PRUDENTIAL FINANCIAL, INC. PROXY STATEMENT

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON MAY 9, 2017

“The justification of the company's existence is its advancement of the efforts of its policyholders and their families for better economic and social condition which confront the [middle] class.”

— **John F. Dryden**, founder of The Prudential Friendly Society
(a predecessor of Prudential Financial, Inc.)

Prudential was founded more than 140 years ago on the belief that everyone should have the opportunity to achieve financial security and the peace of mind that comes with it.

Today, as Prudential's global footprint continues to grow, our commitment to shared success remains strong. The company's approach to creating innovative financial solutions draws on our expertise, our strong stakeholder relationships and the breadth and depth of our business model. In 2016, we continued to build upon our efforts to advance the well-being of a broad array of stakeholders. Three examples are highlighted below:

- Prudential's global investment management business, PGIM, is five years into its journey to create employment pathways for opportunity youth, young people who are not in school nor formally employed. Through a partnership with YouthBuild, an international organization that trains opportunity youth in both job and life skills, PGIM Real Estate is leveraging its business relationships, along with associate expertise, to accelerate the job placement of YouthBuild graduates.
- Prudential remains committed to closing the insurance protection gap, and in 2016, demonstrated this by building on its relationship with LeapFrog Investments. The partnership's long-term objective is to partner with local life insurance providers in high-growth African markets such as Ghana, Kenya and Nigeria to provide appropriate and affordable insurance products while simultaneously spurring the growth of the African middle class.
- In keeping our commitment to diversity in practice, Prudential was a proud founding donor and sponsor of the Smithsonian National Museum of African American History and Culture's grand opening in Washington, D.C. The museum's opening reignited a national dialogue around the rich and complex heritage of the African American community.

Every day, more than 49,000 Prudential employees serve millions of people around the globe, delivering on our founding belief. We know the value we create for our stakeholders, combined with the societal value we create as a company, helps build a shared and lasting prosperity.

Letter from the Board of Directors to Our Shareholders

As directors, we strive to govern Prudential in a prudent and transparent manner that helps the Company achieve sustainable operating and financial performance, and deliver long-term value for our shareholders. We focus our attention on overseeing the Company's business strategies, risk management, talent development, and succession planning. We are pleased to share with you our progress on specific actions undertaken in 2016.

BUSINESS STRATEGY

Our Board has and will continue to be vigilant in the oversight of our firm's long-term strategy. By focusing on our long-term outlook, we are best able to support our common goal of creating enduring value in our firm and for our shareholders. At each Board meeting and during our annual strategy planning session, we contribute to management's strategic plan by engaging Prudential's senior leadership in robust discussions about the Company's overall strategy, priorities for its businesses, and long-term growth opportunities.

BOARD RISK OVERSIGHT

Prudent risk-taking is an inherent part of Prudential's business, and we approach our responsibility for oversight of Prudential's risk profile—in its operations, product development and deployment of capital—very seriously. Fulfilling the Company's long-term promises is only achievable by developing and maintaining an appropriate risk framework, transparency of risk reporting, and rigorous testing methodologies.

Through our oversight, we set standards for managing risks and monitoring how the Company manages those risks. The Risk Committee is comprised of the chairs of each of the other Board committees, enabling us to more closely coordinate the Board's risk oversight function. The Risk Committee has metrics in place to monitor and review market, insurance, investment, and operational risk.

TALENT DEVELOPMENT AND DIVERSITY

We recognize that over the long-term, our talent and culture provide our biggest competitive advantage. That is why we consider leadership and talent a priority throughout the Company. This "talent mindset" means embracing collaboration and diversity. We work diligently to build on our success as an organization where top talent across a variety of disciplines, and from a diverse set of backgrounds, aspires to work.

The Board's composition is indicative of our commitment to diversity and inclusion. Our Directors reflect diverse perspectives, including a complementary mix of skills, experience and backgrounds, which we believe are paramount to our ability to represent your interests as shareholders. In the last two years, four new directors have been elected. The average tenure of our directors is now six years, and two-thirds of the Board is diverse.

ENGAGEMENT AND OUTREACH

Accountability to shareholders is not only a mark of good governance, but an important component of Prudential's success. We value our shareholders' views and insights and believe that positive, two-way dialogue builds informed relationships that promote transparency and accountability.

In 2016, we spoke with representatives from mutual funds, public pension funds, labor unions and other institutional investors that represent the majority of our outstanding shares. Topics discussed included strategy and performance; corporate governance matters, such as Board composition and refreshment, succession planning and Board leadership structure; and our executive compensation program. This continuous and transparent communication with our shareholders serves as the foundation for our policy development and informs our business strategy.

CULTIVATING A STRONG ETHICAL CULTURE

For more than 140 years, our commitment to helping customers achieve financial security has never wavered. We know that only by doing business the right way, every day, do we continue to earn their trust.

Our corporate philosophy and practice of strong ethical values are reflected in the naming of Prudential as a 2016 World's Most Ethical Company® by the Ethisphere Institute. This recognition is bestowed only on organizations that demonstrate a culture of ethics and transparency at every level.

CORPORATE RESPONSIBILITY

Prudential was founded to address a social need—helping working families afford life insurance to achieve financial security and peace of mind. Since then, we have stayed true to our purpose of powering the ambitions of people, organizations and communities, and to driving social progress.

We believe everyone should have access to financial security. We recognize that equitable access to capital enhances prosperity and accelerates growth. We are committed to enabling economic prosperity through the work we do not only in our core businesses, but also through targeted efforts like our emerging manager program, which invests in women- and minority-owned firms. Through this and other initiatives, these core beliefs permeate our interaction with all of our stakeholders.

OUR INTERNATIONAL BUSINESSES ANCHORED BY JAPAN

Our international businesses present long-term opportunities for our Company. More than half of our employees work in our operations outside of the U.S. Today, Japan is central to our international strategy. Consequently, in November 2016, we held our Board meeting in Tokyo, Prudential's headquarters in Japan. Over the course of several days, we met with the senior management of our Asian businesses to discuss their strategies, outlook, challenges and opportunities. We also met employees, whose observations and experiences reinforced the strength of Prudential's culture, and our commitment to doing business the right way and maintaining a sharp focus on talent management.

Summary Information

To assist you in reviewing the proposals to be acted upon at the Annual Meeting, we call your attention to the following information about the Company's 2016 financial performance and key executive compensation actions and decisions, and corporate governance highlights. The following description is only a summary. For more complete information about these topics, please review the Company's Annual Report on Form 10-K and this Proxy Statement.

Business

We reported net income of \$4.37 billion, or \$9.71 per share of Common Stock in 2016, compared to \$5.64 billion, or \$12.17 per share, in 2015, based on U.S. generally accepted accounting principles ("GAAP"). Net income for 2015 included a greater benefit from gains driven by market impacts including interest rates than in 2016.

We reported after-tax adjusted operating income of \$4.11 billion, or \$9.13 per share of Common Stock in 2016, compared to \$4.65 billion or \$10.04 per share, in 2015.⁽¹⁾ 2016 after-tax adjusted operating income was negatively affected by actuarial assumption updates, compared to a positive impact in 2015.

We reported GAAP book value of \$104.91 per share of Common Stock as of December 31, 2016, compared to \$92.39 per share as of year-end 2015.

Adjusted book value amounted to \$78.95 per share of Common Stock as of December 31, 2016, compared to \$73.59 per share as of year-end 2015.⁽¹⁾

We reported return on average equity based on income from continuing operations of 8.8% for 2016, compared to 13.3% for 2015.

We reported operating return on average equity of 12% for 2016, compared to 14.5% for 2015 and to the long term target of 13% to 14% we had set in 2011.⁽¹⁾ Our return on equity for 2016 reflects solid core performance from our businesses, partly offset by the impact of a number of inherently variable and episodic items including our annual actuarial review. Given the multi-year impact of very low interest rates in our two largest markets, the U.S. and Japan, and the short term impact of strategic investing in our businesses, we have moderated our expectations for operating return on average equity to 12% to 13% over the near to intermediate term.

⁽¹⁾ Consolidated adjusted operating income ("AOI") and operating return on average equity are non-GAAP measures of financial performance. Adjusted book value is a non-GAAP measure of financial position. We use earnings per share ("EPS") based on AOI, operating return on average equity, and adjusted book value as performance measures in our incentive compensation programs. For a discussion of these measures and for reconciliations to the nearest comparable GAAP measures, see Appendix A to this Proxy Statement.

Table of Contents

Assets under management reached \$1.264 trillion at December 31, 2016, an increase from \$1.184 trillion a year earlier.

We returned a total of \$3.2 billion of capital to shareholders in 2016, including \$2.0 billion through our share repurchase program and \$1.2 billion in the form of Common Stock dividends, compared to a total of \$2.1 billion of shareholder distributions in 2015.

COMPENSATION HIGHLIGHTS

The Compensation Committee has instituted a number of changes to our executive compensation program over the last several years to align with evolving competitive and governance practices and to strengthen the link to performance and rigor of our program. Highlights of our program include:

- We establish both target and maximum award levels under our annual incentive program.
- We use multiple diverse performance metrics to determine annual incentive awards: EPS achieved versus guidance; annual growth in EPS; and ROE relative to peer life insurance companies.
- 90% or more of our named executive officers' ("NEOs") total direct compensation is performance based.
- Our NEOs are required to defer 30% of their annual incentive awards into our Book Value Performance Program.
- The performance metrics under our annual incentive and long-term incentive programs balance our absolute performance and our relative performance versus peer life insurance companies.
- We maintain a clawback policy for our executive officers covering all incentive-based awards and addressing
- material financial restatements and misconduct (including failure to report), which includes a robust disclosure policy if such events occur.
- The Compensation Committee closely monitors the risks associated with our executive compensation program and individual compensation decisions to ensure they do not encourage excessive risk-taking.
- The stock ownership guideline for our CEO is 700% of base salary.
- In addition to stock ownership guidelines, we have stock retention requirements covering shares acquired upon the exercise of stock options or the payment or vesting of any performance shares and restricted stock units.
- Each year we engage with our shareholders and bring back their feedback to the Compensation Committee and the Board.

For additional information, see the Compensation Discussion and Analysis ("CD&A") Section in this Proxy Statement.

The compensation of our NEOs reflects both our 2016 performance and the rigor of our executive compensation program.

Named Executive Officer	2016 Base Salary (\$)	2016 Annual Incentive Award (as adjusted for mandatory deferrals) ⁽¹⁾ (\$)	2016 Long-Term Incentive Award Value ⁽²⁾ (\$)	2016 Total Direct Compensation (\$)
John R. Strangfeld	\$ 1,400,000	\$ 4,183,200	\$ 11,792,800	\$ 17,376,000
Robert M. Falzon	\$ 770,000	\$ 2,093,000	\$ 4,897,000	\$ 7,760,000
Mark B. Grier	\$ 1,190,000	\$ 3,556,000	\$ 9,524,000	\$ 14,270,000
Charles F. Lowrey	\$ 770,000	\$ 2,789,500	\$ 6,195,500	\$ 9,755,000
Stephen Pelletier	\$ 770,000	\$ 2,789,500	\$ 5,695,500	\$ 9,255,000

¹ The following amounts are not included in the 2016 Annual Incentive Award column because they have been mandatorily deferred into our Book Value Performance Program: \$1,792,800 for Mr. Strangfeld, \$897,000 for Mr. Falzon, \$1,524,000 for Mr. Grier, \$1,195,500 for Mr. Lowrey, and \$ 1,195,500 for Mr. Pelletier.

