AST Money Market Portfolio – Conversion to AST Government Money Market Portfolio

At a meeting of the Board of Trustees of Advanced Series Trust, the Board approved changes to the AST Money Market Portfolio's (the "Portfolio") investment policies, in order to qualify the Portfolio as a government money market fund. Pursuant to the investment policy changes approved by the Board, the Portfolio will be managed as a government money market fund, which means that it will invest at least 99.5% or more of its assets in cash, government securities, and/or repurchase agreements that are fully collateralized with cash or other government securities. In recognition of these investment policy changes, the Board also approved changing the name of the Portfolio, to be known as the AST Government Money Market Portfolio. As a government money market fund, the Portfolio will seek to maintain a stable \$1.00 NAV and will not implement redemption gates or liquidity fees.

Accordingly, effective on or about September 12, 2016, the AST Money Market Portfolio will change its name to the AST Government Money Market Portfolio, and the Portfolio will be managed as a government money market fund.

We thus make the following changes to your Annuity Prospectus:
