indicated:

	September 30, 2025	
	Amortized Cost	Fair Value
	(in thousands)	
Fixed maturities, available-for-sale:		
Due in one year or less	\$ 2,160,794	\$ 2,138,289
Due after one year through five years	15,709,371	15,871,043
Due after five years through ten years	11,729,956	11,929,860
Due after ten years	10,126,620	9,172,998
Asset-backed securities	4,706,213	4,733,008
Commercial mortgage-backed securities	1,304,368	1,287,383
Residential mortgage-backed securities	552,893	553,958
Total fixed maturities, available-for-sale	\$ 46,290,215	\$ 45,686,539

Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations. Asset-backed, commercial mortgage-backed and residential mortgage-backed securities are shown separately in the table above, as they do not have a single maturity date.

The following table sets forth the sources of fixed maturity proceeds and related investment gains (losses), as well as losses on write-downs and the allowance for credit losses of fixed maturities, for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Fixed maturities, available-for-sale:				
Proceeds from sales(1)	\$ 349,432	\$ 248,635	\$ 2,007,192	\$ 676,660
Proceeds from maturities/prepayments	679,149	483,079	2,420,850	1,618,992
Gross investment gains from sales and maturities	7,384	2,921	21,066	13,265
Gross investment losses from sales and maturities	(14,016)	(9,153)	(34,723)	(33,625)
Write-downs recognized in earnings(2)	(720)	(9,534)	(33,266)	(9,534)
(Addition to) release of allowance for credit losses(3)	(21,731)	(22,104)	1,718	(23,444)

(1) Excludes activity from non-cash related proceeds due to the timing of trade settlements of \$68.7 million and \$(5.6) million for the nine months ended September 30, 2025 and 2024, respectively.

(2) Amounts represent write-downs on credit adverse securities.

(3) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

(1) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

For additional information regarding the Company's methodology for developing its allowance and expected losses, see Note 2 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

For the three months ended September 30, 2025, the net increase in the allowance for credit losses on available-for-sale securities was primarily related to net additions within the consumer cyclical and communications sectors within corporate securities primarily due to adverse projected cash flows. For the three months ended September 30, 2024, the net increase in the allowance for credit losses on available-for-sale securities was primarily related to net additions within the consumer cyclical, consumer non-cyclical and capital goods sectors within corporate securities due to adverse projected cashflows.

For the nine months ended September 30, 2025, the net decrease in the allowance for credit losses on available-for-sale securities was primarily related to write-downs charged against the allowance due to security restructures and settlements within the consumer cyclical, consumer non-cyclical and capital goods sectors within corporate securities, partially offset by net additions within the communications and consumer cyclical sectors within corporate securities primarily due to adverse projected cash flows. For the nine months ended September 30, 2024, the net increase in the allowance for credit losses on available-for-sale securities was primarily related to net additions within the consumer cyclical, consumer non-cyclical and capital goods sectors within corporate securities due to adverse projected cashflows.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The Company did not have any fixed maturity securities purchased with credit deterioration as of both September 30, 2025 and December 31, 2024.

Fixed Maturities, Trading

The net change in unrealized gains (losses) from fixed maturities, trading still held at period end, recorded within “Other income (loss),” was \$51.7 million and \$149.0 million during the three months ended September 30, 2025 and 2024, respectively, and \$247.0 million and \$16.8 million during the nine months ended September 30, 2025 and 2024, respectively.

Equity Securities

The net change in unrealized gains (losses) from equity securities still held at period end, recorded within “Other income (loss),” was \$22.2 million and \$37.6 million during the three months ended September 30, 2025 and 2024, respectively, and \$(117.3) million and \$16.2 million during the nine months ended September 30, 2025 and 2024, respectively.

Commercial Mortgage and Other Loans

The following table sets forth the composition of “Commercial mortgage and other loans”, as of the dates indicated:

	September 30, 2025		December 31, 2024	
	Amount	% of Total	Amount	% of Total
(\$ in thousands)

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The CECL allowance for residential mortgage loans carried at amortized cost is determined based on the Company's best estimate of expected credit losses over the remaining life of the assets. The determination of the allowance considers industry historical credit loss experience, current conditions, and reasonable and supportable forecasts. The calculation pools together loans that share similar risk characteristics. The estimated lifetime loss of the pool is calculated from the risk profiles of the loans, including borrower credit score, loan-to-value ratio, property type, and several key attributes of the loan and property including: loan type, loan age, loan performance history, and current performing or nonperforming status. Estimated lifetime loss rates are calculated by weighting projected losses in multiple economic scenarios based on the Company's view of the current stage of the economic cycle and future economic conditions. The scenario losses are calibrated to industry historical experience of defaults, loss severities, and prepayment rates in multiple economic cycles, reflective of similar loan characteristics.

For additional information regarding the Company's methodology for developing its allowance and expected losses, see Note 2 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

For the three months ended September 30, 2025, the net increase to the allowance for credit losses on commercial mortgage and other loans was primarily related to increases in loan specific allowances within the retail sector of commercial mortgage loans, partially offset by a net write-down against a loan-specific reserve within the retail sector of commercial mortgage loans. For the three months ended September 30, 2024, the net increase in the allowance for credit losses on commercial mortgage and other loans was primarily related to increases in loan specific allowances within agricultural property loans and in the general allowance due to loan originations.

For the nine months ended September 30, 2025, the net increase to the allowance for credit losses on commercial mortgage and other loans was primarily related to increases in loan specific allowances within the retail sector of commercial mortgage loans and agricultural property loans, partially offset by net write-downs against loan-specific reserves within agricultural property loans and the retail sector of commercial mortgage loans. For the nine months ended September 30, 2024, the net increase in the allowance for credit losses on commercial mortgage and other loans was primarily related to increases in loan specific allowances within the office sector of commercial mortgage loans and within agricultural property loans and in the general allowance due to loan originations partially offset by loan payoffs.

The following table sets forth the write-downs of commercial mortgage and other loans by origination year for the nine months ended September 30, 2025:

September 30, 2025							
Amortized Cost by Origination Year

Residential mortgage loans primarily include fixed-rate, amortizing mortgage loans on rental properties owned by borrowers with Fair Isaac Corporation ("FICO") scores typically considered prime or above. The primary credit quality indicator is whether a loan is performing or nonperforming. The Company defines nonperforming residential mortgage loans as those that are 90 days or more past due and/or in nonaccrual status.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

For additional information regarding the Company's commercial mortgage and other loans credit quality monitoring process, see Note 2 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

The Company may grant loan modifications in its commercial mortgage and other loan portfolios to borrowers experiencing financial difficulties. These loan modifications may be in the form of principal forgiveness, interest rate reduction, other-than-insignificant payment delay, term extension or some combination thereof. The amount, timing and extent of modifications granted and subsequent performance are considered in determining any allowance for credit losses.

The following tables set forth the amortized cost basis of loan modifications made to borrowers experiencing financial difficulties during the periods indicated:

		Three Months Ended September 30,					
		2025			2024		
	Term Extension	Other Than Insignificant Delay in Payment	% of Amortized Cost		Term Extension	Other Than Insignificant Delay in Payment	% of Amortized Cost
(\$ in thousands)							
Commercial mortgage loans(1)	\$ 0	\$ 0	0.0 %	\$ 0	\$ 4,570		0.1 %

		Nine Months Ended September 30,					
		2025			2024		
	Term Extension	Other Than Insignificant Delay in Payment	% of Amortized Cost		Term Extension	Other Than Insignificant Delay in Payment	% of Amortized Cost
(\$ in thousands)							
Commercial mortgage loans(1)	\$ 0	\$ 0	0.0 %	\$ 14,546	\$ 4,570		0.3 %

(1) Prior period amounts have been updated to conform to current period presentation.

For both the three and nine months ended September 30, 2024, the modifications added less than one year to the weighted average life in the commercial mortgage loan portfolio.

The Company did not have any commitments to lend additional funds to borrowers experiencing financial difficulties on modified loans as of both September 30, 2025 and December 31, 2024.

The following tables set forth an aging of past due commercial mortgage and other loans based upon the recorded investment gross of allowance for credit losses, as well as the amount of commercial mortgage and other loans on non-accrual status, as of the dates indicated:

	September 30, 2025						
	Current	30-59 Days Past Due	60-89 Days Past Due	90 Days or More Past Due(1)	Total Loans	Non-Accrual Status(2)	
	(in thousands)						
Commercial mortgage loans	\$ 8,488,500	\$ 0	\$ 0	\$ 0	\$ 8,488,500	\$ 1,196	
Agricultural property loans	986,574	0	0	33,965	1,020,539	38,320	
Residential mortgage loans	231,649	0	0	0	231,649	0	
Other collateralized loans	10,840	0	0	0	10,840	0	
Total	\$ 9,717,563	\$ 0	\$ 0	\$ 33,965	\$ 9,751,528	\$ 39,516	

(1) As of September 30, 2025, there were no loans in this category accruing interest.

(2) For additional information regarding the Company's policies for accruing interest on loans, see Note 2 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

PRUCO LIFE INSURANCE COMPANY

Total	\$ 7,767,876	\$ 0	\$ 2,505	\$ 26,657	\$ 7,797,038	\$ 29,885

(1) As of December 31, 2024, there were no loans in this category accruing interest.

(2) For additional information regarding the Company's policies for accruing interest on loans, see Note 2 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

Loans on non-accrual status recognized interest of less than \$1 million and \$1 million for both the three and nine months ended September 30, 2025 and 2024, respectively. Loans on non-accrual status that did not have a related allowance for credit losses were \$20 million and \$2 million as of September 30, 2025 and December 31, 2024, respectively.

For both the three and nine months ended September 30, 2025, there were \$232 million commercial mortgage and other loans acquired, other than those through direct origination, and there were no commercial mortgage and other loans sold.

For the three and nine months ended September 30, 2024, there were \$0 million and \$13 million commercial mortgage and other loans acquired, respectively, other than those through direct origination, and there were no commercial mortgage and other loans sold.

The Company did not have any commercial mortgage and other loans purchased with credit deterioration as of both September 30, 2025 and December 31, 2024.

Other Invested Assets

The following table sets forth the composition of "Other invested assets," as of the dates indicated:

	September 30, 2025	December 31, 2024
	(in thousands)	
LPs/LLCs:		
Equity method:		
Private equity	\$ 394,339	\$ 388,822
Hedge funds	1,615,969	1,024,534
Real estate-related	70,639	75,730
Subtotal equity method	2,080,947	1,489,086
Fair value:		
Private equity	21,316	28,094
Hedge funds	49,614	14
Real estate-related	15,365	16,016
Subtotal fair value	86,295	44,124
Total LPs/LLCs	2,167,242	1,533,210
Derivative instruments	99,305	24,499
Other(1)	45,459	24,385
Total other invested assets	\$ 2,312,006	\$ 1,582,094

(1) Includes tax advantaged investments and investments in separate account funds.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Accrued Investment Income

The following table sets forth the composition of “Accrued investment income,” as of the dates indicated:

	September 30, 2025	December 31, 2024
	(in thousands)	
Fixed maturities	\$ 492,362	\$ 396,173
Equity securities	512	436
Commercial mortgage and other loans	40,508	29,437
Policy loans	22,388	30,820
Short-term investments and cash equivalents	7,414	9,528
Total accrued investment income	<u>\$ 563,184</u>	<u>\$ 466,394</u>

There were no significant write-downs on accrued investment income for both the three and nine months ended September 30, 2025 and 2024.

Net Investment Income

The following table sets forth “Net investment income” by investment type, for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Fixed maturities, available-for-sale	\$ 556,029	\$ 439,805	\$ 1,577,074	\$ 1,172,544
Fixed maturities, trading	59,370	40,719	156,555	111,345
Equity securities	13,003	6,190	43,771	16,395
Commercial mortgage and other loans	118,932	84,328	318,736	236,006
Policy loans	16,858	16,995	49,887	48,028
Other invested assets	74,702	35,066	192,887	87,133
Short-term investments and cash equivalents	32,756	41,976	92,678	129,298
Gross investment income	871,650	665,079	2,431,588	1,800,749
Less: investment expenses	(32,256)	(26,387)	(94,145)	(76,744)
Net investment income	<u>\$ 839,394</u>	<u>\$ 638,692</u>	<u>\$ 2,337,443</u>	<u>\$ 1,724,005</u>

PRUCO LIFE INSURANCE COMPANY

Realized Investment Gains (Losses), Net

The following table sets forth “Realized investment gains (losses), net” by investment type, for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Fixed maturities(1)(3)	\$ (29,083)	\$ (37,870)	\$ (45,205)	\$ (53,338)
Commercial mortgage and other loans	(12,795)	(3,533)	(19,220)	(8,152)
LPs/LLCs(2)	0	1	(6)	(35)
Derivatives(3)	(258,934)	(573,164)	(1,083,536)	215,801
Short-term investments and cash equivalents	138	(11)	171	(91)
Ceded income on modified coinsurance investments(2)(4)	(47,014)	(36,929)	(125,816)	(3,912)
Other(2)	(181)	(12)	5	152
Realized investment gains (losses), net	<u>\$ (347,869)</u>	<u>\$ (651,518)</u>	<u>\$ (1,273,607)</u>	<u>\$ 150,425</u>

(1) Includes fixed maturity securities classified as available-for-sale and excludes fixed maturity securities classified as trading.

(2) Prior period amounts have been updated to conform to current period presentation.

(3) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

(4) Includes changes in the value of reinsurance and funds withheld payables, primarily reflecting the impact of net investment income on withheld assets that are ceded to certain reinsurance counterparties.

Net Unrealized Gains (Losses) on Investments within AOCI

The following table sets forth net unrealized gains (losses) on investments, as of the dates indicated:

	September 30, 2025	December 31, 2024
	(in thousands)	
Fixed maturity securities, available-for-sale with an allowance	\$ (1,562)	\$ 893
Fixed maturity securities, available-for-sale without an allowance	(563,370)	(1,955,252)
Derivatives designated as cash flow hedges(1)	(131,326)	110,565
Affiliated notes	(797)	(3,276)
Other investments(2)	12,850	785
Net unrealized gains (losses) on investments	<u>\$ (684,205)</u>	<u>\$ (1,846,285)</u>

(1) For additional information regarding cash flow hedges, see Note 5.

(2) Primarily includes net unrealized gains (losses) on certain joint ventures that are strategic in nature and are included in "Other assets."

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Repurchase Agreements and Securities Lending

In the normal course of business, the Company sells securities under agreements to repurchase and enters into securities lending transactions. As of both September 30, 2025 and December 31, 2024, the Company had no repurchase agreements.

The following table sets forth the composition of “Cash collateral for loaned securities,” which represents the liability to return cash collateral received for the following types of securities loaned, as of the dates indicated:

	September 30, 2025			December 31, 2024		
	Remaining Contractual Maturities of the Agreements			Remaining Contractual Maturities of the Agreements		
	Overnight & Continuous	Up to 30 Days	Total	Overnight & Continuous	Up to 30 Days	Total
	(in thousands)					
Obligations of U.S. states and their political subdivisions	\$ 2,496	\$ 0	\$ 2,496	\$ 1,139	\$ 0	\$ 1,139
U.S. public corporate securities	9,961	0	9,961	6,949	0	6,949
U.S. private corporate securities	0	0	0	18	0	18
Foreign public corporate securities	14,705	0	14,705	10,100	0	10,100
Equity securities	96,683	0	96,683	103,166	0	103,166
Total cash collateral for loaned securities(1)	\$ 123,845	\$ 0	\$ 123,845	\$ 121,372	\$ 0	\$ 121,372

(1) The Company did not have any agreements with remaining contractual maturities greater than thirty days, as of the dates indicated.

4. VARIABLE INTEREST ENTITIES

In the normal course of its activities, the Company enters into relationships with various special-purpose entities and other entities that are deemed to be VIEs. A VIE is an entity that either (1) has equity investors that lack certain essential characteristics of a controlling financial interest (including the ability to control activities of the entity, the obligation to absorb the entity’s expected losses and the right to receive the entity’s expected residual returns) or (2) lacks sufficient equity to finance its own activities without financial support provided by other entities, which in turn would be expected to absorb at least some of the expected losses of the VIE.

The Company is the primary beneficiary if the Company has (1) the power to direct the activities of the VIE that most significantly impact the economic performance of the entity and (2) the obligation to absorb losses of the entity that could be potentially significant to the VIE or the right to receive benefits from the entity that could be potentially significant. If the Company determines that it is the VIE’s primary beneficiary, it consolidates the VIE.

Consolidated Variable Interest Entities

The Company is the primary beneficiary of certain VIEs in which the Company has invested, as part of its investment activities, but for which it is not the investment manager. The Company’s involvement in the structuring of these investments combined with its economic interest indicates that the Company is the primary beneficiary. The Company has not provided material financial support or other support that was not contractually required to these VIEs.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The table below reflects the carrying amount and balance sheet caption in which the assets and liabilities of consolidated VIEs are reported:

	September 30, 2025	December 31, 2024
	(in thousands)	
Fixed maturities, available for sale, at fair value	\$ 17,525	\$ 0
Other invested assets	49,611	0
Accrued investment income	30	0
Income tax assets	3	0
Other assets	(151)	0
Total assets of consolidated variable interest entities	\$ 67,018	\$ 0
Payables to parent and affiliates	\$ 93	\$ 0
Other liabilities	532	0
Notes issued by consolidated variable interest entities(1)	17,538	0
Total liabilities of consolidated variable interest entities	\$ 18,163	\$ 0

(1) Recourse is limited to the assets of the respective VIE and does not extend to the general credit of the Company. As of September 30, 2025, the maturity of the obligation is 2 years.

Unconsolidated Variable Interest Entities

The Company has determined that it is not the primary beneficiary of certain VIEs. These VIEs consist of investment funds for which the Company has determined that it is not the primary beneficiary as it does not have both (1) the power to direct the activities of the VIE that most significantly impact the economic performance of the entity and (2) the obligation to absorb losses of the entity that could be potentially significant to the VIE or the right to receive benefits from the entity that could be potentially significant. The Company's maximum exposure to loss resulting from its relationship with unconsolidated VIEs is limited to its investment in the VIEs, which was \$80 million and \$0 million as of September 30, 2025 and December 31, 2024, respectively. These investments are reflected in "Other invested assets". There are no liabilities associated with these unconsolidated VIEs on the Company's Unaudited Interim Consolidated Statements of Financial Position.

5. DERIVATIVES AND HEDGING

Types of Derivative Instruments and Derivative Strategies

The Company utilizes various derivative instruments and strategies to manage its risk. Commonly used derivative instruments include, but are not necessarily limited to:

- Interest rate contracts: futures, swaps, options, caps and floors
- Equity contracts: futures, options and total return swaps
- Foreign exchange contracts: futures, options, forwards and swaps
- Credit contracts: single and index reference credit default swaps

Other types of financial contracts that the Company accounts for as derivatives include:

- Embedded derivatives and synthetic guaranteed investment contracts ("GICs")

For detailed information on these contracts and the related strategies, see Note 4 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Primary Risks Managed by Derivatives

The table below provides a summary of the gross notional amount and fair value of derivative contracts by the primary underlying risks, excluding embedded derivatives and associated reinsurance recoverables and deposit receivables. Many derivative instruments contain multiple underlying risks. The fair value amounts below represent the value of derivative contracts prior to taking into account the netting effects of master netting agreements and cash collateral.

Primary Underlying Risk/Instrument Type	September 30, 2025			December 31, 2024		
	Gross Notional	Fair Value		Gross Notional	Fair Value

(1) Excludes embedded derivatives which contain multiple underlying risks. The fair value of these embedded derivatives was a net liability of \$17,025 million and \$11,968 million as of September 30, 2025 and December 31, 2024, respectively, primarily included in "Policyholders' account balances".

(2) Recorded in "Other invested assets", "Payables to parent and affiliates" and "Other liabilities" on the Unaudited Interim Consolidated Statements of Financial Position.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Offsetting Assets and Liabilities

The following table presents recognized derivative instruments (excluding embedded derivatives and associated reinsurance recoverables and deposit receivables), and repurchase and reverse repurchase agreements that are offset in the Unaudited Interim Consolidated Statements of Financial Position, and/or are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset in the Unaudited Interim Consolidated Statements of Financial Position.

September 30, 2025

Offsetting of Financial Liabilities:					
Derivatives	\$ 27,242,182	\$ (23,619,586)	\$ 3,622,596	\$ (3,622,596)	\$ 0
Total Liabilities	<u>\$ 27,242,182</u>	<u>\$ (23,619,586)</u>	<u>\$ 3,622,596</u>	<u>\$ (3,622,596)</u>	<u>\$ 0</u>

(1) Amounts exclude the excess of collateral received/pledged from/to the counterparty.

For information regarding the rights of offset associated with the derivative assets and liabilities in the table above see “Credit Risk” below and Note 15. For securities purchased under agreements to resell and securities sold under agreements to repurchase, the Company monitors the value of the securities and maintains collateral, as appropriate, to protect against credit exposure. Where the Company has entered into repurchase and resale agreements with the same counterparty, in the event of default, the Company would generally be permitted to exercise rights of offset. For additional information on the Company’s accounting policy for securities repurchase and resale agreements, see Note 2 to the Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024.

Cash Flow Hedges

The primary derivative instruments used by the Company in its cash flow hedge accounting relationships are currency swaps and interest rate swaps. These instruments are only designated for hedge accounting in instances where the appropriate criteria are met. The Company does not use futures, options, credit, or equity derivatives in any of its cash flow hedge accounting relationships.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The following tables provide the financial statement classification and impact of derivatives used in qualifying and non-qualifying hedge relationships, excluding the offset of the hedged item in an effective hedge relationship.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Presented below is a rollforward of current period cash flow hedges in AOCI before taxes:

	(in thousands)
Balance, December 31, 2024	\$ 110,565
Amount recorded in AOCI	
Interest Rate	33
Currency/Interest Rate	(275,230)
Total amount recorded in AOCI	(275,197)
Amount reclassified from AOCI to income	
Interest Rate	41
Currency/Interest Rate	33,265
Total amount reclassified from AOCI to income	33,306
Balance, September 30, 2025	\$ (131,326)

The changes in fair value of cash flow hedges are deferred in AOCI and are included in "Net unrealized investment gains (losses)" in the Unaudited Interim Consolidated Statements of Operations and Comprehensive Income (Loss); these amounts are then reclassified to earnings when the hedged item affects earnings. Using September 30, 2025 values, it is estimated that a pre-tax gain of \$35 million is expected to be reclassified from AOCI to earnings during the subsequent twelve months ending September 30, 2026.

The exposures the Company is hedging with these qualifying cash flow hedges include the variability of the payment or receipt of interest or foreign currency amounts on existing financial instruments.

There were no material amounts reclassified from AOCI into earnings relating to instances in which the Company discontinued cash flow hedge accounting because the forecasted transaction did not occur by the anticipated date or within the additional time period permitted by the authoritative guidance for the accounting for derivatives and hedging.

Credit Derivatives

Credit derivatives, where the Company has written credit protection on certain index references, have outstanding notional amounts of \$850 million and \$912 million as of September 30, 2025 and December 31, 2024, respectively. These credit derivatives are reported at fair value as an asset of \$8 million and \$10 million as of September 30, 2025 and December 31, 2024, respectively. As of September 30, 2025 the notional amount of these credit derivatives had the following NAIC ratings: \$820 million in NAIC 3 and \$30 million in NAIC 6.

The Company has no exposure on purchased credit protection as of September 30, 2025 and December 31, 2024.

Counterparty Credit Risk

The Company is exposed to credit-related losses in the event of non-performance by counterparties to financial derivative transactions with a positive fair value. The Company manages credit risk by entering into derivative transactions with regulated derivatives exchanges for exchange traded derivatives and its affiliate, Prudential Global Funding LLC ("PGF"), related to its over-the-counter ("OTC") derivatives. PGF, in turn, manages its credit risk by: (i) entering into derivative transactions with highly rated major international financial institutions and other creditworthy counterparties governed by master netting agreements, as applicable; (ii) trading through central clearing and OTC parties; (iii) obtaining collateral, such as cash and securities, when appropriate; and (iv) setting limits on single-party credit exposures which are subject to periodic management review.

Substantially all of the Company's derivative agreements have zero thresholds which require daily full collateralization by the party in a liability position.

6. FAIR VALUE OF ASSETS AND LIABILITIES

Fair Value Measurement - Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative fair value guidance establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities.

Level 2 – Fair value is based on significant inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Level 2 inputs include quoted prices in active markets for similar assets and liabilities, quoted prices in markets that are not active for identical or similar assets or liabilities, and other market observable inputs.

Level 3 – Fair value is based on at least one significant unobservable input for the asset or liability. The assets and liabilities in this category may require significant judgment or estimation in determining the fair value.

For a discussion of the Company's valuation methodologies for assets and liabilities measured at fair value and the fair value hierarchy, see Note 5 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024. There have been no material changes in our valuation techniques during the period represented by these Unaudited Interim Consolidated Financial Statements.

(1) "Netting" amounts represent cash collateral of \$(9,162) million and \$(8,311) million as of September 30, 2025 and December 31, 2024, respectively, and the impact of offsetting asset and liability positions held with the same counterparty, subject to master netting agreements.

(2) Includes credit-tranched securities collateralized by loan obligations, home equity loans, auto loans and education loans.

(3) Other invested assets excluded from the fair value hierarchy include certain hedge funds, private equity funds and other funds for which fair value is measured at net asset value ("NAV") per share (or its equivalent) as a practical expedient. As of September 30, 2025 and December 31, 2024, the fair value of such investments was \$86 million and \$44 million, respectively.

(4) Separate account assets represent segregated funds that are invested for certain customers. Investment risks associated with market value changes are borne by the customers, except to the extent of minimum guarantees made by the Company with respect to certain accounts. Separate account liabilities are not included in the above table as they are reported at contract value and not fair value in the Company's Unaudited Interim Consolidated Statements of Financial Position.

(5) Separate account assets included in the fair value hierarchy exclude investments in entities that calculate NAV per share (or its equivalent) as a practical expedient. Such investments excluded from the fair value hierarchy include investments in real estate, hedge funds and a corporate-owned life insurance fund. As of September 30, 2025 and December 31, 2024, the fair value of such investments was \$7,518 million and \$6,444 million, respectively.

(1) Conversely, the impact of a decrease in input would have the opposite impact on fair value as that presented in the table.

(2) Directional impacts for MRB assets and liabilities are associated with the directional impacts of direct and assumed MRBs.

(3) Includes assets classified as fixed maturities, available-for-sale and fixed maturities, trading.

(4) Represents multiple of earnings before interest, taxes, depreciation and amortization ("EBITDA"), and are amounts used when the Company has determined that market participants would use such multiples when valuing the investments.

(5) Market risk benefits primarily represent fair value for all living benefit guarantees including accumulation, withdrawal and income benefits. Since the valuation methodology for these assets and liabilities uses a range of inputs that vary at the contract level over the cash flow projection period, presenting a range, rather than weighted average, is a more meaningful representation of the unobservable inputs used in the valuation.

(6) Lapse rates for contracts with living benefit guarantees are adjusted at the contract level based on the in-the-moneyness of the living benefit and reflect other factors, such as the applicability of any surrender charges. Lapse rates are reduced when contracts are more in-the-money. Lapse rates for contracts with index-linked crediting guarantees may be adjusted at the contract level based on the applicability of any surrender charges, product type, and market related factors such as interest rates. Lapse rates are also generally assumed to be lower for the period where surrender charges apply. For any given contract, lapse rates vary throughout the period over which cash flows are projected for the purposes of valuing these balances.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

- (7) The spread over the Secured Overnight Financing Rate ("SOFR") swap curve represents the premium added to the proxy for the risk-free rate (SOFR) to reflect the Company's estimates of rates that a market participant would use to value the living benefits in both the accumulation and payout phases and index-linked interest crediting guarantees as of September 30, 2025 and December 31, 2024, respectively. This spread includes an estimate of non-performance risk ("NPR"), which is the risk that the obligation will not be fulfilled by the Company. NPR is primarily estimated by utilizing the credit spreads associated with issuing funding agreements, adjusted for any illiquidity risk premium. In order to reflect the financial strength ratings of the Company, credit spreads associated with funding agreements, as opposed to credit spread associated with debt, are utilized in developing this estimate because funding agreements are insurance liabilities and are therefore senior to debt. Effective April 2023, the Company entered into an agreement with The Ohio National Life Insurance Company, now known as AuguStar Life Insurance Company ("AuguStar"), an affiliate of Constellation Insurance Holdings, Inc., to reinsure approximately \$10 billion of account values of Prudential Defined Income ("PDI") traditional variable annuity contracts with guaranteed living benefits. See Note 12 for additional information regarding this transaction. As a result of this transaction, a ceded MRB asset balance was established to fair value the reinsurance reimbursements to the Company. The establishment of the fair value also required an estimate of NPR for AuguStar, which may differ from the Company's; however, the NPR spreads for AuguStar were developed using a methodology similar to that of the Company.
- (8) The utilization rate assumption estimates the percentage of contracts that will utilize the benefit during the contract duration and begin lifetime withdrawals at various time intervals from contract inception. The remaining contractholders are assumed to either begin lifetime withdrawals immediately or never utilize the benefit. Utilization assumptions may vary by product type, tax status and age. The impact of changes in these assumptions is highly dependent on the product type, the age of the contractholder at the time of the sale, and the timing of the first lifetime income withdrawal. Range reflects the utilization rate for the vast majority of business with living benefits.
- (9) The withdrawal rate assumption estimates the magnitude of annual contractholder withdrawals relative to the maximum allowable amount under the contract. These assumptions vary based on the age of the contractholder, the tax status of the contract and the duration since the contractholder began lifetime withdrawals. As of both September 30, 2025 and December 31, 2024, the minimum withdrawal rate assumption is 78% and the maximum withdrawal rate assumption may be greater than 100%. The fair value of the liability will generally increase the closer the withdrawal rate is to 100% and decrease as the withdrawal rate moves further away from 100%.
- (10) The range reflects the mortality rates for the vast majority of business with living benefits and other contracts, with policyholders ranging from 50 to 90 years old. While the majority of living benefits have a minimum age requirement, certain other contracts do not have an age restriction. This results in contractholders with mortality rates approaching 0% for certain benefits. Mortality rates may vary by product, age, and duration. A mortality improvement assumption is also incorporated into the overall mortality table.
- (11) Includes deposit assets related to reinsurance agreements using deposit method of accounting and modified coinsurance agreements, which include amounts representing the fair value of embedded derivative instruments associated with the index-linked features of certain annuity products.
- (12) Policyholders' account balances primarily represent general account liabilities for the index-linked interest credited on certain of the Company's life and annuity products that are accounted for as embedded derivatives. Since the valuation methodology for these liabilities uses a range of inputs that vary at the contract level over the cash flow projection period, presenting a range, rather than a weighted average, is a more meaningful representation of the unobservable inputs used in the valuation.
- (13) Option budget estimates the expected long-term cost of options used to hedge exposures associated with equity price and interest rate changes. The level of option budget determines future costs of the options, which impacts the growth in account value and the valuation of embedded derivatives.

Interrelationships Between Unobservable Inputs – In addition to the sensitivities of fair value measurements to changes in each unobservable input in isolation, as reflected in the table above, interrelationships between these inputs may also exist, such that a change in one unobservable input may give rise to a change in another or multiple inputs. Examples of such interrelationships for significant internally-priced Level 3 assets and liabilities are as follows:

Corporate Securities – The rate used to discount future cash flows reflects current risk-free rates plus credit and liquidity spread requirements that market participants would use to value an asset. The discount rate may be influenced by many factors, including market cycles, expectations of default, collateral, term, and asset complexity. Each of these factors can influence discount rates, either in isolation, or in response to other factors. During weaker economic cycles, as the expectations of default increase, credit spreads widen, which results in a decrease in fair value.

Commercial Mortgage-backed Securities – Interrelationships may exist between the prepayment rate, the default rate and/or loss severity, depending on specific market conditions. In stronger economic cycles, prepayment rates are generally driven by underlying property appreciation and subsequent cash-out refinances, while default rates and loss severity may be lower. During weaker economic cycles, prepayment rates may decline, while default rates and loss severity increase. Generally, a change in the assumption used for the probability of default would be accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment rates. The impact of these factors on average life and economics varies with the deal structure and tranche subordination.

Market Risk Benefits – The Company expects efficient benefit utilization and withdrawal rates to generally be correlated with lapse rates. However, behavior is generally highly dependent on the facts and circumstances surrounding the individual contractholder, such as their liquidity needs or tax situation, which could drive lapse behavior independent of other contractholder behavior assumptions. To the extent more efficient contractholder behavior results in greater in-the-moneyness at the contract level, lapse rates may decline for those contracts. Similarly, to the extent that increases in equity volatility are correlated with overall declines in the capital markets, lapse rates may decline as contracts become more in-the-money.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Changes in Level 3 Assets and Liabilities – The following tables describe changes in fair values of Level 3 assets and liabilities as of the dates indicated, as well as the portion of gains or losses included in income attributable to unrealized gains or losses related to those assets and liabilities still held at the end of their respective periods (excluding MRBs disclosed in Note 11). When a determination is made to classify assets and liabilities within Level 3, the determination is based on significance of the unobservable inputs in the overall fair value measurement. All transfers are based on changes in the observability of the valuation inputs, including the availability of pricing service information that the Company can validate. Transfers into Level 3 are generally the result of unobservable inputs utilized within valuation methodologies and the use of indicative broker quotes for assets that were previously valued using observable inputs. Transfers out of Level 3 are generally due to the use of observable inputs in valuation methodologies as well as the availability of pricing service information for certain assets that the Company can validate.

Three Months Ended September 30, 2025(6)

(1) "Other" includes additional activity not allocated to the specific categories within the rollforward of Level 3 Assets and Liabilities.

(2) Unrealized gains or losses related to assets still held at the end of the period do not include amortization or accretion of premiums and discounts.

(3) Includes U.S. corporate private, foreign corporate public, foreign corporate private, and foreign government bonds.

(4) Includes asset-backed, commercial mortgage-backed, and residential mortgage-backed securities.

(5) Purchases/issuances and settlements for Policyholders' account balances and Reinsurance recoverables and deposit receivables are presented net in the rollforward.

(6) Excludes MRB assets of \$2,585 million and \$2,499 million and MRB liabilities of \$4,618 million and \$4,915 million for the periods ended September 30, 2025 and 2024, respectively. See Note 11 for additional information.

(7) Transfers into or out of Level 3 are generally reported at the value as of the beginning of the quarter in which the transfers occur for any such positions still held at the end of the quarter.

(8) Prior period amounts have been updated to conform to current period presentation.

(9) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Fair Value Option

The fair value option allows the Company to elect fair value as an alternative measurement for selected financial assets and financial liabilities not otherwise reported at fair value. Such elections have been made by the Company to help mitigate volatility in earnings that result from different measurement attributes. Electing the fair value option also allows the Company to achieve consistent accounting for certain assets and liabilities. Changes in fair value are reflected in “Other income (loss)” for notes issued by consolidated VIEs.

The following table presents information regarding assets and liabilities where the fair value option has been elected.

	September 30, 2025	December 31, 2024
	(in thousands)	
Notes issued by consolidated variable interest entities:		
Fair value as of period end	\$ 17,538	\$ 0
Aggregate contractual principal as of period end	\$ 17,538	\$ 0

Fair Value of Financial Instruments

The tables below present the carrying amount and fair value by fair value hierarchy level of certain financial instruments that are not reported at fair value. The financial instruments presented below are reported at carrying value on the Company’s Unaudited Interim Consolidated Statements of Financial Position. In some cases, as described below, the carrying amount equals or approximates fair value.

(1) Includes the impact of the International reinsurance transaction with The Prudential Life Insurance Company, Ltd. ("Prudential of Japan"), including \$14 million of DRG. See Note 12 for additional information.

Nine Months Ended September 30, 2024					
	Fixed Annuities	Variable Annuities	Variable / Universal Life	International	Total
	(in thousands)				
Balance, beginning of period	\$ 48,073	\$ 261,721	\$ 1,363,496	\$ 0	\$ 1,673,290
Amortization	(8,109)	(15,237)	(86,695)	0	(110,041)
Other(1)	118	98	1,092,199	0	1,092,415
Balance, end of period	<u>\$ 40,082</u>	<u>\$ 246,582</u>	<u>\$ 2,369,000</u>	<u>\$ 0</u>	<u>\$ 2,655,664</u>

(1) Other includes the impact of the Universal Life reinsurance transaction with PAR U, PURE and Prudential Insurance, including \$1,207 million of DRG, partially offset by a \$116 million write-off. See Note 12 for additional information.

Deferred Sales Inducements ("DSI")

The following table shows a rollforward of DSI balances for variable annuity products, which is the only line of business that contains a DSI balance, along with a reconciliation to the Company's total DSI balance:

	Nine Months Ended September 30,			
	2025		2024	
	(in thousands)			
Balance, beginning of period	\$	322,351	\$	351,424
Capitalization		3,194		1,753
Amortization expense		(22,099)		(22,913)
Other		388		0
Balance, end of period	\$	303,834	\$	330,264

8. SEPARATE ACCOUNTS

The Company issues variable annuity and variable life insurance contracts through its separate accounts for which investment income and investment gains and losses accrue directly to, and investment risk is borne by, the contractholder. Most variable annuity and variable life insurance contracts are offered with both separate and general account options. See Note 10 for additional information.

The assets supporting the variable portion of variable annuity and variable life insurance contracts are carried at fair value and reported as "Separate account assets" with an equivalent amount reported as "Separate account liabilities". The liabilities related to the net amount at risk are reflected within "Future policy benefits" or "Market risk benefit liabilities" (or "assets", if applicable). Amounts assessed against the contractholders for mortality, administration, and other services are included within revenue in "Policy charges and fee income" and changes in liabilities for minimum guarantees are generally included in "Policyholders' benefits" or "Change in value of market risk benefits, net of related hedging gains (losses)".

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Separate Account Assets

The aggregate fair value of assets, by major investment asset category, supporting separate accounts is as follows:

	September 30, 2025	December 31, 2024
	(in thousands)	
Asset Type:		
U.S. Treasury securities and obligations of U.S. government authorities and agencies	\$ 24,350	\$ 15,548
Obligations of U.S. states and their political subdivisions authorities	117	115
U.S. corporate securities	51,055	24,458
Foreign corporate securities	3,443	3,158
Asset-backed securities	791	1,099
Mortgage-backed securities	157	82
Mutual funds:		
Equity	75,160,096	73,226,610
Fixed Income	31,544,612	33,828,097
Other	5,319,636	4,431,975
Equity securities	243,874	126,792
Other invested assets	7,520,085	6,444,077
Short-term investments	3,750	2,559
Cash and cash equivalents	33,173	38,686
Total	<u>\$ 119,905,139</u>	<u>\$ 118,143,256</u>

For the nine months ended September 30, 2025 and year ended December 31, 2024, there were no transfers of assets, other than cash, from the general account to a separate account; therefore, no gains or losses were recorded.

Separate Account Liabilities

The balances of and changes in separate account liabilities as of and for the periods indicated are as follows:

	Nine Months Ended September 30, 2025		
	Variable Annuities	Variable Life	Total
	(in thousands)		
Balance, beginning of period	\$ 85,183,055	\$ 32,960,201	\$ 118,143,256
Deposits	419,214	2,884,077	3,303,291
Investment performance	8,197,009	3,916,767	12,113,776

Cash surrender value(1)	\$ 89,812,490	\$ 28,717,582	\$ 118,530,072

(1) Represents the amount of the contractholder's account balances distributable at the balance sheet date less certain surrender charges.

9. LIABILITY FOR FUTURE POLICY BENEFITS

Liability for future policy benefits primarily consists of the following sub-components, which are discussed in greater detail below.

- Benefit reserves;
- Deferred profit liability ("DPL"); and
- Additional insurance reserves ("AIR")

In 2025, the Company recognized a favorable impact to net income attributable to its annual reviews and update of assumptions and other refinements for liability for future policy benefits. The impact was favorable for direct and assumed benefit reserves and DPL, net of the impact of flooring these liabilities at zero for each issue year cohort, primarily due to updates to mortality assumptions in individual life insurance. Additionally, there was a favorable impact for direct and assumed AIR, primarily due to offsetting impacts from updated policyholder behavior assumptions and mortality assumptions on universal life policies.

In 2024, the Company recognized an impact to net income attributable to our annual reviews and update of assumptions and other refinements for liability for future policy benefits. Overall impact is immaterial for direct and assumed benefit reserves and DPL, net of the impact of flooring these liabilities at zero for each issue year cohort. Additionally, for direct and assumed AIR, the Company recognized an unfavorable impact primarily due to updates to policyholder behavior assumptions on universal life policies with secondary guarantees.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Benefit Reserves

The balances of and changes in benefit reserves as of and for the periods indicated consist of the three tables presented below: present value of expected net premiums rollforward, present value of expected future policy benefits rollforward, and net liability for future policy benefits.

Nine Months Ended September 30, 2025			
Present Value of Expected Net Premiums

Discounted expected future gross premiums (at current discount rate)	\$	14,780,675	\$	0
Undiscounted expected future benefits and expenses	\$	29,134,537	\$	341,000
Weighted-average duration of the liability in years (at original discount rate)		10		7
Weighted-average duration of the liability in years (at current discount rate)		9		6
Weighted-average interest rate (at original discount rate)		5.13	%	3.90
Weighted-average interest rate (at current discount rate)		4.91	%	4.82

For additional information regarding observable market information and the techniques used to determine the interest rate assumptions seen above, see Note 2 to the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

For non-participating traditional and limited-payment products, if a cohort is in a loss position where the liability for future policy benefits plus the present value of expected future gross premiums are determined to be insufficient to provide for the present value of expected future policy benefits and non-level claim settlement expenses, then the liability for future policy benefits is adjusted at that time, and thereafter such that all changes, both favorable and unfavorable, in expected benefits resulting from both actual experience deviations and changes in future assumptions are recognized immediately as a gain or loss, respectively.

In the first nine months of 2025, there was an immaterial impact to net income for non-participating traditional and limited-payment products, where net premiums exceeded gross premiums for certain issue-year cohorts.

In the first nine months of 2024, there was a \$29 million gain in net income for non-participating traditional and limited-payment products, where net premiums exceeded gross premiums for certain issue-year cohorts, which was offset by a \$28 million charge, reflecting the impact of ceded reinsurance on the affected cohorts.

Deferred Profit Liability

The balances of and changes in DPL as of and for the periods indicated are as follows:

	Nine Months Ended September 30,			
	2025		2024	
	Fixed Annuities

Additional Insurance Reserves

AIR represents the additional liability for annuitization, death, or other insurance benefits, including guaranteed minimum death benefits ("GMDB") and guaranteed lifetime withdrawal benefit ("GLWB") contract features, that are above and beyond the contractholder's account balance for certain long-duration life and annuity contracts.

The following table shows a rollforward of AIR balances for variable and universal life and fixed annuities products for the periods indicated, along with a reconciliation to the Company's total AIR balance:

Future Policy Benefits Reconciliation

The following table presents the reconciliation of the ending balances from the above rollforwards, benefit reserves, DPL, and AIR, including other liabilities, gross of related reinsurance recoverables, to the total liability for future policy benefits as reported on the Company's Unaudited Interim Consolidated Statements of Financial Position as of the periods indicated:

	Nine Months Ended September 30,	
	2025	2024
	(in thousands)	
Benefit reserves, end of period, post-flooring	\$ 7,884,537	\$ 7,968,126
Deferred profit liability, end of period, post-flooring	23,010	19,979
Additional insurance reserves, including amounts in AOCI, end of period, post-flooring	17,782,283	16,232,777
Subtotal of amounts disclosed above	25,689,830	24,220,882
Other Future policy benefits reserves(1)	1,107,667	1,032,177
Total Future policy benefits	\$ 26,797,497	\$ 25,253,059

(1) Primarily represents balances for which disaggregated rollforward disclosures are not required, including unpaid claims and claims expenses, and incurred but not reported and in course of settlement claim liabilities.