² Represents long-term incentive awards granted in 2017 for 2016 performance. Amounts include portions of the 2016 Annual Incentive Awards mandatorily deferred into our Book Value Performance Program.

Response to advisory vote and shareholder feedback

Approximately 95% of the votes cast at the 2016 Annual Meeting of Shareholders on the non-binding advisory vote on the compensation of our named executive officers were voted in support of our executive compensation program. Consistent with its strong commitment to engagement, communication, and transparency, the Compensation Committee continues to regularly receive feedback from our shareholders and review our executive compensation program to ensure alignment between the interests of our senior executives and shareholders. In part based on feedback from our shareholders, we made several modifications to the compensation program for our NEOs as discussed above and in more detail in the CD&A.

Corporate Governance Highlights

In 2016, management and Board members engaged with shareholders who hold a majority of our shares. During these discussions, shareholders were encouraged to identify potential Board candidates and share feedback on the Company, its governance practices and policies, and its compensation framework and programs. Our 2016 corporate governance highlights include:

- **Executive Compensation Program.** Received 95% shareholder support in 2016.
- **Shareholder Engagement.** In 2016, management and Board members met with shareholders who own the majority of our shares.
- **Board Refreshment.** Elected four new directors since 2015, including three in 2016, enhancing the Board's breadth and depth of experience and diversity.
- **Investor Communications.** Nominated for Best Proxy Statement for a Large Cap Company by Corporate Secretary Magazine.

Item 1–Election of Directors

Our Board of Directors has nominated 12 directors for election at this Annual Meeting to hold office until the next annual meeting and the election of their successors. All of the nominees are currently directors. Each agreed to be named in this Proxy Statement and to serve if elected. All of the nominees are expected to attend the 2017 Annual Meeting. All 12 directors, then serving on the Board, attended the 2016 Annual Meeting.

James Cullen, a member of the Board, will have attained the age of 74 and will not stand for re-election. As a result, the Board will be reduced to 12 members immediately prior to the Annual Meeting.

We have no reason to believe that any of the nominees will be unable or unwilling for good cause to serve if elected. However, if any nominee should become unable for any reason or unwilling for good cause to serve, proxies may be voted for another person nominated as a substitute by the Board, or the Board may reduce the number of directors.

Director Criteria, Qualifications, Experience and Tenure

Prudential Financial is a financial services company that offers a variety of products and services, including life insurance, annuities, retirement-related services, mutual funds, and investment management. The Corporate Governance and Business Ethics Committee performs an assessment of the skills and the experience needed to properly oversee the interests of the Company. Generally, the Committee reviews both the short- and long-term strategies of the Company to determine what current and future skills and experience are required of the Board in exercising its oversight function. The Committee then compares those skills to the skills of the current directors and potential director candidates. The Committee conducts targeted efforts to identify and recruit individuals who have the qualifications identified through this process, keeping in mind its commitment to diversity.

BOARD HIGHLIGHTS

BOARD DIVERSITY

While the Company does not have a formal policy on Board diversity, our Corporate Governance Principles and Practices place great emphasis on diversity, and the Committee actively considers diversity in recruitment and nominations of directors. The current composition of our Board reflects those efforts and the importance of diversity to the Board:

Two-thirds of our Board is diverse

3	director nominees have worked outside the United States
2	director nominees are African-American
1	director nominee is Asian-American
2	director nominees are Hispanic
3	director nominees are Women
1	director nominee is LGBT
12	Total number of director nominees

BOARD TENURE FOR 2017 NOMINEES

Our directors' expertise combines to provide a broad mix of skills, qualifications and proven leadership abilities.

The Corporate Governance and Business Ethics Committee practices a long-term approach to board refreshment. With the assistance of an independent search firm, the Committee regularly identifies individuals who have expertise that would complement and enhance the current board's skills and experience. In addition, as part of our shareholder engagement dialogue, we routinely ask our investors for input regarding director recommendations.

**Director Tenure
(Average 6 years)**

It is of critical importance to the Company that the Committee recruit directors who help achieve the goal of a well-rounded, diverse Board that functions collegially as a unit.

The Committee expects each of the Company's directors to have proven leadership skills, sound judgment, integrity and a commitment to the success of the Company. In evaluating director candidates and considering incumbent directors for nomination to the Board, the Committee considers each nominee's independence, financial literacy, personal and professional accomplishments, and experience in light of the needs of the Company. For incumbent directors, the factors also include attendance, past performance on the Board and contributions to the Board and their respective committees.

Below each nominee's biography, we have included an assessment of the skills and experience of such nominee. We have also included a chart that covers the assessment for the full Board.

Director Nominees

The Board of Directors recommends that shareholders vote "FOR" each of the nominees.

Corporate Governance

The Company is committed to good corporate governance, which helps us compete more effectively, sustain our success and build long-term shareholder value. The Company is governed by a Board of Directors and committees of the Board that meet throughout the year. Directors discharge their responsibilities at Board and committee meetings and also through other communications with management.

The Board has adopted Corporate Governance Principles and Practices to provide a framework for the effective governance of the Company. The Corporate Governance Principles and Practices are reviewed regularly and updated as appropriate. The full text of the Corporate Governance Principles and Practices, which includes the definition of independence adopted by the Board, the charters of the Corporate Governance and Business Ethics, Compensation and Audit Committees, the Lead Independent Director Charter, the Code of Business Conduct and Ethics and the Related Party Transaction Approval Policy can be found at www.prudential.com/governance. Copies of these documents also may be obtained from the Chief Governance Officer and Corporate Secretary.

Governance is a continuing focus at the Company, starting with the Board and extending to management and all employees. Therefore, the Board reviews the Company's policies and business strategies and advises and counsels the CEO and the other executive officers who manage the Company's businesses, including reviewing, on at least an annual basis, the Company's strategic plans.

In addition, we solicit feedback from shareholders on governance and executive compensation practices and engage in discussions with various groups and individuals on governance issues and improvements.

Process for Selecting Directors

The Corporate Governance and Business Ethics Committee screens and recommends candidates for nomination by the full Board. The Company's By-laws provide that the size of the Board may range from 10 to 24 members. The Board's current view is that the optimal size is between 10 and 15 members. The Committee is assisted with its recruitment efforts by an independent third party search firm, which recommends candidates that satisfy the Board's criteria. The search firm also provides research and pertinent information regarding candidates, as requested.

Shareholder Nominations and Recommendations of Director Candidates

We amended our By-laws in March 2015 to permit a group of up to 20 shareholders who have owned at least 3% of our outstanding capital stock for at least three years to submit director nominees for up to 20% of the Board for inclusion in our Proxy Statement if the shareholder(s) and the nominee(s) meet the requirements in our By-laws.

Shareholders who wish to nominate directors for inclusion in our Proxy Statement or directly at an Annual Meeting in accordance with the procedures in our By-laws should follow the instructions under "Submission of Shareholder Proposals and Director Nominations" in this Proxy Statement.

Shareholders who wish to recommend candidates for consideration should send their recommendations to the attention of Margaret M. Foran, Chief Governance Officer, Senior Vice President and Corporate Secretary, at 751 Broad Street, Newark, NJ 07102. The Committee will consider director candidates recommended by shareholders in accordance with the criteria for director selection described under "Director Criteria, Qualifications, Experience and Tenure."

Director Attendance

During 2016, the Board of Directors held 11 meetings. Together, the directors attended 99% of the combined total meetings of the full Board and the committees on which they served in 2016, and no director attended less than 83% of the combined total meetings of the full Board and the committees on which he or she served in 2016.

Director Independence

The current Board consists of 13 directors, two of whom are currently employed by the Company (Messrs. Strangfeld and Grier). The Board conducted an annual review and affirmatively determined that all of the non-employee directors (Mss. Hund-Mejean, Pianalto and Poon, and Messrs. Baltimore, Casellas, Cullen, Krapek, Lighte, Paz, Scovanner and Todman) are "independent" as that term is defined in the listing standards of the NYSE and in Prudential Financial's Corporate Governance Principles and Practices. In addition, the Board previously determined that Mr. Bethune and Ms. Horner, who did not stand for re-election at our 2016 Annual Meeting, were "independent" directors.

Independent Director Meetings

The independent directors generally meet in an executive session at both the beginning and the end of each regularly scheduled Board meeting, with the Lead Independent Director serving as Chair.

COMPREHENSIVE STEPS TO ACHIEVE BOARD EFFECTIVENESS

The Board is committed to a rigorous self-evaluation process. Through evaluation, directors review the Board's performance, including areas where the Board feels it functions effectively, and importantly, areas where the Board believes it can improve.

1. Process is Initiated

Corporate Governance and Business Ethics Committee Chair initiates annual board evaluation process with the help of an independent third party consultant and our chief governance officer.

2. Evaluation

The evaluation solicits each director's opinion regarding the Board's effectiveness in monitoring and reviewing topics such as:

- The strategic planning process
- The annual budget process and financial performance
- Management compensation, performance and ethics
- Risk strategy and management
- Succession planning

3. Feedback Analysis

Directors are encouraged to speak to the independent third party with specific feedback on individual directors, committees or the Board in general. The independent third party synthesizes the results and comments and has oral interviews with directors regarding the full Board or any committee on which the director serves.

4. Presentation of Findings

In early 2017, the Corporate Governance and Business Ethics chair, in conjunction with the third party consultant, presents the findings to each Committee, followed by review of the full Board.

5. Follow Up

Results requiring additional consideration are addressed at subsequent board and committee meetings and reported back to full Board, where appropriate.

The Board followed-up on its 2016 self-evaluation by reviewing materials about the competitive and regulatory environment as well as discussing talent at almost every scheduled Board meeting.

For 2017, the Board has asked for more information in the following areas:

- Technology and Future Products
- Product Development
- Management Succession Planning
- Executive Compensation

Board Leadership

Currently, our Board leadership structure consists of a Lead Independent Director, a Chairman (who is also our CEO) and strong committee chairs. The Board believes that our structure provides independent Board leadership and engagement while providing the benefit of having our CEO, the individual with primary responsibility for managing the Company's day-to-day operations, chair regular Board meetings as key business and strategic issues are discussed. At this time, the Board believes that the Company is best served by having the same individual as both Chairman of the Board and CEO, but considers the continued appropriateness of this structure at least annually.

In 2016, independent directors and our Chief Governance Officer engaged with shareholders, who held a majority of our shares, on their thoughts on our Board leadership structure. Our Lead Independent Director also met with certain of our shareholders in 2016. The discussions and feedback from these meetings has been given to the Board and will be considered during the annual review of the appropriateness of the Board leadership structure.

Under our Corporate Governance Principles and Practices, the independent directors annually elect an independent director to serve as Lead Independent Director for a term of at least one year, but for no more than three years. Mr. Krapek has served as our Lead Independent Director since May 2014. A new Lead Independent Director will be elected by the independent directors immediately after the 2017 Annual Meeting. The responsibilities and authority of the Lead Independent Director include:

- presiding at all meetings of the Board at which the Chairman is not present, including executive sessions of the independent directors;
- authorization to call meetings of the independent directors;
- serving as a liaison between the Chairman and the independent directors;
- approving information sent to the Board, including the quality, quantity, appropriateness and timeliness of such information;
- approving meeting agendas for the Board;
- approving meeting schedules to assure there is sufficient time for discussion of all agenda items;
- authorization to retain outside advisors and consultants who report directly to the Board of Directors on board-wide issues; and
- ensuring that he/she be available, if requested by shareholders, when appropriate, for consultation and direct communication.

Letter from the Lead Independent Director

Under Prudential's Corporate Governance Principles, the independent directors of the Board annually elect a Lead Independent Director for a term of at least one year, but for no more than three years. I am honored that my fellow independent directors elected me to serve for the last three years. My term ends in May 2017, effective at our Annual Meeting. Our directors share my commitment to strong, independent leadership, Board effectiveness and oversight. In this context, I would like to share insights into our philosophy and practices on several important issues.

Strategic Oversight

As part of the annual strategic planning process, our Board reviews the Company's strategy, opportunities, challenges, capabilities and leadership to ensure the Company is well-positioned to continue creating value for shareholders. My fellow independent directors and I are committed to, and value, our dialogue with management regarding the Company's disciplined risk assessment, capital allocation strategy and long-term plans for growth.

Board Governance

Effective governance means ongoing and thoughtful evaluation of our governance structure, and constructive shareholder engagement on emerging governance issues. In 2016, our engagement efforts, which included my personal involvement and that of other directors, reached investors holding the majority of our outstanding shares.

Our recent shareholder engagement dialogue about governance has focused on, among other things, Board composition, refreshment and our Board's leadership structure. Understanding the importance of the Board's responsibility to provide effective oversight, we strive to maintain an appropriate balance of tenure, diversity, skills, and experience on the Board. Since 2015, four new independent directors have joined our Board to replace long-tenured directors. In addition, directors from diverse backgrounds comprise two-thirds of our Board.

Board Evaluation

We are committed to provide transparency to our robust Board and committee evaluation process, which is led by an independent third-party consultant. Our proxy statement not only describes each step of the evaluation process, but also provides specific areas where our directors seek improvement.

Governance Policies and Practices

We continue to maintain our focus on strong governance practices that we believe are important to our shareholders and protect the long-term vitality of the Company. Our accountability to you is indicative in our policies such as: proxy access, a strong Lead Independent Director, the right of shareholders to call a special meeting, majority vote, annual election of directors, and a robust clawback policy.

My board colleague, Gilbert Casellas, chairman of our Corporate Governance and Business Ethics Committee, and I address these topics in two short videos. You can access the videos from the Corporate Governance section of our website at www.prudential.com/directorvideos. We see these videos as an important component of our ongoing efforts to share information with shareholders.

Prudential's founder, John Dryden, stated that the "justification of the company's existence is its advancement of the efforts of its policy holders and their families for better economic and social condition." More than 140 years after Mr. Dryden's proclamation, my fellow directors and I are proud to carry on this purpose on your behalf.

Lead Independent Director

Board Risk Oversight

The Board oversees the Company's risk profile and management's processes for assessing and managing risk, both as a whole Board and through its committees. At least annually, the Board reviews strategic risks and opportunities facing the Company and certain of its businesses. Other important categories of risk are assigned to designated Board committees (which are comprised solely of independent directors) that report back to the full Board. In general, the committees oversee the following risks:

- **Audit Committee:** risks related to financial controls, legal, regulatory and compliance issues, and the overall risk management governance structure and risk management function;
- **Compensation Committee:** the design and operation of the Company's compensation programs so that they do not encourage unnecessary or excessive risk-taking;
- **Corporate Governance and Business Ethics Committee:** the Company's political contributions, lobbying expenses and overall political strategy, as well as the Company's environmental, sustainability and corporate social responsibility to minimize reputational risk and focus on future sustainability;
- **Finance Committee:** risks related to capital and liquidity management, incurrence and repayment of borrowings, the capital structure of the enterprise, funding of benefit plans, and the levels of insurance reserves and policyholder dividends;
- **Investment Committee:** investment risk, and the strength of the investment function; and
- **Risk Committee:** the governance of significant risks throughout the Company, the Company's overall risk profile, and coordination of the risk oversight functions of the other Board committees.

In performing its oversight responsibilities, the Board and its committees review policies and guidelines that senior management uses to manage the Company's exposure to material categories of risk. As these issues sometimes overlap, committees hold joint meetings when appropriate and address certain issues at the full Board level. During 2016, the full Board received a report from the Chief Risk Officer on the important strategic issues and risks facing the Company. In addition, the Board and committees review the performance and functioning of the Company's overall risk management function.

The Risk Committee is comprised of the chairs of each of the other Board committees. The principal activities of the Risk Committee are to: oversee the Company's assessment and reporting of material risks by reviewing the metrics used by management to quantify risk, applicable risk limit structures and risk mitigation strategies; review the Company's processes and procedures for risk assessment and risk management, including the related assumptions used across the Company's businesses and material risk types; and receive reports from management on material and emerging risk topics that are reviewed by the Company's internal management committees.

The Company, under the Board's oversight, is organized to promote a strong risk awareness and management culture. The Chief Risk Officer sits on many management committees and heads an independent enterprise risk management department; the General Counsel and Chief Compliance Officer also sit on key management committees and the functions they oversee operate independently of the businesses to separate management and oversight. Employee appraisals evaluate employees with respect to risk and ethics.

We monitor the risks associated with our executive compensation program and individual compensation decisions on an ongoing basis. Each year management undertakes a review of the Company's various compensation programs to assess the risks arising from our compensation policies and practices. Management presents these risk assessments to the Compensation Committee. The risk assessments have included a review of the primary design features of the Company's compensation plans, the process to determine compensation pools and awards for employees and an analysis of how those features could directly or indirectly encourage or mitigate risk-taking. As part of the risk assessments, it has been noted that the Company's compensation plans allow for discretionary negative adjustments to the ultimate outcomes, which serves to mitigate risk-taking.

Moreover, senior management is subject to a share retention policy, and historically a large percentage of senior management compensation has been paid in the form of long-term equity awards. In addition, senior management compensation is paid over a multiple-year cycle, a compensation structure that is intended to align incentives with appropriate risk-taking. The Company's general risk management controls also serve to preclude decision-makers from taking excessive risk to earn the incentives provided under our compensation plans. The Compensation Committee agreed with the conclusion that the identified risks were within our ability to effectively monitor and manage, and that our compensation programs do not encourage unnecessary or excessive risk-taking and do not create risks that are reasonably likely to have a material adverse effect on the Company.

Succession Planning

The Board is actively engaged and involved in talent management. The Board reviews the Company's "people strategy" in support of its business strategy at least annually and frequently discusses talent issues at its meetings. This includes a detailed discussion of the Company's global leadership bench and succession plans with a focus on key positions at the senior officer level.

In addition, the committees of the Board regularly discuss the talent pipeline for specific critical roles. High potential leaders are given exposure and visibility to Board members through formal presentations and informal events. More broadly, the Board is regularly updated on key talent indicators for the overall workforce, including diversity, recruiting and development programs.

Communication with Directors

Shareholders and other interested parties may communicate with any of the independent directors, including Committee Chairs and the Lead Independent Director, by using the following address:

Prudential Financial, Inc.

Board of Directors
c/o Margaret M. Foran, Chief Governance Officer,
Senior Vice President and Corporate Secretary
751 Broad Street
Newark, NJ 07102
Email: independentdirectors@prudential.com

Feedback on Executive Compensation: You can also provide feedback on executive compensation at the following website: [www.prudential.com/ executivecomp](http://www.prudential.com/executivecomp).

The Chief Governance Officer and Corporate Secretary of the Company reviews communications to the independent directors and forwards those communications to the independent directors as discussed below. Communications involving substantive accounting or auditing matters will be immediately forwarded to the Chair of the Audit Committee and the Company's Corporate Chief Ethics Officer consistent with time frames established by the Audit Committee for the receipt of communications dealing with these matters. Communications that pertain to non-financial matters will be forwarded promptly. Items that are unrelated to the duties and responsibilities of the Board will not be forwarded, such as: business solicitation or advertisements; product-related inquiries; junk mail or mass mailings; resumes or other job-related inquiries; spam and overly hostile, threatening, potentially illegal or similarly unsuitable communications.

SHAREHOLDER ENGAGEMENT

This year, we continued our practice of engagement, communication, and transparency in a variety of ways, including the following:

- released two videos featuring Board members, Karl J. Krapek, our Lead Independent Director, and Gilbert Casellas, Chair of our Corporate Governance and Business Ethics Committee, sharing their views on Prudential's Board and governance practices;
- provided multiple avenues for shareholders to communicate with the Company and the Board. We have received almost 15,000 shareholder comments in the last six years. Shareholders also continued to use the mechanisms available through www.prudential.com/governance to provide input;
- promoted greater communication with our institutional shareholders on corporate governance issues by engaging with shareholders who collectively held a majority of our shares;
- advanced open Board communication by facilitating interaction between our directors and shareholders; and
- received nomination from Corporate Secretary Magazine for Best Proxy Statement for a Large Cap Company.

Committees of the Board of Directors

The Board has established various committees to assist in discharging its duties, including: Audit, Compensation, Corporate Governance and Business Ethics, Executive, Finance, Investment and Risk. The primary responsibilities of each of the committees are set forth below, together with their current membership and the number of meetings held in 2016. Committee charters can be found on our website at www.prudential.com/governance. Each member of the Audit, Compensation, and Corporate Governance and Business Ethics Committees has been determined by the Board to be independent for purposes of the NYSE Corporate Governance listing standards. In addition, directors who serve on the Audit Committee and the Compensation Committee meet additional, heightened independence and qualification criteria applicable to directors serving on these committees under the NYSE listing standards.

Investment Committee Meetings in 2016: 4	Thomas J. Baltimore (Chair) James G. Cullen Peter R. Lighte Christine A. Poon	The Investment Committee oversees and takes actions with respect to the acquisition, management and disposition of invested assets; reviews the investment performance of the pension plan and funded employee benefit plans; and reviews investment risks and exposures, as well as the investment performance of products and accounts managed on behalf of third parties.
Risk Committee Meetings in 2016: 7	Karl J. Krapek (Chair) Thomas J. Baltimore Gilbert F. Casellas Christine A. Poon Douglas A. Scovanner	The Risk Committee oversees the governance of significant risks throughout the enterprise, including by coordinating the risk oversight functions of each Board committee and seeing that matters are appropriately elevated to the Board.

In addition to the above Committee meetings, the Board held 11 meetings in 2016.

Certain Relationships and Related Party Transactions

The Company has adopted a written Related Party Transaction Approval Policy that applies:

- to any transaction or series of transactions in which the Company or a subsidiary is a participant;
- when the amount involved exceeds \$120,000; and
- when a related party (a director or executive officer of the Company, any nominee for director, any shareholder owning an excess of 5% of the total equity of the Company and any immediate family member of any such person) has a direct or indirect material interest (other than solely as a result of being a director or trustee or in any similar position or a less than 10 percent beneficial owner of another entity).

The policy is administered by the Corporate Governance and Business Ethics Committee. The Committee will consider relevant facts and circumstances in determining whether or not to approve or ratify such a transaction, and will approve or ratify only those transactions that are, in the Committee's judgment, appropriate or desirable under the circumstances.