Revenue and Interest Expense

The following tables present revenue and interest expense related to benefit reserves, DPL, and AIR, as well as related revenue and interest expense not presented in the above supplemental tables, in the Company's Consolidated Statement of Operations for the periods indicated:

	Nine Months Ended September 30, 2025			
	Revenues(1)			
	Term Life	Variable/ Universal Life	Fixed Annuities	Total
	(in thousands)			
Benefit reserves	\$ 1,376,032	\$ 0	\$ 37,160	\$ 1,413,192
Deferred profit liability	0	0	(71)	(71)
Additional insurance reserves	0	1,136,423	40,696	1,177,119
Total	\$ 1,376,032	\$ 1,136,423	\$ 77,785	\$ 2,590,240

	Nine Months Ended September 30, 2024

Weighted-average crediting rate(4)	2.45 %	1.83 %	2.79 %	2.28 %	
Net amount at risk(2)	\$ 16	\$ 0	\$ 336,737,789	\$ 336,737,805	
Cash surrender value(3)	\$ 9,070,551	\$ 29,028,016	\$ 19,188,896	\$ 57,287,463	

(1) Primarily relates to changes in the value of embedded derivative instruments associated with the indexed options of certain products.

(2) The net amount at risk calculation includes both general and separate account balances.

(3) Represents the amount of the contractholder's account balances distributable at the balance sheet date less certain surrender charges.

(4) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

The Company issues variable life and universal life insurance contracts which may also include a “no-lapse guarantee” where the Company contractually guarantees to the contractholder a death benefit even when the account value drops to zero, as long as the “no-lapse guarantee” premium is paid.

The net amount at risk is generally defined as the current death benefit in excess of the current account balance at the balance sheet date. The Company's primary risk exposures for these contracts relates to actual deviations from, or changes to, the assumptions used in the original pricing of these products, including contractholder mortality, contract lapses, and premium pattern, as well as interest rate and equity market returns.

The Company also issues annuity contracts that provide certain death benefit and/or living benefit guarantees and are accounted for as MRBs. See Note 11 for additional information, including the net amount at risk associated with these guarantees.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The balance of account values by range of guaranteed minimum crediting rates and the related range of difference, in basis points ("bps"), between rates being credited to policyholders and the respective guaranteed minimums are as follows:

Balance, end of period	\$ 3,366,801	\$ 0	\$ (950,872)	\$ 2,415,929

(1) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

(2) Prior period amounts have been updated to conform to current presentation.

In both 2025 and 2024, the Company recognized an unfavorable impact to net income attributable to the actuarial assumption update for direct and assumed MRBs, primarily due to updates to policyholder behavior assumptions.

The Company issues certain variable annuity insurance contracts where the Company contractually guarantees to the contractholder a return of no less than (1) total deposits made to the contract adjusted for any partial withdrawals plus a minimum return, and/or (2) the highest anniversary contract value on a specified date adjusted for any withdrawals. These guarantees include benefits that are payable in the event of death, annuitization or at specified dates during the accumulation period and withdrawal and income benefits payable during specified periods.

The Company also issues indexed annuity contracts for which the return is tied to the return of specific indices where the Company contractually guarantees to the contractholder a return of no less than total deposits made to the contract adjusted for any partial withdrawals upon death. In certain of these indexed annuity contracts, the Company also contractually guarantees to the contractholder withdrawal benefits payable during specific periods.

For guarantees of benefits that are payable in the event of death, the net amount at risk is generally defined as the current guaranteed minimum death benefit in excess of the current account balance at the balance sheet date. The Company's primary risk exposures for these contracts relates to actual deviations from, or changes to, the assumptions used in the original pricing of these products, including fixed income and equity market returns, contract lapses and contractholder mortality.

For guarantees of benefits that are payable at annuitization, the net amount at risk is generally defined as the present value of the minimum guaranteed annuity payments available to the contractholder determined in accordance with the terms of the contract in excess of the current account balance. The Company's primary risk exposures for these contracts relates to actual deviations from, or changes to, the assumptions used in the original pricing of these products, including fixed income and equity market returns, timing of annuitization, contract lapses and contractholder mortality.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

For guarantees of benefits that are payable at withdrawal, the net amount at risk is generally defined as the present value of the minimum guaranteed withdrawal payments available to the contractholder determined in accordance with the terms of the contract in excess of the current account balance.

For guarantees of accumulation balances, the net amount at risk is generally defined as the guaranteed minimum accumulation balance minus the current account balance. The Company's primary risk exposures for these contracts relates to actual deviations from, or changes to, the assumptions used in the original pricing of these products, including equity market returns, interest rates, market volatility and contractholder behavior.

The following table presents accompanying information to the rollforward table above.

	September 30, 2025	
	Variable Annuities	Fixed Annuities
	(\$ in thousands)	
Net amount at risk(1)	\$ 7,533,650	\$ 486,180
Weighted-average attained age of contractholders	72	66

	September 30, 2024	
	Variable Annuities	Fixed Annuities
	(\$ in thousands)	
Net amount at risk(1)	\$ 7,321,371	N/A
Weighted-average attained age of contractholders	71	N/A

(1) For contracts with multiple benefit features, the highest net amount at risk for each contract is included.

The table below reconciles MRB asset and liability positions as of the following dates:

	September 30, 2025		
	Variable Annuities	Fixed Annuities	Total

12. REINSURANCE

The Company participates in reinsurance with its affiliates Prudential Arizona Reinsurance Captive Company (“PARCC”), PAR U, PURE, Lotus Reinsurance Company Ltd. (“Lotus Re”), Prudential of Japan, prior to January 1, 2024 with its affiliates Prudential Universal Reinsurance Company (“PURC”) and Gibraltar Universal Life Reinsurance Company (“GUL Re”), and prior to October 1, 2024 with its affiliates Prudential Arizona Reinsurance Term Company (“PAR Term”), Prudential Term Reinsurance Company (“Term Re”) and Dryden Arizona Reinsurance Term Company (“DART”). The Company also participates in reinsurance with its parent company Prudential Insurance, as well as third-parties. The reinsurance agreements provide risk diversification and additional capacity for future growth, limit the maximum net loss potential, manage statutory capital, and facilitate the Company's capital market hedging program. Life reinsurance is accomplished through various plans of reinsurance, primarily yearly renewable term (“YRT”) and coinsurance. Reinsurance ceded arrangements do not discharge the Company as the primary insurer. Ceded balances would represent a liability of the Company in the event the reinsurers were unable to meet their obligations to the Company under the terms of the reinsurance agreements. The Company believes a material reinsurance liability resulting from such inability of reinsurers to meet their obligations is unlikely.

Effective October 2024, the Company entered into an agreement with Wilton Reassurance Company and Wilton Reinsurance Bermuda Limited (collectively, “Wilton Re”) to coinsure a closed block of guaranteed universal life (“GUL”) policies, resulting in a DRL of \$979 million. To effectuate this transaction the Company recaptured all risks associated with the subject GUL policies from PAR U and subsequently established YRT reinsurance for the subject GUL business with Prudential Insurance. As a result of these transactions, the Company recognized a \$270 million pre-tax recapture gain and a \$798 million DRG, respectively. The DRL and DRG will be amortized into income over the remaining life of the reinsured policies.

Effective January 2024, the Company entered into an agreement with Somerset Reinsurance Ltd. (“Somerset Re”) to coinsure a closed block of GUL policies to PURE, a wholly-owned subsidiary of Prudential Insurance, with retrocession by PURE of such liabilities on a modified coinsurance basis, to Somerset Re. This transaction is effective as of January 1, 2024, whereby, the Company recaptured all risks associated with the subject GUL policies from PAR U, PURC and GUL Re and subsequently established YRT reinsurance for the subject GUL business with Prudential Insurance. As a result of these transactions, the Company recognized a \$990 million pre-tax recapture loss and a \$1,207 million DRG, respectively. The DRG will be amortized into income over the estimated remaining life of the reinsured policies.

Reserves related to reinsured long-duration contracts are accounted for using assumptions consistent with those used to account for the underlying contracts. Amounts recoverable from reinsurers for long-duration reinsurance arrangements are estimated in a manner consistent with the claim liabilities and policy benefits associated with the reinsured policies. Reinsurance policy charges and fee income ceded for universal life and variable annuity products are accounted for as a reduction of policy charges and fee income. Reinsurance premiums ceded for term insurance products are accounted for as a reduction of premiums.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Reinsurance agreements that do not expose the Company to a reasonable possibility of a significant loss from insurance risk are recorded using the deposit method of accounting. The deposit assets on reinsurance are recorded within “Reinsurance recoverables and deposit receivables” and the corresponding funds withheld liability for assets retained under these reinsurance agreements are recorded within “Reinsurance and funds withheld payables”. Balances associated with these agreements are included in the tables below.

“Change in value of market risk benefits, net of related hedging gains (losses)” includes the impact of reinsurance agreements, particularly reinsurance agreements involving living benefit guarantees. The Company has entered into reinsurance agreements to transfer the risk related to the living benefit guarantees on variable annuities within the PLNJ business to Prudential Insurance. These reinsurance agreements are MRBs and have been accounted for in the same manner.

Reinsurance amounts included in the Company’s Unaudited Interim Consolidated Statements of Financial Position were as follows:

	September 30, 2025	December 31, 2024
	(in thousands)

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Significant Affiliated Reinsurance Agreements

PAR U

Pruco Life reinsures 70% of all the risks associated with Universal Protector policies having no-lapse guarantees as well as certain other universal life policies, with effective dates prior to January 1, 2011.

Effective July 1, 2012, PLNJ reinsures 95% of all the risks associated with Universal Protector policies having no-lapse guarantees as well as certain other universal life policies, with effective dates through December 31, 2019, excluding those policies that are subject to principle-based reserving.

On January 2, 2013, Pruco Life began to assume GUL business from Prudential Insurance in connection with the acquisition of the Hartford Life Business. The GUL business assumed from Prudential Insurance was subsequently retroceded to PAR U.

Effective January 1, 2024, Pruco Life recaptured the policies equal to 70% of all the risks associated with Universal Protector policies having no-lapse guarantees as well as certain other universal life policies, with effective dates prior to January 1, 2011. Effective January 1, 2024, Pruco Life reinsures 25% of the risks associated with universal life policies with effective dates prior to January 1, 2015 and 100% of the risks associated with universal life policies with effective dates beginning January 1, 2015.

Effective January 1, 2024, PLNJ recaptured the policies previously reinsured by PAR U with effective dates prior to January 1, 2015. Effective January 1, 2024, PLNJ reinsures 100% of the risks associated with universal life policies, with effective dates from January 1, 2015 to December 31, 2019.

Effective October 1, 2024, Pruco Life recaptured the remaining portion of the policies equal to 25% of the risks associated with universal life policies with effective dates prior to January 1, 2015 and 100% of the risks associated with universal life policies with effective dates beginning January 1, 2015. As a result of the recapture, the Company recognized a \$270 million pre-tax recapture gain, as discussed above, which includes the recognition of a prior \$94 million DRG related to the previous reinsurance agreement. Following the result of this recapture, Pruco Life only cedes the GUL business in connection with the Hartford Life Business to PAR U as of December 31, 2024.

Effective October 1, 2024, PLNJ recaptured 100% of the risks associated with the remaining universal life policies, with effective dates from January 1, 2015 to December 31, 2019. As a result of the recapture, the Company recognized a \$29 million pre-tax recapture loss which is part of the \$270 million pre-tax recapture gain discussed above. The loss includes the recognition of a prior \$8 million DRG related to the previous reinsurance agreement. Following the result of this recapture, PLNJ no longer cedes to PAR U as of December 31, 2024.

On March 28, 2024, PURC and GUL Re merged into PAR U.

PURE

Effective January 1, 2024, Pruco Life reinsures 75% of the risks associated with Universal Protector policies having no-lapse guarantees as well as certain other universal life policies, with effective dates prior to January 1, 2015.

Effective January 1, 2024, PLNJ reinsures 100% of the risks associated with Universal Protector policies having no-lapse guarantees as well as certain other universal life policies, with effective dates prior to January 1, 2015.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

PURC

Pruco Life reinsures 70% of all the risks associated with its Universal Protector policies having no-lapse guarantees as well as certain other universal life policies, with effective dates from January 1, 2011 through December 31, 2013, with PURC and 95% of all the risks associated with Universal Protector policies having no-lapse guarantees, as well as certain other universal life policies, with effective dates from January 1, 2014 through December 31, 2016.

Effective January 1, 2024, the Company recaptured the policies previously reinsured by PURC. As a result of the recapture, the Company recorded a write-off of \$116 million of DRG that was recognized with the previous reinsurance agreement.

On March 28, 2024, PURC merged into PAR U.

PARCC

Prior to July 1, 2019, the Company reinsured 90% of the risks under its term life insurance policies, with effective dates prior to January 1, 2010 through an automatic coinsurance agreement with PARCC. Effective July 1, 2019, the Company amended the coinsurance agreement to increase the percentage from 90% to 100% of the policy risk amount reinsured. The amended agreement does not impact contracts issued by PLNJ, which remain at the original percentage.

Effective October 1, 2024, the Company revised the existing coinsurance terms with PARCC, increasing the quota share of reinsured policies to 100% which includes policies which were previously reinsured to PAR Term, Term Re and DART. As a result of the revised terms, the Company recognized a \$351 million DRL that will be amortized into income over the estimated remaining life of the reinsured policies.

On November 20, 2024, PAR Term, Term Re and DART merged into PARCC.

GUL Re

Effective January 1, 2017, Pruco Life entered into an automatic coinsurance agreement with GUL Re to reinsure 95% of all the risks associated with Universal Protector policies having no-lapse guarantees, as well as certain other universal life policies, with effective dates on or after January 1, 2017 through December 31, 2019, excluding those policies that are subject to principle-based reserving.

Effective July 1, 2017, Pruco Life amended this agreement to include 30% of Universal Protector policies having no-lapse guarantees as well as certain other universal life policies with effective dates prior to January 1, 2014.

Effective January 1, 2024, the Company recaptured the policies previously reinsured by GUL Re.

On March 28, 2024, GUL Re merged into PAR U.

PAR Term

Prior to July 1, 2019, the Company reinsures 95% of the risks under its term life insurance policies with effective dates January 1, 2010 through December 31, 2013, through an automatic coinsurance agreement with PAR Term. Effective July 1, 2019, the Company amended the coinsurance agreement to increase the percentage from 95% to 100% of the policy risk amount reinsured. The amended agreement does not impact contracts issued by PLNJ, which remain at the original percentage.

On November 20, 2024, PAR Term merged into PARCC.

Term Re

The Company reinsures 95% of the risks under its term life insurance policies, with effective dates on or after January 1, 2014 through December 31, 2017, through an automatic coinsurance agreement with Term Re.

On November 20, 2024, Term Re merged into PARCC.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Prudential Insurance

The Company has a YRT reinsurance agreement with Prudential Insurance and reinsures the majority of all mortality risks not otherwise reinsured. This agreement was terminated for new business effective January 1, 2020, with certain new business (primarily universal life policies) terminated as early as 2017. The Company now reinsures a portion of the mortality risk directly to third-party reinsurers and retains all of the non-reinsured portion of the mortality risk. Effective July 1, 2019, certain term life insurance policies were recaptured and subsequently reinsured to PARCC and PAR Term as noted above. As of January 1, 2022, most of the variable life insurance policies were recaptured resulting in a \$305 million loss recorded through “Policy charges and fee income”. Those policies were then reinsured to Lotus Re as mentioned below. Effective January 1, 2024, the Company recaptured all GUL policies with Prudential Insurance and subsequently entered into a YRT reinsurance agreement with Prudential Insurance to reinsure the mortality risk for the totality of GUL policies reinsured to PURE. Effective October 1, 2024, the Company recaptured the term business from Prudential Insurance, and revised the existing coinsurance terms with PARCC to reflect revised quota share. As a result of the recapture, the Company recognized a \$3 million pre-tax recapture loss. Additionally, effective October 1, 2024, the Company entered into a YRT reinsurance agreement with Prudential Insurance to reinsure the mortality risk of recaptured GUL policies from PAR U.