In the ordinary course of business, we may from time to time engage in transactions with other corporations or financial institutions whose officers or directors are also directors of Prudential Financial. In all cases, these transactions are conducted on an arm's-length basis. In addition, from time to time executive officers and directors of Prudential Financial may engage in transactions in the ordinary course of business involving services we offer, such as insurance and investment services, on terms similar to those extended to employees of Prudential Financial and its subsidiaries and affiliates generally. The Corporate Governance and Business Ethics Committee has determined that certain types of transactions do not create or involve a direct or indirect material interest, including (i) any sales of financial services or products to a related party in the ordinary course of business on terms and conditions generally available in the market place (or at ordinary employee discounts, if applicable) and in accordance with applicable law and (ii) all business relationships between the Company and a 5% shareholder or a business affiliated with a director, director nominee or immediate family member of a director or director nominee made in the ordinary course of business on terms and conditions generally available in the market place and in accordance with applicable law.

Pursuant to our policy, the Corporate Governance and Business Ethics Committee determined that there were two transactions that qualified as related party transactions since the beginning of 2016. The brother of Robert Falzon, our Executive Vice President and Chief Financial Officer, Michael Falzon, is a Vice President for Infrastructure Systems Development. In 2016, the total compensation paid to Michael Falzon, including salary, bonus and the grant date value of long-term incentive awards, was approximately \$480,300. The son-in-law of Barbara Koster, our Senior Vice President and Chief Information Officer, Joshua D. Howard, is an associate in Quantitative Management Associates, a subsidiary of the Company. In 2016, the total compensation paid to Mr. Howard, including salary and bonus, was approximately \$141,500. In both cases the compensation is similar to the compensation of other employees holding equivalent positions. Neither individual is in the reporting chain of the executive officer.

SUSTAINABILITY AND ENVIRONMENT

At Prudential, sustainability represents how the Company anticipates and manages future risks and opportunities to meet its long-term promises. Sustainability advocates have noted Prudential's work in the field, especially the active involvement of the Board and senior leadership. Sustainability highlights in 2016 include:

- Providing the Board's Corporate Governance and Business Ethics Committee with a formal report on the Company's strategy and developments.
- Engaging with industry groups, advocates and shareholders on our efforts. A team of Prudential senior leaders participated in a dialogue with the leader of the Geneva Association's Extreme Events and Climate Risk Working Group.
- Facilitating a dialogue between Ceres, a non-profit advocating sustainability leadership, and selected Company executives on Prudential's sustainability progress. Prudential receives feedback on its sustainability efforts from Ceres and as part of ongoing stakeholder engagement.
- Receiving LEED Gold Certification from the U.S. Green Building Council for the new Prudential tower in Newark, NJ.
- Inviting registered shareholders to steward natural resource conservation by accessing shareholder materials online, voting online and registering for direct deposit of dividends.
- Releasing our annual sustainability report — Build, Preserve. Repeat. — with stakeholder input shaping the content. To review the report visit www.prudential.com/sustainability.
- Adhering to the criteria for inclusion in the FTSE4Good Index Series since 2011, which measures the performance of companies' environmental, social and governance (ESG) practices.

Policy on Shareholder Rights Plan

We do not have a shareholder rights plan. The Board will obtain shareholder approval prior to adopting a future shareholder rights plan unless the Board, in the exercise of its fiduciary duties, determines that under the circumstances then existing, it would be in the best interests of the Company and our shareholders to adopt a rights plan without prior shareholder approval. If a rights plan is adopted by the Board without prior shareholder approval, the plan must provide that it will expire within one year of adoption unless ratified by shareholders.

Political Contributions and Lobbying Expenditure Oversight and Disclosure

The Corporate Governance and Business Ethics Committee reviews and approves an annual report on political activities, contributions and lobbying expenses. It monitors and evaluates the Company's ongoing political strategy as it relates to overall public policy objectives for the next year and provides guidance to the Board. We provide on our website a description of our oversight process for political contributions and a summary of PAC contributions. We also include information on annual dues, assessments and contributions of \$25,000 or more to trade associations and tax-exempt advocacy groups and a summary of Company policies and procedures for political activity. This disclosure is available at www.prudential.com/governance under the heading "Political Activity & Contributions."

In 2016, Prudential received a CPA-Zicklin designation as Trendsetter. This honor represents a top-five ranking for political disclosure and accountability in the 2016 CPA-Zicklin Trendsetters Designation Index of Corporate Political Disclosure and Accountability.

Environmental, Sustainability and Corporate Social Responsibility

The Corporate Governance and Business Ethics Committee has oversight of environmental issues and policies. In addition, three of our Board members sit on the Corporate Social Responsibility Oversight Committee. These directors inform the Company's social responsibility efforts in investing for financial and social returns, strategic philanthropy, employee engagement and corporate community involvement.

CORPORATE RESPONSIBILITY

The Office of Corporate Social Responsibility extends the reach of Prudential's business model to create pathways for all individuals and families to achieve financial and social mobility.

In 2016, Prudential invested:

- \$41 million in grants to non-profit organizations through The Prudential Foundation;
- \$237 million in impact investments to non-profits and businesses that seek to create both a financial and social return. In 2016, the company reached the halfway mark to achieving its goal of having a \$1 billion impact investment portfolio by 2020; and
- \$15 million in corporate contributions to non-profit organizations, including \$5 million in projects serving U.S. veterans.

Prudential employees continued the Company's long tradition of corporate community involvement. For these efforts, Prudential has once again been named to the Civic 50 list celebrating America's most community-minded companies, an honor awarded by the non-profit organization Points of Light.

Item 2—Ratification of the Appointment of the Independent Registered Public Accounting Firm

The Audit Committee of the Board of Directors has appointed PricewaterhouseCoopers LLP (“PricewaterhouseCoopers” or “PwC”) as the Company’s independent registered public accounting firm (independent auditor) for 2017. We are not required to have the shareholders ratify the selection of PricewaterhouseCoopers as our independent auditor. We nonetheless are doing so because we believe it is a matter of good corporate practice.

If the shareholders do not ratify the selection, the Audit Committee will reconsider whether or not to retain PricewaterhouseCoopers, but may nevertheless retain it as the Company’s independent auditor. Even if the selection is ratified, the Audit Committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interest of Prudential Financial and its shareholders. Representatives of PricewaterhouseCoopers will be present at the Annual Meeting and will have the opportunity to make a statement and be available to respond to appropriate questions by shareholders.

FEES PAID TO PRICEWATERHOUSECOOPERS LLP

The following is a summary and description of fees for services provided by PricewaterhouseCoopers in 2016 and 2015.

Worldwide Fees (In Millions)

Service	2016	2015
Audit(A)	\$ 51	\$ 50
Audit-Related(B)	\$ 4	\$ 4
Tax(C)	\$ 3	\$ 2
All Other	—	—
Total	\$ 58	\$ 56

(A) The aggregate fees for professional services rendered for the integrated audit of the consolidated financial statements of Prudential Financial and, as required, audits of various domestic and international subsidiaries, the issuance of comfort letters, agreed-upon procedures required by regulation, consents and assistance with review of documents filed with the SEC.

(B) The aggregate fees for assurance and related services including internal control and financial compliance reports, agreed-upon procedures not required by regulation, and accounting consultation on new accounting standards, acquisitions and potential financial reporting requirements.

(C) The aggregate fees for services rendered by PricewaterhouseCoopers’ tax department for tax return preparation, tax advice related to mergers and acquisitions and other international, federal and state projects, and requests for rulings. In 2016, tax compliance and preparation fees totaled \$1.4M and tax advisory fees totaled \$1.1M, and in 2015, tax compliance and preparation fees totaled \$1.6M and tax advisory fees totaled \$0.5M.

PricewaterhouseCoopers also provides services to domestic and international mutual funds and limited partnerships not consolidated by Prudential Financial, but which are managed by Prudential Financial. PricewaterhouseCoopers identified fees related to audit, audit-related, and tax services paid by these entities of \$14M in 2016 and \$14M in 2015.

The Audit Committee has advised the Board of Directors that in its opinion the non-audit services rendered by PricewaterhouseCoopers during the most recent fiscal year are compatible with maintaining its independence.

PwC has been the Company’s independent auditor since 2001.

In determining whether to reappoint the independent auditor, the Audit Committee annually considers several factors including:

- the length of time the firm has been engaged;
- the firm's independence and objectivity;
- PwC's capability and expertise in handling the breadth and complexity of Prudential's global operations, including the expertise and capability of the Lead Audit Partner;
- historical and recent performance, including the extent and quality of PwC's communications with the Audit Committee, and the results of a management survey of PwC's overall performance;
- data related to audit quality and performance, including recent Public Company Accounting Oversight Board inspection reports on the firm; and
- the appropriateness of PwC's fees, both on an absolute basis and as compared with its peers.

In accordance with SEC rules, independent audit partners are subject to rotation requirements limiting their number of consecutive years of service to our Company to no more than five. In 2016, Prudential's Audit Committee oversaw a rigorous process of selecting a new Lead Audit Partner with PwC. PwC provided a list of qualified potential lead audit partners. The candidates were interviewed and assessed based on their related experience and industry expertise. Interviews were conducted and the Chair met with and interviewed the final candidate. The new Lead Audit Partner selected was approved by the Audit Committee and will assume oversight of the external audit of Prudential Financial effective for the 2017 audit.

AUDIT COMMITTEE PRE-APPROVAL POLICIES AND PROCEDURES

The Audit Committee has established a policy requiring its pre-approval of all audit and permissible non-audit services provided by the independent auditor. The policy identifies the guiding principles that must be considered by the Audit Committee in approving services to ensure that the independent auditor's independence is not impaired; describes the Audit, Audit-Related, Tax and All Other services that may be provided and the non-audit services that may not be performed; and sets forth the pre-approval requirements for all permitted services. The policy provides for the general pre-approval of specific types of Audit, Audit-Related and Tax services and a limited fee estimate range for such services on an annual basis. The policy requires specific pre-approval of all other permitted services. The independent auditor is required to report periodically to the Audit Committee regarding the extent of services provided in accordance with their pre-approval and the fees for the services performed to date. The Audit Committee's policy delegates to its Chair the authority to address requests for pre-approval of services with fees up to a maximum of \$250,000 between Audit Committee meetings if the Chief Auditor deems it reasonably necessary to begin the services before the next scheduled meeting of the Audit Committee, and the Chair must report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee may not delegate to management the Audit Committee's responsibility to pre-approve permitted services of the independent auditor.

All Audit, Audit-Related, Tax and All Other services described above were approved by the Audit Committee before services were rendered.

The Board of Directors recommends that shareholders vote "FOR" ratification of the appointment of PricewaterhouseCoopers as the Company's Independent Auditor for 2017.

ENHANCING COMMUNICATION THROUGH AUDIT COMMITTEE REPORTING

The Center for Audit Quality and a group of nationally recognized U.S. corporate governance and policy organizations, jointly released a paper entitled "Enhancing the Audit Committee Report: A Call to Action," which encouraged audit committees of public companies to proactively consider strengthening their public disclosures to more effectively convey the critical work of audit committees to investors and stakeholders. Prudential was featured as an example of a company exhibiting voluntary practices strengthening audit committee disclosures.

REPORT OF THE AUDIT COMMITTEE

Three non-management directors comprise the Audit Committee. The Committee operates under a written charter adopted by the Board.

In addition, the Board of Directors has determined that all of our Audit Committee members, Messrs. Paz and Scovanner and Ms. Hund-Mejean, satisfy the financial expertise requirements of the NYSE and have the requisite experience to be designated an audit committee financial expert as that term is defined by rules of the SEC.

Management is responsible for the preparation, presentation and integrity of the financial statements of Prudential Financial and for maintaining appropriate accounting and financial reporting policies and practices, and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Prudential Financial's independent registered public accounting firm (independent auditor), PricewaterhouseCoopers, is responsible for auditing the consolidated financial statements of Prudential Financial and expressing an opinion as to their conformity with generally accepted accounting principles, as well as expressing an opinion on the effectiveness of internal control over financial reporting in accordance with the requirements of the Public Company Accounting Oversight Board ("PCAOB").

In performing its oversight function, the Audit Committee reviewed and discussed the audited consolidated financial statements of Prudential Financial as of and for the year ended December 31, 2016 and Management's Annual Report on Internal Control Over Financial Reporting with management and Prudential Financial's independent auditor. The Audit Committee also discussed with Prudential Financial's independent auditor the matters required to be discussed by the independent auditor with the Audit Committee under the rules adopted by the PCAOB.

The Audit Committee received from the independent auditor the written disclosures and the letter required by applicable requirements of the PCAOB regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed with the independent auditor its independence.

The Audit Committee has discussed with, and received regular status reports from, Prudential Financial's Chief Auditor and independent auditor on the overall scope and plans for their audits of Prudential Financial, including their scope and plans for evaluating the effectiveness of internal control over financial reporting. The Audit Committee meets with the Chief Auditor and the independent auditor, with and without management present, to discuss the results of their respective audits, in addition to private meetings with the Chief Financial Officer, Chief Risk Officer, General Counsel, Chief Actuary and Chief Compliance Officer. In determining whether to reappoint PricewaterhouseCoopers as Prudential Financial's independent auditor, the Audit Committee took into consideration a number of factors, including the length of time the firm has been engaged, the firm's independence and objectivity, PwC's capability and expertise in handling the breadth and complexity of Prudential's global operations, including the expertise and capability of the Lead Audit Partner, historical and recent performance, including the extent and quality of PwC's communications with the Audit Committee, and the results of a management survey of PwC's overall performance, data related to audit quality and performance, including recent PCAOB inspection reports on the firm, and the appropriateness of PwC's fees, both on an absolute basis and as compared with its peers.

In addition, the Audit Committee reviewed and amended its Charter and received reports as required by its policy for the receipt, retention and treatment of financial reporting concerns received from external and internal sources.

Based on the reports and discussions described in this report and subject to the limitations on the roles and responsibilities of the Audit Committee referred to above and in its Charter, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements of Prudential Financial and Management's Annual Report on Internal Control Over Financial Reporting be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2016 for filing with the SEC.

Item 3—Advisory Vote to Approve Named Executive Officer Compensation

The Board is committed to excellence in governance and recognizes the interest our shareholders have in our executive compensation program. As a part of that commitment, and in accordance with SEC rules, our shareholders are being asked to approve a non-binding advisory resolution on the compensation of our named executive officers, as reported in this Proxy Statement. This proposal, commonly known as a “Say on Pay” proposal, gives shareholders the opportunity to endorse or not endorse our 2016 executive compensation program and policies for our named executive officers through the following resolution:

RESOLVED, that the shareholders of Prudential approve, on an advisory basis, the compensation of the Company’s named executive officers set forth in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables and narrative in this Proxy Statement.

This vote is not intended to address any specific item of compensation, but rather our overall compensation policies and practices relating to our named executive officers. Accordingly, your vote will not directly affect or otherwise limit any existing compensation or award arrangement of any of our named executive officers. Because your vote is advisory, it will not be binding upon the Board. The Board will, however, as it has done in prior years, take into account the outcome of the “Say on Pay” vote when considering future compensation arrangements.

The Board has adopted a policy providing for annual “Say on Pay” votes. Accordingly, subject to the outcome of Item 4 and the decision of the Board, the next “Say on Pay” vote will occur in 2018.

The Board of Directors recommends that shareholders vote “FOR” the advisory vote to approve our named executive officer compensation.

Item 4—Advisory Vote on the Frequency of Future Advisory Votes to Approve Named Executive Officer Compensation

As described in Item 3, our shareholders are being asked to vote to approve the compensation of our named executive officers, as reported in this Proxy Statement. In accordance with SEC rules, Item 4 gives you the opportunity to cast a non-binding vote on how often the Company should include an advisory vote on named executive officer compensation in its proxy materials for future annual or other meetings for which the Company must include executive compensation information. Shareholders may vote to have the advisory vote on executive compensation every year, every two years, or every three years. Shareholders may also abstain from voting.

The Board believes that these votes should occur every year so shareholders may annually express their views on our executive compensation program. The Company has been providing an advisory vote on executive compensation on an annual basis. The Board values the opportunity to receive feedback and will continue to consider the outcome of these votes in making executive compensation decisions.

The Board of Directors recommends that shareholders vote For “EVERY YEAR” on the frequency of future advisory votes to approve named executive officer compensation.

Item 5—Shareholder Proposal Regarding an Independent Board Chairman

In accordance with SEC rules, we have set forth below a shareholder proposal, along with the supporting statement of the shareholder proponent. The Company is not responsible for any inaccuracies it may contain. The shareholder proposal is required to be voted on at our Annual Meeting only if properly presented. As explained below, our Board unanimously recommends that you vote **“AGAINST”** the shareholder proposal.

John Chevedden, 2215 Nelson Avenue, No. 205, Redondo Beach, California, 90278, beneficial owner of 100 shares of Common Stock, is the proponent of the following shareholder proposal. The proponent has advised us that a representative will present the proposal and related supporting statement at the Annual Meeting.

Independent Board Chairman

Shareholders request our Board of Directors to adopt as policy, and amend our governing documents as necessary, to require the Chair of the Board of Directors, whenever possible, to be an independent member of the Board. The Board would have the discretion to phase in this policy for the next CEO transition, implemented so it does not violate any existing agreement. If the Board determines that a Chair who was independent when selected is no longer independent, the Board shall select a new Chair who satisfies the requirements of the policy within a reasonable amount of time. Compliance with this policy is waived if no independent director is available and willing to serve as Chair. This proposal requests that all the necessary steps be taken to accomplish the above.

Caterpillar reversed itself by naming an independent board chairman in October 2016 after Caterpillar opposed a shareholder proposal for an independent board chairman at its June 2016 annual meeting. Wells Fargo also reversed itself and named an independent board chairman in October 2016.

According to Institutional Shareholder Services 53% of the Standard & Poors 1,500 firms separate these 2 positions—“2015 Board Practices,” April 12, 2015. This proposal topic won 50%-plus support at 5 major U.S. companies in 2013 including 73%-support at Netflix.

It is the responsibility of the Board of Directors to protect shareholders’ long-term interests by providing independent oversight of management. By setting agendas, priorities and procedures, the Chairman is critical in shaping the work of the Board.

A board of directors is less likely to provide rigorous independent oversight of management if the Chairman is also the CEO, as is the case with our Company. Having a board chairman who is independent of management is a practice that will promote greater management accountability to shareholders and lead to a more objective evaluation of management.

According to the Millstein Center for Corporate Governance and Performance (Yale School of Management), “The independent chair curbs conflicts of interest, promotes oversight of risk, manages the relationship between the board and CEO, serves as a conduit for regular communication with shareowners, and is a logical next step in the development of an independent board.”

A number of institutional investors said that a strong, objective board leader can best provide the necessary oversight of management. Thus, the California Public Employees’ Retirement System’s Global Principles of Accountable Corporate Governance recommends that a company’s board should be chaired by an independent director, as does the Council of Institutional Investors. An independent director serving as chairman can help ensure the functioning of an effective board.

Please vote to enhance shareholder value: Independent Board Chairman—Proposal 5

Board of Directors' Statement in Opposition to the Proposal

Your Board recommends a vote against this proposal because it believes that it is in the best interest of our shareholders for the Board to have the flexibility to determine the best person to serve as Board Chair, whether that person is an independent director or the CEO.

Every year, the Governance Committee reviews and makes a recommendation on the appropriate governance framework for Board leadership. The Committee takes into consideration governance best practices, the facts and circumstances of our Board and feedback that we receive from our shareholders. Specifically, our Board proactively asks for feedback from our shareholders and regularly meets with our shareholders in various settings. In 2016, independent directors, as well as the Company's Chief Governance Officer, engaged with many investors on the issue of our Board leadership structure, among other things, and have presented their feedback to the Board as part of its decision-making process on the appropriate Board leadership structure going forward.

The Governance Committee has most recently determined that Board leadership is provided through the combination of a unified Chair and CEO, a clearly defined and significant Lead Independent Director role, active and strong committee chairs, and independent-minded, skilled, engaged, diverse and committed directors.

Our Board believes that its current structure and governance allows it to provide effective oversight of management. Specifically, we have a strong Lead Independent Director with significant responsibilities that are described in detail in this Proxy Statement, including approval of all Board agendas and information sent to the Board, shareholder engagement, oversight of the annual Board evaluation process by an independent third party, Board refreshment and succession planning, and guiding the Board's overall governance processes. We also refer you to the Lead Independent Director's letter which is contained in this Proxy Statement, as well as the Lead Independent Director's video and Lead Independent Director Charter at www.prudential.com/governance. Mr. Krapek's skills, experience, commitment and the time he devotes to serve his role all make him well qualified to serve as our Lead Independent Director.

Our independent directors meet regularly in executive sessions, at the beginning and end of each Board meeting. These are chaired by our Lead Independent Director with no member of management present. Independent directors use these executive sessions to discuss matters of concern, as well as evaluations of the CEO and senior management, management and Board successions, matters to be included on Board agendas, and additional information the Board would like management to provide to them, as well as other relevant matters.

The Chairs and all members of the Board committees are strong, independent directors. These Chairs shape the agenda and information presented to their committees. Oversight of critical issues within these committees is owned by the independent directors.

All directors have full access to all members of management and all employees on a confidential basis.

The proposed policy would unduly impair the Board's flexibility to annually elect the individual it deems best suited to serve as Board Chair. Shareholders of Prudential are best served when the Board has the flexibility to elect the individual it deems best suited to serve as Board Chair at any particular time, depending on the circumstances. Our Board believes that a clearly defined and significant Lead Independent Director role, independent and strong committee chairs, experienced, diverse and committed directors, and frequent executive sessions provide a framework for effective direction and oversight by the Board.

THEREFORE, YOUR BOARD RECOMMENDS THAT YOU VOTE "AGAINST" THIS PROPOSAL.

Compliance With Section 16(a) of the Exchange Act

Each director, executive officer of the Company and greater than 10% beneficial owner of Common Stock is required to report to the SEC, by a specified date, his or her transactions involving our Common Stock. Based solely on a review of the copies of reports furnished to the Company and written representations that no other reports were required to be filed, the Company believes that during 2016 all reports required by Section 16(a) were timely filed.