Effective October 1, 2025, Prudential Insurance will be novating several unaffiliated YRT treaties to Pruco Life. To effectuate the novation of YRT treaties, Pruco Life will be recapturing certain YRT treaties it has ceded to Prudential Insurance, including those related to reinsurance transactions effective January 2024 and October 2024 with Somerset Re and Wilton Re, respectively. The deferred reinsurance gains associated with those transactions will be recognized immediately.

On January 2, 2013, Pruco Life began to assume GUL business from Prudential Insurance in connection with the acquisition of the Hartford Financial Services Group, Inc. (“Hartford Financial”). The GUL business assumed from Prudential Insurance was subsequently retroceded to PAR U. In May 2018, Hartford Financial sold a group of operating subsidiaries, which includes two of Prudential Insurance's counterparties to these reinsurance arrangements. There was no impact to the terms, rights or obligations of Prudential Insurance, or operation of these reinsurance arrangements, as a result of this change in control of such counterparties. Similarly, there was no impact to the Company's reinsurance arrangements with respect to such GUL business as a result of this change in control. In January 2021, there was a definitive agreement announced to subsequently sell the two counterparties mentioned above, which were then acquired by Sixth Street in July 2021. There was no impact to the terms, rights or obligations of the Company, or operation of these reinsurance arrangements, as a result of this change in control of such counterparties.

The Company has reinsured a group annuity contract with Prudential Insurance, in consideration for a single premium payment by the Company, providing reinsurance equal to 100% of all payments due under the contract.

Effective April 1, 2016, PLNJ entered into a reinsurance agreement to reinsure its variable annuity base contracts, along with the living benefit guarantees to Prudential Insurance. This reinsurance agreement covers new and in force business. Effective February 1, 2023, PLNJ began selling indexed variable annuities products, which is reinsured to Prudential Insurance through the existing reinsurance agreement. The reinsurance of the indexed variable annuities transfers all significant risks, including mortality risk, embedded in the reinsured contracts to Prudential Insurance. As a result of the agreement, reinsurance payables includes the ceded modified coinsurance arrangement, which reflects the value of the invested assets retained by the Company and the associated asset returns.

Lotus Re

Effective October 1, 2021, the Company entered into an automatic coinsurance agreement with Lotus Re to reinsure \$32 million of liabilities associated with the risks associated with a portion of its variable life policies in the extended term policy status.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Effective January 1, 2022 the Company recaptured the risks that were previously ceded to Lotus Re from October 1, 2021 through December 31, 2021. Immediately thereafter, the Company entered into a reinsurance agreement with Lotus Re to cede 100% of the risks associated with a closed block of variable life business on a coinsurance and modified coinsurance basis including policies in the extended term policy status. The amount of the net liabilities associated with the transaction for coinsurance and modified coinsurance were \$1,387 million and \$14,037 million, respectively. As part of the consideration, the Company also ceded to Lotus Re \$855 million of policy loan assets associated with the reinsured policies while receiving \$820 million in cash from Lotus Re. As a result, the Company recorded a \$1,352 million deferred gain, which will be recognized over the remaining life of the underlying policies. In tandem with the transaction, effective January 1, 2022, Lotus Re established an automatic YRT agreement with the Company to cede back a portion of the mortality risks associated with the reinsured policies for the purposes of the Company maintaining YRT reinsurance with external counterparties.

Effective December 15, 2024, the Company entered into a reinsurance agreement with Lotus Re to cede 100% of the risks associated with certain fixed rated annuities and fixed indexed annuities contracts issued on or after the effective date of the agreement on a coinsurance basis. The deposit receivables were \$1,178 million and \$52 million as of September 30, 2025 and December 31, 2024, respectively.

DART

Effective January 1, 2018, the Company entered into an automatic coinsurance agreement with DART to reinsure 95% of the risks associated with its term life insurance policies with effective dates on or after January 1, 2018 through December 31, 2019, excluding those policies that are subject to principle-based reserving.

On November 20, 2024, DART merged into PARCC.

Prudential of Japan

Effective January 2025, the Company entered into an agreement with Prudential of Japan to reinsure GMDB associated with yen-denominated variable whole life policies. As a result of this transaction, the Company assumed \$5 million of GMDB liabilities and recognized a \$14 million DRG at inception. The DRG will be amortized into income over the estimated remaining life of the reinsured policies.

Significant Third-Party Reinsurance Arrangements

AuguStar Life Insurance Company (Formerly Known as The Ohio National Life Insurance Company)

Effective April 1, 2023, the Company entered into an agreement with AuguStar, an affiliate of Constellation Insurance Holdings, Inc., to reinsure approximately \$10 billion of account values of PDI traditional variable annuity contracts with guaranteed living benefits. This block represents approximately 10% of the Company's remaining legacy in force traditional variable annuity block by account value. The Company ceded 100% of separate account liabilities under modified coinsurance and 100% of general account liabilities under coinsurance of its PDI traditional variable annuity contracts. The general account liabilities associated with PDI's guaranteed living and death benefits and the corresponding reinsurance of those liabilities are accounted for as MRBs. As a result of the transaction, the Company recognized a \$277 million DRG at inception that is amortized into income over the estimated remaining life of the reinsured policies.

FLIAC

Effective December 1, 2021, the Company entered into a reinsurance agreement with Prudential Annuities Life Assurance Corporation ("PALAC"), a previously wholly-owned subsidiary of Prudential Financial sold in April 2022, and now known as FLIAC, under which the Company assumed all of FLIAC's indexed variable annuities under modified coinsurance. The reinsurance of the indexed variable annuities transfers all significant risks, including mortality risk, embedded in the reinsured contracts to the Company. As a result of the agreement, "Reinsurance recoverables and deposit receivables" includes the assumed modified coinsurance receivable, which reflects the value of the invested assets retained by FLIAC and the associated asset returns. The Company also assumed via coinsurance all of FLIAC's fixed indexed annuities and fixed annuities with a guaranteed lifetime withdrawal income feature which are accounted for under the deposit method of accounting. The reinsurance agreement offers the policyholders the opportunity to novate their contracts from FLIAC to the Company and any such novated contracts shall cease to be reinsured under this agreement. Reinsurance recoverables and deposit receivables was \$1,375 million and \$1,395 million as of September 30, 2025 and December 31, 2024, respectively.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Somerset Re

Effective October 1, 2021, the Company entered into a reinsurance agreement with Somerset Re to coinsure business, on a quota share funds withheld basis, related to fixed indexed annuities. Under the reinsurance agreement, the Company cedes to Somerset Re its quota share of the insurance liabilities with respect to the reinsured contracts. The deposit assets on reinsurance totaled \$2,501 million and \$2,582 million at September 30, 2025 and December 31, 2024, respectively. The funds withheld payables totaled \$2,612 million and \$2,434 million at September 30, 2025 and December 31, 2024, respectively.

Union Hamilton

Between April 1, 2015 and December 31, 2016, the Company, excluding its subsidiary, reinsured approximately 50% of the new business related to “highest daily” living benefits rider guarantees on HDI v.3.0 product, available with Prudential Premier® Retirement Variable Annuity, to Union Hamilton. This reinsurance remains in force for the duration of the underlying annuity contracts. New sales of HDI v.3.0 subsequent to December 31, 2016 are not covered by this external reinsurance agreement. As of September 30, 2025, \$1.7 billion of HDI v.3.0 account values are reinsured to Union Hamilton.

Wilton Re

Effective October 1, 2024, the Company entered into a reinsurance agreement with Wilton Re to coinsure a closed block of GUL policies. Reinsurance recoverables was \$7,815 million and \$7,478 million as of September 30, 2025 and December 31, 2024, respectively.

13. INCOME TAXES

The Company uses a full year projected effective tax rate approach to calculate year-to-date taxes. In determining the full year projected tax rate, the Company considers the realizability of deferred tax assets, including those associated with unrealized investment losses, and has determined based upon the weight of available evidence that no valuation allowance is necessary related to unrealized investment losses. In addition, certain items impacting total income tax expense are recorded in the periods in which they occur. The projected effective tax rate is the ratio of projected “Income tax expense (benefit)” divided by projected “Income (loss) from operations before income taxes and equity in earnings of operating joint venture”. Taxes attributable to operating joint venture are recorded within “Equity in earnings of operating joint venture, net of taxes”. The interim period tax expense (or benefit) is the difference between the year-to-date income tax provision and the amounts reported for the previous interim periods of the fiscal year.

The Company's income tax provision, on a consolidated basis, amounted to an income tax expense of \$39.4 million, or 10.75% of income (loss) from operations before income taxes and equity in earnings of operating joint venture, in the first nine months of 2025, compared to \$19.3 million, or 6.69%, in the first nine months of 2024. The Company's current and prior effective tax rates differed from the U.S. statutory tax rate of 21% primarily due to non-taxable investment income and tax credits.

Tax Law Change. H.R.1, also referred to as the “One Big Beautiful Bill Act” (the “Tax Act of 2025”), was enacted into law on July 4, 2025. While the Company is currently evaluating the impact of the Tax Act of 2025 on its future consolidated financial statements and related disclosures, the Company does not anticipate that the provisions of the Tax Act of 2025 will have a material impact on its effective tax rate and deferred tax positions beginning in the third quarter of 2025.

(1) All amounts are shown before tax.

(2) Positive amounts indicate gains/benefits reclassified out of AOCI. Negative amounts indicate losses/costs reclassified out of AOCI.

(3) See Note 5 for additional information on cash flow hedges.

(4) Amounts reflect revision to prior period Financial Statements. See Note 17 for additional information.

(5) See table below for additional information on unrealized investment gains (losses), including the impact on future policy benefits, policyholders' account balances.

Net Unrealized Investment Gains (Losses)

Net unrealized investment gains (losses) on available-for-sale fixed maturity securities and certain other invested assets and other assets are included in the Company's Unaudited Interim Consolidated Statements of Financial Position as a component of AOCI. Changes in these amounts include reclassification adjustments to exclude from OCI those items that are included as part of "Net income (loss)" for a period that had been part of OCI in earlier periods. The amounts for the periods indicated below, split between amounts related to net unrealized investment gains (losses) on available-for-sale fixed maturity securities on which an allowance for credit losses has been recognized, and all other net unrealized investment gains (losses), are as follows:

	Net Unrealized Investment Gains (Losses) on Available-for-Sale Fixed Maturity Securities on Which an Allowance for Credit Losses has been Recognized	Net Unrealized Gains (Losses) on All Other Investments(1)	Other Costs(2)	Future Policy Benefits, Policyholders' Account Balances and Reinsurance Payables	Income Tax Benefit (Expense)	Accumulated Other Comprehensive Income (Loss) Related to Net Unrealized Investment Gains (Losses)
(in thousands)						
Balance, December 31, 2024	\$ 893	\$ (1,847,178)	\$ (583,709)	\$ 920,455	\$ 316,837	\$ (1,192,702)

Reclassification adjustment for (gains) losses included in net income	(3,239)	81,750	0	0	(16,477)	62,034
Reclassification due to allowance for credit losses recorded during the period	363	(363)	0	0	0	0
Impact of net unrealized investment (gains) losses	0	0	275,496	(422,367)	30,845	(116,026)
Balance, September 30, 2025	<u>\$ (1,562)</u>	<u>\$ (682,643)</u>	<u>\$ (308,213)</u>	<u>\$ 498,088</u>	<u>\$ 103,803</u>	<u>\$ (390,527)</u>

(1) Includes cash flow hedges. See Note 5 for information on cash flow hedges.

(2) "Other costs" primarily includes reinsurance recoverables and deposit receivables and DRL.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Noncontrolling Interests

For certain subsidiaries, the Company owns a controlling interest that is less than 100% ownership of the subsidiary but must consolidate 100% of the subsidiary's financial statements in accordance with U.S. GAAP. Noncontrolling interests represent the portion of equity ownership in a consolidated subsidiary that is not attributable to the Company.

15. RELATED PARTY TRANSACTIONS

The Company has extensive transactions and relationships with Prudential Insurance and other affiliates. Although we seek to ensure that these transactions and relationships are fair and reasonable, it is possible that the terms of these transactions are not the same as those that would result from transactions among unrelated parties.

Expense Charges and Allocations

The majority of the Company's expenses are allocations or charges from Prudential Insurance or other affiliates. These expenses can be grouped into general and administrative expenses and agency distribution expenses.

The Company's general and administrative expenses are charged to the Company using allocation methodologies based on business production processes. Management believes that the methodology is reasonable and reflects costs incurred by Prudential Insurance to process transactions on behalf of the Company. The Company operates under service and lease agreements whereby services of officers and employees, supplies, use of equipment and office space are provided by Prudential Insurance. The Company reviews its allocation methodology periodically which it may adjust accordingly. General and administrative expenses include allocations of stock compensation expenses related to a stock-based awards program and a deferred compensation program issued by Prudential Financial. The expense charged to the Company for the stock-based awards program was \$0.2 million for both the three months ended September 30, 2025 and 2024, and \$0.8 million for both the nine months ended September 30, 2025 and 2024. The expense charged to the Company for the deferred compensation program was \$1.0 million and \$0.8 million for the three months ended September 30, 2025 and 2024, respectively, and \$4.4 million and \$4.9 million for the nine months ended September 30, 2025 and 2024, respectively.

The Company is charged for its share of employee benefit expenses. These expenses include costs for funded and non-funded, non-contributory defined benefit pension plans. Some of these benefits are based on final earnings and length of service while others are based on an account balance, which takes into consideration age, service and earnings during a career. The Company's share of net expense for the pension plans was \$4 million and \$3 million for the three months ended September 30, 2025 and 2024, respectively, and \$11 million and \$8 million for the nine months ended September 30, 2025 and 2024, respectively.

The Company is also charged for its share of the costs associated with welfare plans issued by Prudential Insurance. These expenses include costs related to medical, dental, life insurance and disability. The Company's share of net expense for the welfare plans was \$5 million and \$4 million for the three months ended September 30, 2025 and 2024, respectively, and \$14 million and \$13 million for the nine months ended September 30, 2025 and 2024, respectively.

Prudential Insurance sponsors voluntary savings plans for its employee 401(k) plans. The plans provide for salary reduction contributions by employees and matching contributions by the Company of up to 4% of annual salary. The Company's expense for its share of the voluntary savings plan was \$3 million and \$2 million for the three months ended September 30, 2025 and 2024, respectively, and \$7 million and \$6 million for the nine months ended September 30, 2025 and 2024, respectively.