Compensation of Directors

The Corporate Governance and Business Ethics Committee reviews the compensation of our non-employee directors periodically (generally every three years) and recommends changes to the Board, when it deems appropriate.

The following table describes the components of the non-employee directors' compensation for 2016:

Compensation Element	Director Compensation Program
Annual Cash Retainer	\$150,000, which may be deferred, at the director's option
Annual Equity Retainer	\$150,000 in restricted stock units that vest after one year (or, if earlier, on the date of the next Annual Meeting)
Board and Committee Fees	None
Chair Fee	\$35,000 for the Audit and Risk Committees \$30,000 for the Compensation Committee \$20,000 for all other committees*
Lead Independent Director Fee	\$50,000
Meeting Fee for members of the Company's Community Resources Oversight Committee**	\$1,250 per meeting
New Director Equity Award (one-time grant)	\$150,000 in restricted stock units that vest after one year
Stock Ownership Guideline	Ownership of Common Stock or deferred stock units that have a value equivalent to six times the annual cash retainer to be satisfied within six years of joining the Board***

* Includes any non-standing committee of the Board that may be established from time to time, but excluding the Executive Committee.

** This is a committee comprised of members of management and the Board. This Committee typically meets on a separate day following the Board and Board committee meetings. The non-employee directors on this Committee currently consist of Mr. Casellas, Ms. Pianalto and Ms. Poon. The Community Resources Oversight Committee met three times in 2016.

*** As of December 31, 2016, each of our non-employee directors satisfied this guideline, with the exception of Ms. Pianalto, who joined the Board in July 2015, and Messrs. Lighte, Paz and Todman, who joined the Board in March 2016, each of whom has six years to satisfy the guideline since he or she joined the Board. For purposes of the stock ownership guideline, once a non-employee director satisfies his or her stock ownership level, the director will be deemed to continue to satisfy the guideline without regard to fluctuation in the value of the Common Stock owned by the director.

The Company maintains a Deferred Compensation Plan for Non-Employee Directors (the "Plan"). Since 2011, 50% of the annual Board and committee retainer has been awarded in restricted stock units that vest after one year (or if earlier, on the date of the next Annual Meeting). A non-employee director can elect to invest the cash portion of his or her retainer, fees and equity retainer upon vesting in accounts under the Plan that replicate investments in either shares of our Common Stock or the Fixed Rate Fund, which accrues interest in the same manner as funds invested in the Fixed Rate Fund offered under the Prudential Employee Savings Plan ("PESP"). The Plan provides for distributions to commence upon termination of Board service or while a director remains on the Board.

Each director receives dividend equivalents on the restricted stock units contained in his or her deferral account under the Plan, which are equal in value to dividends paid on our Common Stock. The dividend equivalents credited to the account are then reinvested in the form of additional share units.

Under the director compensation program, if a non-employee director satisfies the stock ownership guideline, the restricted stock units granted as the annual equity retainer are payable upon vesting in cash or shares of our Common Stock (at the director's option), and may be deferred beyond vesting at the director's election. If a director does not satisfy the stock ownership guideline, the restricted stock units are automatically deferred until termination of Board service.

DIRECTOR STOCK OWNERSHIP GUIDELINE

Each director is expected, within six years of joining the Board, to own Common Stock or deferred stock units that have a value equivalent to six times his or her annual cash retainer.

(1) Represents amounts that are in units of our Common Stock. The amounts reported represent the aggregate grant date fair value of the restricted stock units granted during the fiscal year, as calculated under the Financial Accounting Standards Board's Accounting Codification Topic 718. Under ASC Topic 718, the grant date fair value is calculated using the closing market price of our Common Stock on the date of grant, which is then recognized, subject to market value changes, over the requisite service period of the award. As of December 31, 2016, the aggregate balance in each of the non-employee directors' accounts in the Deferred Compensation Plan denominated in units (which includes all deferrals from prior years) and the year-end values were as follows: Mr. Baltimore: 37,710 and \$3,924,103; Mr. Casellas: 29,744 and \$3,095,161; Mr. Cullen: 43,896 and \$4,567,818; Ms. Hund-Mejean: 15,505 and \$1,613,450; Mr. Krapek: 48,987 and \$5,097,587; Mr. Lighte : 4,180 and \$434,971; Mr. Paz: 4,177 and \$434,659; Ms. Pianalto: 3,765 and \$391,786; Ms. Poon: 13,411 and \$1,395,549; Mr. Scovanner 11,559 and \$1,202,830; and Mr. Todman: 4,180 and \$434,971.

(2) Represents amounts for 2016 matching charitable contributions; and with respect to Ms. Horner, includes a \$25,000 donation in her honor for her service on the Company's Community Resources Oversight Committee.

(3) Messrs. Lighte, Paz, and Todman each received grants of restricted stock units valued at \$150,000 upon joining the Board in March 2016.

Compensation Discussion and Analysis

In this section, we describe the material components of our executive compensation program for our NEOs, whose compensation is set forth in the 2016 Summary Compensation Table and other compensation tables contained in this Proxy Statement:

NAMED EXECUTIVE OFFICERS (NEOs)

- **John R. Strangfeld**, our Chairman and Chief Executive Officer;
- **Robert M. Falzon**, our Executive Vice President and Chief Financial Officer;
- **Mark B. Grier**, our Vice Chairman;
- **Charles F. Lowrey**, our Executive Vice President and Chief Operating Officer, International Businesses; and
- **Stephen Pelletier**, our Executive Vice President and Chief Operating Officer, U.S. Businesses.

We also provide an overview of our executive compensation philosophy and our executive compensation program. In addition, we explain how and why the Compensation Committee of our Board (the "Committee") arrived at the specific compensation decisions involving the NEOs for 2016.

Executive Summary

Business Highlights

OUR BUSINESS

We are a global financial services business with \$1.264 trillion of assets under management as of December 31, 2016, and with operations in the United States, Asia, Europe, and Latin America. Through our subsidiaries and affiliates, we offer a wide array of financial products and services, including life insurance, annuities, retirement-related services, mutual funds, and investment management. For more information about our business, please see "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K filed with the SEC on February 17, 2017.

2016 BUSINESS HIGHLIGHTS

In 2016, global market conditions and uncertainty continued to be factors in the markets in which we operate. Throughout this period, as a result of our steady leadership, we continued to seize opportunities and further differentiate ourselves from the competition. We view 2016 as a successful year for the Company. We continued our focus on capital deployment, disciplined risk management, a balanced business mix and effective execution of our individual business strategies. Consequently, we were able to deliver solid results in a challenging environment of continued low interest rates and far-reaching regulation of the financial services industry.

We achieved the following accomplishments in 2016:

We reported net income of \$4.37 billion, or \$9.71 per share of Common Stock in 2016, compared to \$5.64 billion, or \$12.17 per share, in 2015, based on U.S. generally accepted accounting principles ("GAAP"). Net income for 2015 included a greater benefit from gains driven by market impacts including interest rates than in 2016.

We reported after-tax adjusted operating income of \$4.11 billion, or \$9.13 per share of Common Stock in 2016, compared to \$4.65 billion or \$10.04 per share, in 2015.⁽¹⁾ 2016 after-tax adjusted operating income was negatively affected by actuarial assumption updates, compared to a positive impact in 2015.

(1) Consolidated adjusted operating income ("AOI") and operating return on average equity are non-GAAP measures of financial performance. Adjusted book value is a non-GAAP measure of financial position. We use earnings per share ("EPS") based on AOI, operating return on average equity, and adjusted book value as performance measures in our incentive compensation programs. For a discussion of these measures and for reconciliations to the nearest comparable GAAP measures, see Appendix A to this Proxy Statement.

Table of Contents

We reported GAAP book value of \$104.91 per share of Common Stock as of December 31, 2016, compared to \$92.39 per share as of year-end 2015.

Adjusted book value amounted to \$78.95 per share of Common Stock as of December 31, 2016, compared to \$73.59 per share as of year-end 2015.⁽¹⁾

We reported return on average equity based on income from continuing operations of 8.8% for 2016, compared to 13.3% for 2015.

We reported operating return on average equity of 12% for 2016, compared to 14.5% for 2015 and to the long term target of 13% to 14% we had set in 2011.⁽¹⁾ Our 2016 return on equity reflects solid core performance from our businesses, partly offset by the impact of a number of inherently variable and episodic items including our annual actuarial review. Given the multi-year impact of very low interest rates in our two largest markets, the U.S. and Japan, and the short term impact of strategic investing in our businesses, we have moderated our ROE expectations to 12% to 13% over the near to intermediate term.

Assets under management reached \$1.264 trillion at December 31, 2016, an increase from \$1.184 trillion a year earlier.

We returned a total of \$3.2 billion of capital to shareholders in 2016, including \$2.0 billion through our share repurchase program and \$1.2 billion in the form of Common Stock dividends, compared to a total of \$2.1 billion of shareholder distributions in 2015.

⁽¹⁾ Consolidated adjusted operating income ("AOI") and operating return on average equity are non-GAAP measures of financial performance. Adjusted book value is a non-GAAP measure of financial position. We use earnings per share ("EPS") based on AOI, operating return on average equity, and adjusted book value as performance measures in our incentive compensation programs. For a discussion of these measures and for reconciliations to the nearest comparable GAAP measures, see Appendix A to this Proxy Statement.

Also, in 2016:

- We took actions to restructure our Individual Annuities business to reduce capital volatility and improve earnings and cash flow prospects.
- We expanded our leading position in the pension risk transfer market, including the completion of approximately \$5 billion of new funded cases.
- We completed the acquisition of a 40% stake in AFP Habitat, a leading provider of retirement services in Chile.
- We reduced total outstanding debt by \$1.6 billion.

We believe that maintaining robust capital and liquidity positions provides us with a protective cushion during difficult periods, as well as the ability to pursue new opportunities.

Executive Compensation Highlights

The Committee has instituted a number of changes to our executive compensation program over the last several years to align with evolving competitive and governance practices, respond to feedback from our shareholders and strengthen the link to performance and rigor of our program. These changes have included:

- Strengthening the rigor of our Annual Incentive Program by setting target and maximum awards for senior executives, including the NEOs.
- Requiring deferral of 30% of each NEO's annual incentive award into the Book Value Performance Program.
- Beginning in 2014, reducing the maximum performance share award from 150% to 125% of the target level.
- Increasing our CEO's stock ownership guideline from five to seven times base salary in 2015.
- Expanding the clawback policy for executive officers to cover all incentive-based awards, to address a material financial restatement or misconduct, and to require disclosure to shareholders of action taken with regard to compensation recovery following a material restatement or misconduct.
- Diversifying the performance metrics used to determine awards under our Annual Incentive Program and applying a greater weight to relative ROE performance versus peer companies as a factor under our Annual Incentive Program in 2016, and Performance Share Program in 2017.
- Excluding earnings from specified classes of non-coupon investments outside of a range of -10% to +10% of the earnings on these investments that are included in the Company's EPS guidance range.

As informed by our ongoing dialogue with our shareholders, and to more closely align with our value proposition to shareholders, this year, the Committee revised our Annual Incentive Program and Long-Term Incentive Program to further balance the financial metrics utilized by those programs between the Company's absolute performance and its relative performance versus peer companies. Specifically, the Committee modified the Annual Incentive Program to eliminate the relative performance modifier and base the primary driver in determining the amount of the annual incentive awards for our NEOs, the initial annual performance factor, on three equally weighted performance metrics, including one relative metric:

- EPS, on an AOI basis, compared to our EPS target range;
- EPS growth, on an AOI basis, from the prior year period; and
- Relative ROE as compared to the North American Life Insurance subset of our peer group.

The Committee also revised the Annual Incentive Program to reduce the volatility of outcomes under the plan, by modifying the performance scales and by limiting the contribution of earnings that may come from specified classes of non-coupon investments (e.g., private equity, hedge funds, real estate funds, equity securities, and other real estate investments). Based on our discussions with shareholders and feedback from our engagement efforts, the short-term fluctuations in earnings on these non-coupon investments were generally not viewed by our shareholders as being reflective of true operating performance. The performance of these non-coupon investments is fully reflected under the Book Value Performance Program, a key component of our Long-Term Incentive Program.

The use of a weighted relative ROE metric, in lieu of a relative performance modifier, provides simplicity and transparency of results under the Annual Incentive Program and more effectively balances absolute and relative performance (e.g., the weighting of the previous relative performance modifier was limited to 10%).

Similarly, the Committee eliminated the relative performance modifier from the Performance Shares Program under our Long-Term Incentive Program for awards granted in 2017. Instead, the program now uses a relative ROE measure over a three-year performance period compared to the median ROE performance of the North American Life Insurance subset of our peer group, along with absolute performance versus our long-term ROE target.

Total Direct Compensation Summary

(1) 30% of the Annual Incentive Awards were mandatorily deferred into the Book Value Performance Program.
 (2) Represents long-term awards granted in 2017 and 2016 for 2016 and 2015 performance, respectively.

Consistent with our compensation philosophy, approximately 92% of our CEO's total direct compensation for 2016 was performance-based.

(1) Performance-based compensation
 (2) Includes mandatory deferral of 30% of annual incentive
 (3) Based on average amounts

WHAT WE DO	WHAT WE DON'T DO
☑ Establish target and maximum awards in our Annual Incentive Program. ☑ Apply a formulaic framework based on the Company's financial results relative to pre-established targets for each incentive program. ☑ Exercise limited or no discretion to increase formulaic incentive compensation awards. ☑ Use balanced performance metrics for annual incentive and performance share/unit awards that factor both the Company's absolute performance and its relative performance versus peers ☑ Rigorous goal setting aligned to our externally disclosed annual and multi-year financial targets. ☑ 90% or more of our NEOs' total direct compensation is performance based. ☑ Defer 30% of our NEOs' annual incentive awards into the Book Value Performance Program. ☑ Impose stock ownership requirements, and retention of 50% of equity based awards. ☑ Maintain an enhanced clawback policy covering all executive officer incentive-based awards for material financial restatements and misconduct. ☑ Limit perquisites to items that serve a reasonable business purpose. ☑ Closely monitor risks associated with our executive compensation program and individual compensation decisions to ensure they do not encourage excessive risk taking.	☒ CEO participation in our severance plan. ☒ Executive officer severance payments and benefits exceeding 2.99 times salary and cash bonus without shareholder approval. ☒ Excise tax "gross-ups" upon change in control. ☒ Discounting, reloading or re-pricing of stock options without shareholder approval. ☒ "Single-trigger" vesting of equity-based awards upon change in control. ☒ Multi-year guaranteed incentive awards for senior executives. ☒ Employment agreements with executive officers. ☒ Employee hedging or pledging of Company securities.

Consideration of Most Recent "Say on Pay" Vote

Following our 2016 Annual Meeting of Shareholders, the Committee reviewed the results of the shareholder advisory vote on executive compensation (the "Say on Pay" Vote) that was held at the meeting with respect to the 2015 compensation actions and decisions for Mr. Strangfeld and the other NEOs. Approximately 95% of the votes cast on the proposal were voted in support of the compensation of our NEOs.

[Table of Contents](#)

Based on the results of the “Say on Pay” vote, as well as our ongoing dialogue with our shareholders, the Committee and our Board concluded that, even though our overall executive compensation policies and practices enjoy favorable shareholder support, it was appropriate to make certain changes to our Annual Incentive Program and Long-Term Incentive Program to further balance the metrics utilized in those programs between the Company’s absolute performance and its performance relative to our peer companies. The Committee modified the Annual Incentive Program so that the primary driver in determining the amount of the annual incentive awards for our NEOs, the initial annual performance factor, is based on three equally weighted performance metrics:

- EPS, on an AOI basis, assessed relative to our EPS target range;
- EPS growth, on an AOI basis, from the prior year period; and
- Relative ROE as compared to the North American Life Insurance subset of our peer group.

The Committee also made other changes to the design of the Annual Incentive and Long-Term Incentive Programs, including:

- reducing the volatility of outcomes under the Annual Incentive Program and providing symmetry of outcomes with respect to EPS results above and below our publicly disclosed EPS target range;
- excluding earnings from specified classes of non-coupon investments outside of a range of -10% to +10% of the earnings on these investments that are included in the Company’s EPS guidance range; and
- strengthening the relative performance metric under our Performance Shares Program, by replacing the use of a relative performance modifier, which modified results by +/-10%, with the use of Relative ROE, weighted at 50%, which compares Prudential’s ROE performance to that of the North American Life Insurance subset of our peer group.

Opportunity for Shareholder Feedback

The Committee carefully considers feedback from our shareholders regarding our executive compensation program. Shareholders are invited to express their views to the Committee as described under “Communication with Directors” in this Proxy Statement. In addition, the advisory vote on the compensation of the NEOs provides shareholders with an opportunity to communicate their views on our executive compensation program.

You should read this CD&A in conjunction with the advisory vote that we are conducting on the compensation of the NEOs (see “Item 3—Advisory Vote to Approve Named Executive Officer Compensation”). This CD&A, as well as the accompanying compensation tables, contains information that is relevant to your voting decision.

Philosophy and Objectives of Our Executive Compensation Program

The philosophy underlying our executive compensation program is to provide an attractive, flexible, and market-based total compensation program tied to performance and aligned with the interests of our shareholders. Our objective is to recruit and retain the caliber of executive officers and other key employees necessary to deliver sustained high performance to our shareholders, customers, and communities where we have a strong presence. Our executive compensation program is an important component of these overall human resources policies. Equally important, we view compensation practices as a means for communicating our goals and standards of conduct and performance and for motivating and rewarding employees in relation to their achievements.

Overall, the same principles that govern the compensation of all our salaried employees apply to the compensation of our executive officers. Within this framework, we observe the following principles:

- **Retain and hire top-caliber executives:** Executive officers should have base salaries and employee benefits that are market competitive and that permit us to hire and retain high-caliber individuals at all levels;
- **Pay for performance:** A significant portion of the annual compensation of our executive officers should vary with annual business performance and each individual's contribution to that performance;
- **Reward long-term growth and profitability:** Executive officers should be rewarded for achieving long-term results;
- **Tie compensation to business performance:** A significant portion of our executive officers' compensation should be tied to measures of performance of our businesses;
- **Align compensation with shareholder interests:** The interests of our executive officers should be linked with those of our shareholders through the risks and rewards of the ownership of our Common Stock; and
- **Reinforce succession planning process:** The overall compensation program for our executive officers should reinforce our robust succession planning process.

2016 Incentive Programs

To ensure a strong link between our incentive compensation opportunities and our short-term and longer term objectives, we use two specific programs: our Annual Incentive Program and our Long-Term Incentive Program.

- **Annual Incentive Program.** The Annual Incentive Program is designed to reward strong financial and operational performance that furthers our short-term strategic objectives. Financial performance is primarily determined based on three equally-weighted performance metrics: (i) EPS achievement relative to our externally disclosed EPS targets; (ii) year-over-year growth in EPS; and (iii) relative ROE as compared to a peer group.
- **Long-Term Incentive Program.** Our Long-Term Incentive Program consists of three parts that incent long-term value creation: performance shares and units that reward the achievement of our long-term ROE goals and increases in the market value of our Common Stock; book value units that reward increases in book value per share; and stock options that reward increases in the market value of our Common Stock.

ANNUAL COMPENSATION-RELATED RISK EVALUATION

We monitor the risks associated with our executive compensation program, as well as the components of our program and individual compensation decisions, on an ongoing basis. In January 2017, the Committee was presented with the results of a study reviewing our compensation programs, including our executive compensation program, to assess the risks arising from our compensation policies and practices. The Committee agreed with the study's findings that these risks were within our ability to effectively monitor and manage and that these compensation programs do not encourage unnecessary or excessive risk-taking and do not create risks that are reasonably likely to have a material adverse effect on the Company.

How We Make Compensation Decisions

Role of the Compensation Committee

The Committee is responsible to our Board for overseeing the development and administration of our compensation and benefits policies and programs. The Committee, which consists of three independent directors, is responsible for the review and approval of all aspects of our executive compensation program. Among its duties, the Committee is responsible for formulating the compensation recommendations for our CEO and approving all compensation recommendations for our officers at the senior vice president level and above, including:

- annual review and approval of incentive program design, goals and objectives for alignment with compensation and business strategies;
- evaluation of individual performance results in light of these goals and objectives;
- evaluation of the competitiveness of each executive officer's total compensation package; and
- approval of any changes to the total compensation package, including, but not limited to, base salary, annual and long-term incentive award opportunities, payouts, and retention programs.

Following review and discussion, the Committee submits its recommendations for compensation for these executive officers to the independent members of our Board for approval.

The Committee is supported in its work by the head of the Human Resources Department, her staff, and the Committee's executive Compensation Consultant, as described below.

The Committee's charter, which sets out its duties and responsibilities and addresses other matters, can be found on our website at www.prudential.com/governance.

Role of the Chief Executive Officer

Within the framework of the compensation programs approved by the Committee and based on management's review of market competitive positions, each year our CEO recommends the level of base salary increase (if any), the annual incentive award, and the long-term incentive award value for our officers at the senior vice president level and above, including the other NEOs. These recommendations are based upon his assessment of each executive officer's performance, the performance of the individual's respective business or function, and retention considerations. The Committee reviews our CEO's recommendations and approves any compensation changes affecting our executive officers as it determines in its sole discretion.

Our CEO does not play any role with respect to any matter affecting his own compensation, and is not present when the Committee discusses and formulates his compensation recommendation.

Role of the Compensation Consultant

The Committee has retained Frederic W. Cook & Co., Inc. as its executive Compensation Consultant. The Compensation Consultant reports directly to the Committee and the Committee may replace the Compensation Consultant or hire additional consultants at any time. A representative of the Compensation Consultant attends meetings of the Committee, as requested, and communicates with the Committee Chair between meetings.

The Compensation Consultant provides various executive compensation services to the Committee pursuant to a written consulting agreement with the Committee. Generally, these services include advising the Committee on the principal aspects of our executive compensation program and evolving industry practices and providing market information and analysis regarding the competitiveness of our program design and our award values in relationship to their performance.

During 2016, the Compensation Consultant performed the following specific services:

- Provided a presentation on executive compensation trends and external developments.
- Provided an annual competitive evaluation of total compensation for the NEOs, as well as overall compensation program share usage, dilution, and fair value expense.
- Provided recommendations on CEO total direct compensation to the Committee at its February meeting, without prior review by our CEO.
- Reviewed with our CEO his compensation recommendations with respect to the other NEOs.