The Company is charged distribution expenses from Prudential's proprietary nationwide sales organization, "Prudential Advisors" through a transfer pricing agreement, which is intended to reflect a market-based pricing arrangement. Prudential Advisors distributes Prudential life insurance, annuities, and investment products with proprietary and non-proprietary product options. In November 2024, the Company, along with three other affiliated entities, entered into several agreements with a third-party, LPL Financial Holdings Inc. ("LPL"). Under these agreements, the Company pays distribution expenses to LPL, of which 98% are returned to Prudential Advisors. Distribution expenses paid by the Company to LPL and subsequently returned to Prudential Advisors were \$126 million for the three months ended September 30, 2025 and \$355 million for the nine months ended September 30, 2025.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The Company pays commissions and certain other fees to Prudential Annuities Distributors, Inc. ("PAD") in consideration for PAD's marketing and underwriting of the Company's annuity products. Commissions and fees are paid by PAD to broker-dealers who sell the Company's annuity products. Commissions and fees paid by the Company to PAD were \$180 million and \$208 million for the three months ended September 30, 2025 and 2024, respectively, and \$566 million and \$597 million for the nine months ended September 30, 2025 and 2024, respectively.

The Company is charged for its share of corporate expenses incurred by Prudential Financial to benefit its businesses, such as advertising, executive oversight, external affairs and philanthropic activity. The Company's share of corporate expenses was \$20 million and \$30 million for the three months ended September 30, 2025 and 2024, respectively, and \$69 million and \$98 million for the nine months ended September 30, 2025 and 2024, respectively.

Corporate-Owned Life Insurance

The Company has sold five Corporate-Owned Life Insurance ("COLI") policies to Prudential Insurance, and one to Prudential Financial. The cash surrender value included in separate accounts for these COLI policies was \$5,033 million and \$4,657 million at September 30, 2025 and December 31, 2024, respectively. Fees related to these COLI policies were \$15 million and \$14 million for the three months ended September 30, 2025 and 2024, respectively, and \$44 million and \$41 million for the nine months ended September 30, 2025 and 2024, respectively. The Company reinsures the risk associated with these COLI policies to an affiliate reinsurer as part of a broader program related to variable insurance policies.

In May 2023, the Company funded a policy loan from the Prudential Financial COLI policy noted above in an amount of \$900 million to an affiliated irrevocable trust, commonly referred to as a "rabbi trust", which Prudential Financial created to support certain non-qualified retirement plans. The outstanding balance of the policy loan with the rabbi trust was \$890 million and \$897 million as of September 30, 2025 and December 31, 2024, respectively. Interest income related to the policy loan was \$10 million and \$11 million for the three months ended September 30, 2025 and 2024, respectively, and \$31 million and \$32 million for the nine months ended September 30, 2025 and 2024, respectively.

Affiliated Investment Management Expenses

In accordance with an agreement with PGIM, Inc. ("PGIM"), the Company pays investment management expenses to PGIM who acts as investment manager to certain Company general account and separate account assets. Investment management expenses paid to PGIM related to this agreement were \$23 million and \$18 million for the three months ended September 30, 2025 and 2024, respectively, and \$66 million and \$50 million for the nine months ended September 30, 2025 and 2024, respectively. These expenses are recorded as "Net investment income" in the Unaudited Interim Consolidated Statements of Operations and Comprehensive Income (Loss).

Derivative Trades

In its ordinary course of business, the Company enters into OTC derivative contracts with an affiliate, PGF. For these OTC derivative contracts, PGF has a substantially equal and offsetting position with an external counterparty. See Note 5 for additional information.

The interest income to the Company from PGF related to affiliated cash collateral was \$106 million and \$126 million for the three months ended September 30, 2025 and 2024, respectively, and \$321 million and \$381 million for the nine months ended September 30, 2025 and 2024, respectively, and are included in "Other income (loss)".

Joint Ventures

The Company has made investments in joint ventures with certain subsidiaries of Prudential Financial. "Other invested assets" includes \$1,735 million and \$1,100 million of investments in joint ventures as of September 30, 2025 and December 31, 2024, respectively. "Net investment income" related to these ventures includes gains (losses) of \$50 million and \$17 million for the three months ended September 30, 2025 and 2024, respectively, and \$129 million and \$36 million for the nine months ended September 30, 2025 and 2024, respectively.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Affiliated Asset Administration Fee Income

The Company has a revenue sharing agreement with AST Investment Services, Inc. ("ASTISI") and PGIM Investments LLC ("PGIM Investments") whereby the Company receives fee income based on policyholders' separate account balances invested in the Advanced Series Trust. Income received from ASTISI and PGIM Investments related to this agreement was \$62 million and \$68 million for the three months ended September 30, 2025 and 2024, respectively, and \$185 million and \$204 million for the nine months ended September 30, 2025 and 2024, respectively. These revenues are recorded as "Asset administration fees" in the Unaudited Interim Consolidated Statements of Operations and Comprehensive Income (Loss).

The Company has a revenue sharing agreement with PGIM Investments, whereby the Company receives fee income based on policyholders' separate account balances invested in The Prudential Series Fund. Income received from PGIM Investments related to this agreement was \$14 million and \$12 million for the three months ended September 30, 2025 and 2024, respectively, and \$38 million and \$34 million for the nine months ended September 30, 2025 and 2024, respectively. These revenues are recorded as "Asset administration fees" in the Unaudited Interim Consolidated Statements of Operations and Comprehensive Income (Loss).

Affiliated Notes Receivable

Affiliated notes receivable included in "Receivables from parent and affiliates" at September 30, 2025 and December 31, 2024 is as follows:

	<u>Maturity Dates</u>			<u>Interest Rates</u>			<u>September 30, 2025</u>	<u>December 31, 2024</u>
							(in thousands)	
U.S. dollar fixed rate notes	2026	-	2038	0.00%	-	12.58 %	\$ 487,933	\$ 520,462
Total notes receivable - affiliated(1)							<u>\$ 487,933</u>	<u>\$ 520,462</u>

(1) All notes receivable may be called for prepayment prior to the respective maturity dates under specified circumstances.

The affiliated notes receivable shown above are classified as available-for-sale securities and other trading assets carried at fair value. The Company monitors the internal and external credit ratings of these loans and loan performance. The Company also considers any guarantees made by Prudential Insurance for loans due from affiliates.

Accrued interest receivable related to these loans was \$1 million as of both September 30, 2025 and December 31, 2024, and is included in "Accrued investment income". Revenues related to these loans were \$2 million and \$1 million for the three months ended September 30, 2025 and 2024, respectively, and \$6 million and \$2 million for the nine months ended September 30, 2025 and 2024, respectively, and are included in "Other income (loss)".

Affiliated Commercial Mortgage Loan

The affiliated commercial mortgage loan included in "Commercial mortgage and other loans" at September 30, 2025 and December 31, 2024 were \$0 million.

The commercial mortgage loan is carried at unpaid principal balance, net of unamortized deferred loan origination fees and expenses, and net of an allowance for losses. The Company reviews the performance and credit quality of the commercial mortgage loan on an on-going basis.

Accrued interest receivable related to the loan was \$0 million as of both September 30, 2025 and December 31, 2024, and is included in "Accrued investment income". Revenues were \$0 million and \$1 million for the three months ended September 30, 2025 and 2024, respectively, and \$0 million and \$5 million for the nine months ended September 30, 2025 and 2024, respectively, and are included in "Net investment income".

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Affiliated Asset Transfers

The Company participates in affiliated asset trades with parent and sister companies. Book and market value differences for trades with a parent and sister are recognized within "Additional paid-in capital" ("APIC") and "Realized investment gains (losses), net", respectively. The table below shows affiliated asset trades for the nine months ended September 30, 2025 and for the year ended December 31, 2024.

Debt Agreements

The Company is authorized to borrow funds up to \$7 billion from affiliates to meet its capital and other funding needs. There was no debt outstanding as of both September 30, 2025 and December 31, 2024.

The total interest expense to the Company related to affiliated loans and cash collateral with PGF was \$1 million and \$13 million for the three months ended September 30, 2025 and 2024, respectively, and \$11 million and \$24 million for the nine months ended September 30, 2025 and 2024, respectively.

Contributed Capital and Dividends

In February, May and August 2025, the Company received capital contributions from Prudential Insurance in the amounts of \$220 million, \$216 million and \$17 million, respectively, with the May contribution including \$208 million in invested assets. In December 2024, the Company received capital contributions in the amount of \$416 million from Prudential Insurance in the form of invested assets.

In June 2024, there was a \$550 million return of capital to Prudential Insurance.

Through September 2025 and December 2024, the Company did not pay any dividends to Prudential Insurance.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Reinsurance with Affiliates

As discussed in Note 12, the Company participates in reinsurance transactions with certain affiliates.

16. COMMITMENTS AND CONTINGENT LIABILITIES

Commitments

The Company has made commitments to fund commercial mortgage and agricultural property loans. As of September 30, 2025 and December 31, 2024, the outstanding balances on these commitments were \$116 million and \$230 million, respectively. These amounts include unfunded commitments that are not unconditionally cancellable. For related credit exposure, there was an allowance for credit losses of \$0.3 million as of both September 30, 2025 and December 31, 2024, which is a change of \$0.2 million and \$0.0 million for the three and nine months ended September 30, 2025 and \$0.0 million and \$0.1 million for the three and nine months ended September 30, 2024, respectively. The Company also made commitments to purchase or fund investments, mostly fund investments and private fixed maturities, some of which are contingent upon events or circumstances not under the Company's control, including those at the discretion of the Company's counterparties. The Company anticipates a portion of these commitments will ultimately be funded from its separate accounts. As of September 30, 2025 and December 31, 2024, \$1,740 million and \$1,359 million, respectively, of these commitments were outstanding. These amounts include unfunded commitments that are not unconditionally cancellable. There were no related charges for credit losses for either the three or nine months ended September 30, 2025 or 2024.

Guarantees

In July 2017, Pruco Life formed a joint venture with CT Corp to provide life insurance solutions in Indonesia. Pruco Life owns a 49% interest in the joint venture and has entered into a shareholders agreement with CT Corp that sets out their respective rights and obligations with respect to the joint venture. Among other things, the shareholders agreement obligates Pruco Life and CT Corp to provide capital to the joint venture, as necessary to comply with applicable law or to maintain a specified minimum amount of capital in the joint venture. This obligation is not limited to a maximum amount. Pruco Life does not expect to make any payments on this guarantee and is not carrying any liabilities associated with the guarantee.

Since 2001, Pruco Life entered into an arrangement with Prudential of Taiwan. In June 2021, PIH completed the sale of Prudential of Taiwan. As a result of the sale, Pruco Life has a financial guarantee to stand ready to perform in an event that both Prudential of Taiwan and the Buyer default and fail to perform their obligations to make payments to the policyholders. Pruco Life has a liability of \$31 million and \$32 million as of September 30, 2025 and December 31, 2024, respectively, which represents the fair value of the guarantee and is amortized in revenue over a period which approximates the life of the underlying insurance in force. Since this obligation is not subject to limitations, it is not possible to determine the maximum potential amount due under this guarantee.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

Guarantees of Asset Values

	September 30, 2025		December 31, 2024
	(in thousands)		
Guaranteed value of third-parties assets	\$	4,180,490	\$ 3,958,847
Fair value of collateral supporting these assets	\$	3,860,987	\$ 3,543,500
Asset (liability) associated with guarantee, carried at fair value	\$	0	\$ 111

Certain contracts underwritten by Pruco Life include guarantees related to financial assets owned by the guaranteed party. These contracts are accounted for as derivatives and carried at fair value. The collateral supporting these guarantees is not reflected on the Unaudited Interim Consolidated Statements of Financial Position.

Contingent Liabilities

On an ongoing basis, the Company and its regulators review its operations including, but not limited to, sales and other customer interface procedures and practices, and procedures for meeting obligations to its customers and other parties. These reviews may result in the modification or enhancement of processes or the imposition of other action plans, including concerning management oversight, sales and other customer interface procedures and practices, and the timing or computation of payments to customers and other parties. In certain cases, if appropriate, the Company may offer customers or other parties remediation and may incur charges, including the cost of such remediation, administrative costs and regulatory fines.

The Company is subject to the laws and regulations of states and other jurisdictions concerning the identification, reporting and escheatment of unclaimed or abandoned funds, and is subject to audit and examination for compliance with these requirements.

It is possible that the results of operations or the cash flows of the Company in a particular quarterly or annual period could be materially affected as a result of payments in connection with the matters discussed above or other matters depending, in part, upon the results of operations or cash flows for such period. Management believes, however, that ultimate payments in connection with these matters, after consideration of applicable reserves and rights to indemnification, should not have a material adverse effect on the Company's financial position.

Litigation and Regulatory Matters

The Company is subject to legal and regulatory actions in the ordinary course of its business. Pending legal and regulatory actions include proceedings specific to the Company and proceedings generally applicable to business practices in the industry in which it operates. The Company is subject to class action lawsuits and other litigation involving a variety of issues and allegations involving sales practices, claims payments and procedures, premium charges, policy servicing and breach of fiduciary duty to customers. The Company is also subject to litigation arising out of its general business activities, such as its investments, contracts, leases and labor and employment relationships, including claims of discrimination and harassment, and could be exposed to claims or litigation concerning certain business or process patents. In addition, the Company, along with other participants in the businesses in which it engages, may be subject from time to time to investigations, examinations and inquiries, in some cases industry-wide, concerning issues or matters upon which such regulators have determined to focus. In some of the Company's pending legal and regulatory actions, parties are seeking large and/or indeterminate amounts, including punitive or exemplary damages. The outcome of litigation or a regulatory matter, and the amount or range of potential loss at any particular time, is often inherently uncertain.

The Company establishes accruals for litigation and regulatory matters when it is probable that a loss has been incurred and the amount of that loss can be reasonably estimated. For litigation and regulatory matters where a loss may be reasonably possible, but not probable, or is probable but not reasonably estimable, no accrual is established, but the matter, if material, is disclosed. The Company estimates that as of September 30, 2025, the aggregate range of reasonably possible losses in excess of accruals established for those litigation and regulatory matters for which such an estimate currently can be made is less than \$100 million. This estimate is not an indication of expected loss, if any, or the Company's maximum possible loss exposure on such matters. The Company reviews relevant information with respect to its litigation and regulatory matters on a quarterly and annual basis and updates its accruals, disclosures and estimates of reasonably possible loss based on such reviews.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

The following discussion of litigation and regulatory matters provides an update of those matters discussed in Note 16 to the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and should be read in conjunction with the complete descriptions provided in the Form 10-K.

Individual Annuities and Individual Life

California Advocates for Nursing Home Reform v. The Prudential Insurance Company of America and Pruco Life Insurance Company, et al.

In April 2025, Plaintiff filed a First Amended Complaint removing allegations related to the Unclaimed Life Insurance and Annuities Act, and the Defendant filed a demurrer seeking to dismiss the Amended Complaint. In October 2025, the Court issued an Order: (i) sustaining Defendant's demurrer as to Plaintiff's declaratory relief claim, and (ii) denying the demurrer as to the UCL claim.

Summary

The Company's litigation and regulatory matters are subject to many uncertainties, and given their complexity and scope, their outcome cannot be predicted. It is possible that the Company's results of operations or cash flows in a particular quarterly or annual period could be materially affected by an ultimate unfavorable resolution of pending litigation and regulatory matters depending, in part, upon the results of operations or cash flows for such period. In light of the unpredictability of the Company's litigation and regulatory matters, it is also possible that in certain cases an ultimate unfavorable resolution of one or more pending litigation or regulatory matters could have a material adverse effect on the Company's financial statements. Management believes, however, that, based on information currently known to it, the ultimate outcome of all pending litigation and regulatory matters, after consideration of applicable reserves and rights to indemnification, is not likely to have a material adverse effect on the Company's financial statements.

PRUCO LIFE INSURANCE COMPANY
Notes to Unaudited Interim Consolidated Financial Statements—(Continued)

17. REVISION TO PRIOR YEAR INFORMATION
Revision to 2024 Interim Consolidated Financial Statements

As previously disclosed in the Company's Annual Report on Form 10-K for the year-ended December 31, 2024, during the fourth quarter of 2024, the Company identified multiple errors which impacted previously issued Consolidated Financial Statements, including for the three and nine months ended September 30, 2024. Certain reinsurance recoverable balances associated with the coinsurance with funds withheld of fixed indexed annuities, certain deferred acquisition cost balances associated with indexed variable annuities, and certain other immaterial items were not properly accounted for. Prior period amounts have been revised in the Unaudited Interim Consolidated Financial statements to correct these errors as shown below. See the Company's Annual Report on Form 10-K for the year-ended December 31, 2024 for more information. In connection with this revision, the Company also corrected certain other immaterial adjustments within the Financing Section of the Unaudited Interim Consolidated Statements of Cash Flows for the nine months ended September 30, 2024.

The following are selected line items from the Consolidated Financial Statements illustrating the effects of these revisions:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") addresses the consolidated financial condition of Pruco Life Insurance Company, or the "Company," as of September 30, 2025, compared with December 31, 2024, and its consolidated results of operations for the three and nine months ended September 30, 2025 and 2024. You should read the following analysis of our consolidated financial condition and results of operations in conjunction with the MD&A, the "Risk Factors" section, and the audited Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, as well as the statements under "Forward-Looking Statements" and the Unaudited Interim Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q.

Overview

The Company sells variable annuities, indexed variable annuities, fixed annuities, universal life insurance, variable life insurance and term life insurance primarily through affiliated and unaffiliated distributors in the United States.

Effective January 2025, the Company entered into an agreement with The Prudential Life Insurance Company, Ltd. ("Prudential of Japan") to reinsure guaranteed minimum death benefits ("GMDB") associated with yen-denominated variable whole life policies. See Note 12 to the Unaudited Interim Consolidated Financial Statements for additional information.

In August 2024, the Company entered into an agreement with Wilton Reassurance Company and Wilton Reinsurance Bermuda Limited (collectively, "Wilton Re") to coinsure a closed block of guaranteed universal life ("GUL") policies. The Company recaptured all risks associated with the subject GUL policies from Prudential Arizona Reinsurance Universal Company ("PAR U") and subsequently established yearly renewable term ("YRT") reinsurance for the subject GUL business with The Prudential Insurance Company of America ("Prudential Insurance"). The transaction was completed in December 2024 with an effective date of October 1, 2024. See Note 12 to the Unaudited Interim Consolidated Financial Statements for additional information.

Effective January 2024, the Company entered into an agreement with Somerset Reinsurance Ltd. ("Somerset Re") to coinsure a closed block of GUL policies to Prudential Universal Reinsurance Entity Company ("PURE"), a wholly-owned subsidiary of The Prudential Insurance Company of America ("Prudential Insurance"), with retrocession by PURE of such liabilities on a modified coinsurance basis, to Somerset Re. This transaction is effective as of January 1, 2024, whereby, the Company recaptured all risks associated with the subject GUL policies from PAR U, Prudential Universal Reinsurance Company ("PURC") and Gibraltar Universal Life Reinsurance Company ("GUL Re") and subsequently established YRT reinsurance for the subject GUL business with Prudential Insurance. See Note 12 to the Unaudited Interim Consolidated Financial Statements for additional information.

In May 2023, the Company entered into an agreement with AuguStar Life Insurance Company (formerly known as The Ohio National Life Insurance Company), an affiliate of Constellation Insurance Holdings, Inc., to reinsure approximately \$10 billion of account values of Prudential Defined Income ("PDI") traditional variable annuity contracts with guaranteed living benefits. The transaction was completed on June 30, 2023 with an effective date of April 1, 2023. See Note 12 to the Unaudited Interim Consolidated Financial Statements for additional information.

Regulatory Developments

Interest Maintenance Reserves

In August 2025, the National Association of Insurance Commissioners ("NAIC") extended the temporary statutory accounting treatment of net negative interest maintenance reserves ("IMR") through December 31, 2026. This provision, which was set to expire on December 31, 2025, permits an insurer to admit net negative IMR up to 10% of their adjusted statutory surplus, provided such insurer's risk-based capital ("RBC") ratio remains above 300% of its Authorized Control Level RBC.

H.R.1 — One Big Beautiful Bill Act (the "Tax Act of 2025")

See Note 13 to the Unaudited Interim Consolidated Financial Statements for information about tax law changes included in the Tax Act of 2025.

Impact of Changes in the Interest Rate Environment

As a global financial services company, market interest rates are a key driver of our liquidity and capital positions, cash flows, results of operations and financial position. Changes in interest rates can affect these in several ways, including favorable or adverse impacts to:

- investment-related activity, including: investment income returns, net investment spread results, new money rates, mortgage loan prepayments and bond redemptions;
- the valuation of fixed income investments and derivative instruments;
- collateral posting requirements, hedging costs and other risk mitigation activities;
- customer account values and assets under management, including their impacts on fee-related income;
- insurance reserve levels, including market risk benefits ("MRBs"), and market experience true-ups;
- policyholder behavior, including surrender or withdrawal activity; and
- product offerings, design features, crediting rates and sales mix.

For additional information regarding interest rate risks, see "Risk Factors—Market Risk" included in our Annual Report on Form 10-K for the year ended December 31, 2024.

Revenues and Expenses

The Company earns revenues principally from insurance premiums, mortality and expense fees, asset administration fees from insurance and investment products, and from net investment income on the investment of general account and other funds. The Company receives premiums primarily from the sale of individual life insurance and annuity products. The Company earns mortality and expense fees, and asset administration fees, primarily from the sale and servicing of universal life insurance and separate account products including variable life insurance and variable annuities. The Company's operating expenses principally consist of insurance benefits provided and reserves established for anticipated future insurance benefits, general business expenses, reinsurance premiums, commissions and other costs of selling and servicing the various products sold and interest credited on general account liabilities.

Accounting Policies & Pronouncements

Application of Critical Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP") requires the application of accounting policies that often involve a significant degree of judgment. Management, on an ongoing basis, reviews the estimates and assumptions used in the preparation of the Company's financial statements. If management determines that modifications to assumptions and estimates are appropriate given current facts and circumstances, the Company's results of operations and financial position as reported in the Unaudited Interim Consolidated Financial Statements could change significantly.

Management believes the accounting policies relating to the following areas are most dependent on the application of estimates and assumptions and require management's most difficult, subjective, or complex judgments:

- Insurance liabilities;
- Valuation of investments including derivatives, measurement of allowance for credit losses, and recognition of other-than-temporary impairments ("OTTI");
- Reinsurance recoverables;
- Taxes on income; and
- Reserves for contingencies, including reserves for losses in connection with unresolved legal matters

Market Performance - Equity and Interest Rate Assumptions

The liability for future policy benefits for certain of our universal life type products includes quarterly adjustments for the impact of changes to our estimate of future rates of returns on investments to reflect actual fund performance and market conditions. A portion of the returns on investments for our variable life contracts are dependent upon the total rate of return on assets held in separate account investment options. This rate of return influences the fees we earn and expected claims to be paid on variable life contracts, as well as other sources of profit. Returns that are higher than our expectations for a given period produce higher than expected account balances, which increase the future fees we expect to earn on variable life contracts and decrease expected claims to be paid on variable life contracts. The opposite occurs when returns are lower than our expectations.

The weighted average rate of return assumptions used in developing estimated market returns consider many factors specific to each product type, including asset durations, asset allocations and other factors. With regard to equity market assumptions, the near-term future rate of return assumption used in evaluating liabilities for future policy benefits for certain of our products, primarily our domestic variable life insurance products, is generally updated each quarter and is derived using a reversion to the mean approach, a common industry practice. Under this approach, we consider historical equity returns and adjust projected equity returns over an initial future period of five years (the “near-term”) so that equity returns converge to the long-term expected rate of return. If the near-term projected future rate of return is greater than our near-term maximum future rate of return of 15.0%, we use our maximum future rate of return. If the near-term projected future rate of return is lower than our near-term minimum future rate of return of 0%, we use our minimum future rate of return. As of September 30, 2025, our domestic variable life insurance businesses assume an 8.0% long-term equity expected rate of return and a 2.2% near-term mean reversion equity expected rate of return, and our international variable life insurance business assumes a 5.5% long-term equity expected rate of return and a 0.4% near-term reversion equity expected rate of return.

With regard to interest rate assumptions used in evaluating liabilities for future policy benefits for certain of our products, we generally update the long-term and near-term future rates used to project fixed income returns annually and quarterly, respectively. As a result of our 2025 annual reviews and update of assumptions and other refinements, we kept our long-term expectation of the 10-year U.S. Treasury rate unchanged and continue to grade to a rate of 3.5% over ten years, and increased our long term expectation of the 10-year Japanese Government Bond yield by 25 basis points, and now grade to a rate of 1.5% over ten years. As part of our quarterly market experience updates, we update our near-term projections of interest rates to reflect changes in current rates.

For further discussion of impacts that could result from changes in these key estimates and assumptions, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Accounting Policies and Pronouncements—Application of Critical Accounting Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2024.

Adoption of New Accounting Pronouncements

See Note 2 to the Unaudited Interim Consolidated Financial Statements for accounting pronouncements issued but not yet adopted and newly adopted accounting pronouncements.

Changes in Financial Position

Total assets increased \$17.5 billion from \$238.5 billion at December 31, 2024 to \$256.0 billion at September 30, 2025. Significant components were:

- Total investments increased \$13.0 billion driven by new sales of general account annuity products;
- Reinsurance recoverables and deposit receivables increased \$3.3 billion driven by indexed annuities sales growth and the reinsurance to Lotus Re and the reinsurance of indexed annuities from Pruco Life Insurance Company of New Jersey (“PLNJ”) to Prudential Insurance, as well as higher GUL reserves reinsured with affiliated and external counterparties; and
- Separate account assets increased \$1.8 billion primarily driven by favorable equity markets and net inflows for life products, partially offset by net outflows related to annuity products.

Partially offset by:

- Cash and cash equivalents decreased \$1.1 billion primarily driven by a decline in cash collateral.

Total liabilities increased \$16.1 billion from \$233.8 billion at December 31, 2024 to \$249.9 billion at September 30, 2025. Significant components were:

- Policyholders' account balances increased \$13.1 billion primarily driven by incremental indexed product sales

Total equity increased \$1.5 billion primarily driven by \$0.7 billion in unrealized gains on investments due to declining rates and changes to direct NPR spreads, \$0.5 billion of a capital contribution, and net income of \$0.3 billion.

Results of Operations

Income (loss) from Operations before Income Taxes

Three Months Comparison

Income (loss) from operations before income taxes increased \$517 million from a loss of \$74 million for the three months ended September 30, 2024 to income of \$443 million for the three months ended September 30, 2025 primarily driven by:

- Higher Realized investment gains (losses), net driven by changes in interest rates; and
- Higher Change in value of market risk benefits, net of related hedging gains (losses) primarily due to changes in interest rates; and
- Increased net investment income due to net business growth driven by incremental indexed product sales.

Partially offset by:

- Lower Other revenue driven by lower valuation on trading losses in the current quarter, as well as lower collateral income; and
- Higher Interest credited to policyholders' account balances primarily due to higher interest crediting rates and option costs from business growth.

Nine Months Comparison

Income (loss) from operations before income taxes increased \$77 million from income of \$289 million for the nine months ended September 30, 2024 to income of \$366 million for the nine months ended September 30, 2025. The impact from our annual reviews and update of assumptions and other refinements was a net loss of \$982 million. Excluding the comparative impact of our annual reviews and update of assumptions and other refinements, income (loss) from operations increased \$1,059 million primarily driven by:

- Lower Policyholders' benefits driven by the absence of the 2024 reinsurance recapture of the Company's GUL insurance policies; and
- Increased net investment income due to net business growth driven by incremental indexed product sales.

Partially offset by:

- Lower Policy charges and fee income driven by the absence of the 2024 reinsurance recapture of the Company's GUL insurance policies; and
- Lower Realized investment gains (losses), net driven by changes in interest rates.

Revenues, Benefits and Expenses

Three Months Comparison

Revenues increased \$695 million from \$763 million for the three months ended September 30, 2024 to \$1,458 million for the three months ended September 30, 2025, primarily driven by the items mentioned above in Income (loss) from operations before income taxes.

Benefits and expenses increased \$178 million from \$837 million for the three months ended September 30, 2024 to \$1,015 million for the three months ended September 30, 2025, primarily driven by the items mentioned above in Income (loss) from operations before income taxes.

Nine Months Comparison

Revenues decreased \$3,357 million from \$6,425 million for the nine months ended September 30, 2024 to \$3,068 million for the nine months ended September 30, 2025. This includes an unfavorable comparative decrease of \$1,252 million from our annual reviews and update of assumptions and other refinements. Excluding the comparative impact of our annual review and update of assumptions and other refinements, revenues decreased \$2,105 million primarily driven by the items mentioned above in Income (loss) from operations before income taxes.

Benefits and expenses decreased \$3,435 million from \$6,136 million for the nine months ended September 30, 2024 to \$2,701 million for the nine months ended September 30, 2025. This includes a favorable comparative decrease of \$270 million from our annual reviews and update of assumptions and other refinements. Excluding the comparative impact of our annual reviews and update of assumptions and other refinements, benefits and expenses decreased \$3,165 million primarily driven by the items mentioned above in Income (loss) from operations before income taxes.

Risks and Risk Mitigants:

Fixed Annuity Risks and Risk Mitigants. The primary risk exposure of these fixed annuity products relates to investment risks we bear for providing customers a minimum guaranteed interest rate or an index-linked interest rate required to be credited to the customer's account value, which include interest rate fluctuations and/or sustained periods of low interest rates, and credit risk related to the underlying investments. We manage these risk exposures primarily through our investment strategies and product design features, which include credit rate resetting subject to the minimum guaranteed interest rate, as well as surrender charges applied during the early years of the contract that help to provide protection for premature withdrawals. In addition, a portion of our fixed annuity products has a market value adjustment provision that affords protection of lapse in the case of rising interest rates. We also manage these risk exposures through external reinsurance for certain of our fixed annuity products.

Indexed Variable Annuity Risks and Risk Mitigants. The primary risk exposure of these indexed variable annuity products relates to the investment risks we bear in order to credit to the customer's account balance the required crediting rate based on the performance of the elected indices at the end of each term. We manage this risk primarily through our investment strategies including derivatives and product design features, which include credit rate resetting subject to contractual minimums as well as surrender charges applied during the early years of the contract that help to provide protection for premature withdrawals. In addition, our indexed variable annuity strategies have an interim value provision that provides protection from lapse in the case of rising interest rates.

Variable Annuity Risks and Risk Mitigants. The primary risk exposures of our variable annuity contracts relate to actual deviations from, or changes to, the assumptions used in the original pricing of these products, including capital markets assumptions such as equity market returns, interest rates and market volatility, along with actuarial assumptions such as contractholder mortality, the timing and amount of annuitization and withdrawals, and contract lapses. For these risk exposures, achievement of our expected returns is subject to the risk that actual experience will differ from the assumptions used in the original pricing of these products. Prudential Financial, Inc. ("Prudential Financial") manages our exposure to certain risks driven by fluctuations in capital markets primarily through a combination of i) Product Design Features, and ii) our Asset Liability Management Strategy ("ALM"), as discussed below. The Company also manages these risk exposures through external reinsurance for certain of our variable annuity products. For additional information regarding our external reinsurance agreements, see Note 1 of the Consolidated Financial Statements. Sales of traditional variable annuities with guaranteed living benefit riders were discontinued as of December 31, 2020, and, in April 2022, the sale of a portion of our in force traditional variable annuity block was completed, as discussed in Note 1.

Product Design Features:

A portion of the variable annuity contracts that we offer include an asset transfer feature. This feature is implemented at the contract level, and transfers assets between certain variable investment sub-accounts selected by the annuity contractholder and, depending on the benefit feature, a fixed-rate account in the general account or a bond fund sub-account within the separate account. The objective of the asset transfer feature is to reduce our exposure to equity market risk and market volatility. The asset transfer feature associated with highest daily living benefit products uses a designated bond fund sub-account within the separate account. The transfers are based on a static mathematical formula used with the particular benefit which considers a number of factors, including, but not limited to, the impact of investment performance on the contractholder's total account value. Other product design features we utilize include, among others, asset allocation restrictions, minimum issuance age requirements and certain limitations on the amount of purchase payments, as well as a required minimum allocation to our general account for certain of our products. In addition, there is diversity in our fee arrangements, as certain fees are primarily based on the benefit guarantee amount, the contractholder account value and/or premiums, which helps preserve certain revenue streams when market fluctuations cause account values to decline.

Asset Liability Management Strategy (including fixed income instruments and derivatives):

We employ an ALM strategy that utilizes a combination of both traditional fixed income instruments and derivatives to meet expected liabilities associated with our annuity guarantees. The MRB liability that we hedge consists of expected living and death benefit claims under various market conditions, which are managed using fixed income instruments, derivatives, or a combination thereof. For our Prudential Defined Income variable annuity, we utilize fixed income instruments to meet expected liabilities. For the portion of our ALM strategy executed with derivatives, we enter into a range of exchange-traded and over-the-counter ("OTC") equity, interest rate and credit derivatives, including, but not limited to: equity and treasury futures; total return, credit default and interest rate swaps; and options including equity options, swaptions, and floors and caps. The intent of this strategy is to more efficiently manage the capital and liquidity associated with these products while continuing to mitigate fluctuations in net income due to movements in capital markets. To achieve this, we periodically review and recalibrate the ALM strategy by optimizing the mix of derivatives and fixed income instruments to achieve expected outcomes.

Under our ALM strategy, we expect differences in the U.S. GAAP net income impact between the changes in value of the fixed income instruments (either designated as available-for-sale or designated as trading) and derivatives as compared to the changes in the MRB liability these assets support. These differences can be primarily attributed to two distinct areas:

- *Different accounting treatment between liabilities and assets supporting those liabilities.* Under U.S. GAAP, changes in the fair value of the derivative instruments and fixed income instruments designated as trading, and MRB, excluding the changes in the Company's NPR spreads, are immediately reflected in net income, while changes in the fair value of fixed income instruments that are designated as available-for-sale are recorded as unrealized gains (losses) in other comprehensive income.
- *General hedge results.* For the derivative portion of the ALM strategy, the net hedging impact (the extent to which the changes in value of the hedging instruments offset the change in value of the portion of the MRB we are hedging) may be impacted by a number of factors, including: cash flow timing differences between our hedging instruments and the corresponding portion of the MRB we are hedging, basis differences attributable to actual underlying contractholder funds to be hedged versus hedgeable indices, rebalancing costs related to dynamic rebalancing of hedging instruments as markets move, certain elements of the MRB that may not be hedged (including certain actuarial assumptions), and implied and realized market volatility on the hedge positions relative to the portion of the MRB we seek to hedge.

Income Taxes

For information regarding income taxes, see Note 13 to the Unaudited Interim Consolidated Financial Statements.

Liquidity and Capital Resources**Overview**

Liquidity refers to the ability to generate sufficient cash resources to meet the payment obligations of the Company. Capital refers to the long-term financial resources available to support the operations of our business, fund business growth, and provide a cushion to withstand adverse circumstances. Our ability to generate and maintain sufficient liquidity and capital depends on the profitability of our business, general economic conditions, our ability to borrow from affiliates and our access to the capital markets through affiliates as described herein.

Effective and prudent liquidity and capital management is a priority across the organization. Management monitors the liquidity of the Company on a daily basis and projects borrowing and capital needs over a multi-year time horizon. We use a Risk Appetite Framework ("RAF") to ensure that all risks taken by the Company align with our capacity and willingness to take those risks. The RAF provides a dynamic assessment of capital and liquidity stress impacts, including scenarios similar to, and more severe than, those occurring due to COVID-19, and is intended to ensure that sufficient resources are available to absorb those impacts. We believe that our capital and liquidity resources are sufficient to satisfy the capital and liquidity requirements of the Company.

Our businesses are subject to comprehensive regulation and supervision by domestic and international regulators. These regulations currently include requirements (many of which are the subject of ongoing rule-making) relating to capital and liquidity management. For information on these regulatory initiatives and their potential impact on us, see "Business—Regulation" and "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2024.

Capital

We manage the Company to regulatory capital levels consistent with our "AA" ratings targets. We utilize the risk-based capital ("RBC") ratio as a primary measure of capital adequacy. RBC is calculated based on statutory financial statements and risk formulas consistent with the practices of the National Association of Insurance Commissioners ("NAIC"). RBC considers, among other things, risks related to the type and quality of the invested assets, insurance-related risks associated with an insurer's products and liabilities, interest rate risks, and general business risks. RBC ratio calculations are intended to assist insurance regulators in measuring an insurer's solvency and ability to pay future claims. The reporting of RBC measures is not intended for the purpose of ranking any insurance company or for use in connection with any marketing, advertising or promotional activities, but is available to the public. The Company's capital levels substantially exceed the minimum level required by applicable insurance regulations. Our regulatory capital levels may be affected in the future by changes to the applicable regulations, proposals for which are currently under consideration by both domestic and international insurance regulators.

The regulatory capital level of the Company can be materially impacted by interest rate and equity market fluctuations, changes in the values of derivatives, the level of impairments recorded, and credit quality migration of the investment portfolio, among other items. In addition, the reinsurance of business or the recapture of business subject to reinsurance arrangements due to defaults by, or credit quality migration affecting, the reinsurers or for other reasons could negatively impact regulatory capital levels. The Company's regulatory capital level is also affected by statutory accounting rules, which are subject to change by each applicable insurance regulator.

Captive Reinsurance Companies:

See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Capital—Affiliated Captive Reinsurance Companies" included in our Annual Report on Form 10-K for the year ended December 31, 2024, for a discussion of our use of captive reinsurance companies.

Liquidity

Our liquidity is managed to ensure stable, reliable and cost-effective sources of cash flows to meet all of our obligations. Liquidity is provided by a variety of sources, as described more fully below, including portfolios of liquid assets. Our investment portfolios are integral to the overall liquidity of the Company. We use a projection process for cash flows from operations to ensure sufficient liquidity to meet projected cash outflows, including claims. The impact of Prudential Funding, LLC's ("Prudential Funding"), a wholly-owned subsidiary of Prudential Insurance, financing capacity on liquidity (as described below) is considered in the internal liquidity measures of the Company.

Liquidity is measured against internally-developed benchmarks that take into account the characteristics of both the asset portfolio and the liabilities that they support. We consider attributes of the various categories of liquid assets (for example, type of asset and credit quality) in calculating internal liquidity measures to evaluate our liquidity under various stress scenarios, including company-specific and market-wide events. We continue to believe that cash generated by ongoing operations and the liquidity profile of our assets provide sufficient liquidity under reasonably foreseeable stress scenarios.

The principal sources of the Company's liquidity are premiums and certain annuity considerations, investment and fee income, investment maturities, sales of investments and internal borrowings. The principal uses of that liquidity include benefits, claims, and payments to policyholders and contractholders in connection with surrenders, withdrawals and net policy loan activity. Other uses of liquidity include commissions, general and administrative expenses, purchases of investments, the payment of dividends and returns of capital to the parent company, hedging and reinsurance activity and payments in connection with financing activities.

In managing liquidity, we consider the risk of policyholder and contractholder withdrawals of funds earlier than our assumptions when selecting assets to support these contractual obligations. We use surrender charges and other contract provisions to mitigate the extent, timing and profitability impact of withdrawals of funds by customers.

Liquid Assets

Liquid assets include cash and cash equivalents, short-term investments, U.S. Treasury fixed maturities, and fixed maturities that are not designated as held-to-maturity and public equity securities. As of September 30, 2025 and December 31, 2024, the Company had liquid assets of \$54.5 billion and \$45.3 billion, respectively. The portion of liquid assets comprised of cash and cash equivalents and short-term investments was \$2.5 billion and \$3.8 billion as of September 30, 2025 and December 31, 2024, respectively. As of September 30, 2025, \$42.7 billion, or 93%, of the fixed maturity investments in the Company's general account portfolios, were rated high or highest quality based on NAIC or equivalent rating.

Prudential Funding, LLC

Prudential Financial and Prudential Funding borrow funds in the capital markets primarily through the direct issuance of commercial paper. The borrowings serve as an additional source of financing to meet our working capital needs. Prudential Funding operates under a support agreement with Prudential Insurance whereby Prudential Insurance has agreed to maintain Prudential Funding's positive tangible net worth at all times.

Hedging activities associated with Annuities

For the portion of the risk management strategy executed through hedging, we enter into a range of exchange-traded, cleared and other OTC equity and interest rate derivatives in order to hedge certain capital market risks related to more severe market conditions. This portion of our ALM strategy requires access to liquidity to meet payment obligations relating to these derivatives, such as payments for periodic settlements, purchases, maturities and terminations. These liquidity needs can vary materially due to, among other items, changes in interest rates, equity markets, mortality and policyholder behavior.

The hedging portion of our ALM strategy may also result in derivative-related collateral postings to (when we are in a net pay position) or from (when we are in a net receive position) counterparties. The net collateral position depends on changes in interest rates and equity markets related to the amount of the exposures hedged. Depending on market conditions, the collateral posting requirements can result in material liquidity needs when we are in a net post position.

Term and Universal Life Reserve Financing

The Company uses affiliated captive reinsurance companies to finance the portion of the statutory reserves required to be held under Regulation XXX and Guideline AXXX that is considered to be non-economic. The financing arrangements involve the reinsurance of term and universal life business to our affiliated captive reinsurers and the issuance of surplus notes by those affiliated captives that are treated as capital for statutory purposes. These surplus notes are subordinated to policyholder obligations, and the payment of principal and interest on the surplus notes can only be made with prior insurance regulatory approval.

The affiliated captive reinsurance companies have entered into agreements with external counterparties providing for the issuance of surplus notes by our affiliated captive reinsurers in return for the receipt of credit-linked notes ("Credit-Linked Note Structures"). As of both September 30, 2025 and December 31, 2024, we had Credit-Linked Note Structures with an aggregate issuance capacity of \$8,000 million to support Regulation XXX reserves, of which \$7,560 million was outstanding and matures in 2044. These amounts exclude credit-linked note structures used to finance Guideline AXXX reserves for business reinsured to Somerset Re in March 2024. Under the agreements, the affiliated captive receives in exchange for the surplus notes one or more credit-linked notes issued by a special-purpose affiliate of the Company with an aggregate principal amount equal to the surplus notes outstanding. The affiliated captive holds the credit-linked notes as assets supporting Regulation XXX or Guideline AXXX non-economic reserves, as applicable.

As of September 30, 2025, our affiliated captive reinsurance companies had outstanding an aggregate of \$200 million of debt issued for the purpose of financing Regulation XXX non-economic reserves. In addition, as of September 30, 2025, for purposes of financing Guideline AXXX reserves, one of our affiliated captives had approximately \$3,982 million of surplus notes outstanding that were issued to affiliates.

The Company has introduced updated versions of its individual life products in conjunction with the requirement to adopt principle-based reserving by January 1, 2020. These updated products are currently priced to support the principle-based statutory reserve level without the need for reserve financing.

Item 4. Controls and Procedures

In order to ensure that the information we must disclose in our filings with the Securities and Exchange Commission (“SEC”) is recorded, processed, summarized, and reported on a timely basis, the Company’s management, including our Chief Executive Officer and Chief Financial Officer, have reviewed and evaluated the effectiveness of our disclosure controls and procedures, as defined in Securities Exchange Act of 1934, as amended (“Exchange Act”) Rule 15d-15(e), as of September 30, 2025. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2025, our disclosure controls and procedures were effective. No change in our internal control over financial reporting, as defined in Exchange Act Rule 15d-15(f), occurred during the quarter ended September 30, 2025, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

See Note 16 to the Unaudited Interim Consolidated Financial Statements under “—Litigation and Regulatory Matters” for a description of certain pending litigation and regulatory matters affecting us, and certain risks to our business presented by such matters, which is incorporated herein by reference.

Item 1A. Risk Factors

You should carefully consider the risks described under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2024. These risks could materially affect our business, results of operations or financial condition or cause our actual results to differ materially from those expected or those expressed in any forward-looking statements made by, or on behalf of, the Company. These risks are not exclusive, and additional risks to which we are subject include, but are not limited to, the factors mentioned under “Forward-Looking Statements” and the risks of our businesses described elsewhere in this Quarterly Report on Form 10-Q.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Pruco Life Insurance Company

By: /s/ Markus Coombs
Name: Markus Coombs
Vice President and Chief Financial Officer

Date: November 7, 2025

CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER

I, Dylan J. Tyson, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Pruco Life Insurance Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