- Reviewed Committee agendas and supporting materials in advance of each meeting, and raised questions/issues with management and the Committee Chair, as appropriate.
 - Provided advice on changes to the performance metrics under the Annual Incentive Program and the Long-Term Incentive Program.
- Reviewed drafts and commented on the CD&A and related compensation tables for the Proxy Statement.
 - Reviewed the peer group used for competitive analyses.
 - Attended Committee meetings when requested by the Committee Chair.

The Compensation Consultant provided no services to management during 2016.

The Committee retains sole authority to hire the Compensation Consultant, approve its compensation, determine the nature and scope of its services, evaluate its performance, and terminate its engagement.

The total amount of fees paid to the Compensation Consultant for services to the Committee in 2016 was \$175,723. The Compensation Consultant received no other fees or compensation from us, except for \$3,400 to participate in a general industry survey of long-term compensation. The Compensation Committee has assessed the independence of the Compensation Consultant pursuant to the listing standards of The New York Stock Exchange and SEC rules and concluded that no conflict of interest exists that would prevent the Compensation Consultant from serving as an independent consultant to the Compensation Committee.

Compensation Peer Group

The Committee uses compensation data compiled from a group of peer companies in the insurance, asset management, and other diversified financial services industries generally selected from the Standard & Poor’s 500 Financials Index (the “Peer Group”). The Committee periodically reviews and updates the Peer Group, as necessary, upon recommendation of the Compensation Consultant. We believe the Peer Group represents the industries with which we currently compete for executive talent, and also includes our principal business competitors.

Although included within the broad financial services sector, we exclude from the Peer Group companies such as property and casualty insurers and investment banking firms that predominantly offer different products, have substantially different business models and with whom we have less direct competition for executive talent.

For 2016, the Peer Group consisted of the following 20 companies:

North American Life Insurance Companies	Consumer Finance Companies	Asset Management and Custody Banks	Diversified Banks
- AFLAC, Incorporated - Lincoln National - Manulife Financial Corporation - MetLife, Inc. - Principal Financial Group - Sun Life Financial Inc.	- American Express Company - Capital One Financial Corporation	- Ameriprise Financial, Inc. - The Bank of New York Mellon Corporation - BlackRock, Inc. - Franklin Resources, Inc. - Northern Trust Corporation - State Street Corporation	- Bank of America Corporation - Citigroup Inc. - JPMorgan Chase & Co. - PNC Financial Services Group, Inc. - U.S. Bancorp - Wells Fargo & Company

Use of Competitive Data

We compete in several different businesses, most of which are involved in helping individuals and institutions grow and protect their assets. These businesses draw their key employees from different segments of the marketplace. Our executive compensation program is designed with the flexibility to be competitive and motivational within the various marketplaces in which we compete for executive talent, while being subject to centralized design, approval, and control.

The Committee relies on various sources of compensation information to ascertain the competitive market for our executive officers, including the NEOs.

To assess the competitiveness of our executive compensation program, we analyze Peer Group compensation data obtained from peer company proxy materials as well as compensation and benefits survey data provided by national compensation consulting firms, such as Willis Towers Watson, McLagan Partners, and Mercer. As part of this process, we measure actual pay levels within each compensation component and in the aggregate. We also review the mix of our compensation components with respect to fixed versus variable, short term versus long term, and cash versus equity-based pay. This information is then presented to the Committee for its review and use.

The Committee generally compares the compensation of each NEO in relation to both the 50th and the 75th percentiles of the Peer Group for similar positions, as we are significantly above the median of the Peer Group in terms of size. In addition, the Committee takes into account various factors such as our performance within the Peer Group, the unique characteristics of the individual's position, and any succession and retention considerations. In general, compensation levels for an executive officer who is new to a position tend to be at the lower end of the competitive range, while seasoned executive officers with strong performance who are viewed as critical to retain would be positioned at the higher end of the competitive range.

Generally, differences in the levels of total direct compensation among the NEOs are primarily driven by the scope of their responsibilities, market data for similar positions, and considerations of internal equity.

Components of Our Executive Compensation Program

The principal components of our executive compensation program, purpose, key characteristic and type of performance measured (if applicable) are presented in the following table. We measure the program's competitiveness both by comparing relevant market data with the target and actual amounts paid at each executive officer position as well as by salary grades, which are composed of many positions that we consider to have similar responsibilities.

Total Direct Compensation

Compensation Component	Purpose	Key Characteristic	Performance Measured
Base Salary	Compensate executive officers fairly for the responsibility of the position held	Fixed	Individual
Annual Incentive Awards	- Motivate and reward executive officers for achieving our short-term business objectives - Provide balance by rewarding performance relative to our peer group	Variable	Corporate and Individual
Long-Term Incentive Awards	- Motivate executive officers by linking incentives to the achievement of our multi-year financial goals, our relative performance, and the performance of our Common Stock and book value over the long term - Reinforce the link between the interests of our executive officers and shareholders	Variable	Corporate

Other Forms of Compensation

Compensation Component	Purpose	Key Characteristic
Health & Welfare, and Retirement Plans	Provide benefits that promote employee health and support employees in attaining financial security	Fixed
Perquisites and Other Personal Benefits	Provide a business-related benefit to our Company, and to assist in attracting and retaining executives	Fixed
Post-Employment Compensation	Provide temporary income following an executive's involuntary termination of employment, and in the case of a change of control, to also provide continuity of management	Fixed

The following discussion contains information regarding certain performance measures and goals. These measures and goals are disclosed in the limited context of our executive compensation program. Shareholders should not apply these performance measures and goals to other contexts.

FORMULAIC FRAMEWORK FOR INCENTIVE PROGRAMS

Awards under each of our incentive programs are funded at the level determined by our financial results relative to pre-established targets and performance relative to peer companies under formulas for each incentive program. The Board believes it generally should exercise limited or no discretion to increase our NEOs' formula-based awards. For the annual incentive program, the formula uses three equally-weighted performance metrics: (i) EPS results relative to our externally disclosed EPS targets; (ii) year-over-year growth in EPS; and (iii) relative ROE as compared to the North American Life Insurance subset of our peer group. Similarly, under our performance shares program beginning with awards made in 2017, payments will be determined based on our average ROE results over the three-year performance period, as compared to both a performance scale set at the start of the period and the ROE results of the North American Life Insurance subset of our peer group over that period. The Book Value Performance Program tracks our adjusted book value per share, which excludes the impact on attributed equity of accumulated other comprehensive income and of foreign currency exchange rate remeasurement included in net income or loss, as described in Appendix A to this Proxy Statement.

To accurately reflect the operating performance of our business, the Committee has approved a pre-determined framework of adjustments to our reported financial results for incentive program purposes. Generally, these adjustments exclude one-time or unusual items and external factors that are inconsistent with the assumptions reflected in our financial plans. The standard adjustments to reported EPS under our formulaic framework may vary from year to year and may have either a favorable or unfavorable impact on the funding of the Annual Incentive Award Pool.

Standard adjustments to reported financial results are made:

- to exclude the impact of market unlockings in our individual annuities business (including, for 2016, adjustments to reflect updated estimates of profitability based on market performance in relation to our assumptions);
- to exclude the impact of changes in our assumptions for investment returns, actuarial experience, and customer behavioral expectations (mortality, morbidity, lapse, and similar factors and reserve refinements);
- to exclude integration costs associated with merger and acquisition activity (none in 2016);
- for accounting changes not included in our annual operating plan (none in 2016);
- to exclude earnings from specified classes of non-coupon investments outside of a range of -10% to +10% of the earnings on these investments that are included in the Company's EPS guidance range (for 2016, this did not result in an adjustment); and
- for other items not considered representative of the results of operations for the period or not included in guidance, as approved by the Committee (for 2016, we excluded the benefit from a lower income tax rate in Japan, adopted subsequent to the issuance of 2016 guidance; we also excluded certain costs related to Company-wide initiative spending and the one-time cost of the early extinguishment of debt in 2016).

Direct Compensation Components

Annually, the Compensation Committee reviews the competitive analysis of total direct compensation for the NEOs. Based on this evaluation, the Committee may selectively adjust the base salary, annual incentive target, and long-term target amounts of the NEOs. In determining any adjustments, the Committee takes into account the following factors: level of experience and impact in the role; changes in market data; and compensation positioning overall and by component. Executives new to their current roles are positioned towards the lower end of their competitive range while executives with more experience are generally positioned at the higher end of the range.

BASE SALARY

Base salary is the principal fixed component of the total direct compensation of our executive officers, including the NEOs, and is determined by considering the relative importance of the position, the competitive marketplace, and the individual's performance and contributions. Base salaries are reviewed annually and, typically, are increased infrequently and then mostly at the time of a change in position or assumption of new responsibilities.

SALARY DECISIONS

None of the NEOs received an increase to base salary for the 2016 performance year.

Annual Incentive Awards

At least once a year, the Committee reviews the Annual Incentive Program and makes changes as needed. The Committee approved the 2016 Annual Incentive Program for our most senior executives, including the NEOs, on the following terms and conditions.

TARGET AWARD OPPORTUNITIES

The Compensation Committee established target and maximum annual incentive award opportunities for each NEO in 2012. No adjustments had been made to these award opportunities for NEOs who have held the same role since 2012, namely our Chief Executive Officer and Vice Chairman. Consequently, the positioning of target total direct compensation (*i.e.*, base salary, target annual incentive and target long-term incentive) relative to counterparts at companies in the compensation peer group had decreased since last calibrated in 2012. To address this decrease, the Committee increased Mr. Strangfeld's annual incentive target from \$5.6 million to \$6 million and Mr. Grier's target from \$4.8 million to \$5.1 million in 2016.

Considering their compensation positioning and greater level of experience and impact, the Committee also adjusted Mr. Falzon's annual incentive target from \$2.45 million to \$3 million and Mr. Pelletier's target from \$3 million to \$4 million in 2016.

The specific target and maximum annual incentive award opportunities for each NEO for 2016 were as follows:

Named Executive Officers	Target Annual Incentive Award Opportunity	Maximum Annual Incentive Award Opportunity
John R. Strangfeld	\$ 6,000,000	\$ 12,000,000
Robert M. Falzon	\$ 3,000,000	\$ 6,000,000
Mark B. Grier	\$ 5,100,000	\$ 10,200,000
Charles F. Lowrey	\$ 4,000,000	\$ 8,000,000
Stephen Pelletier	\$ 4,000,000	\$ 8,000,000

Each year, the Committee establishes an annual performance factor that is the primary driver in determining the amount of the annual incentive awards for our NEOs.

For 2016, we used the following process to determine this Performance Factor:

Step 1. Established Initial Performance Factor.

Consistent with the formulaic framework for our annual incentive award program, the Committee established an Initial Performance Factor based on the following three financial metrics, giving equal weight to each (*i.e.*, each metric is weighted one-third):

- EPS for 2016, on an AOI basis, assessed relative to our EPS target range (the "EPS Target Factor");
- Growth in EPS, on an AOI basis, for 2016 as compared to 2015 (the "EPS Growth Factor"); and

- ROE for 2016 as compared to the median ROE for 2016 achieved by the North American Life Insurance subset of the Peer Group (the "Relative ROE Factor").

The Initial Performance Factor was applied to the target annual incentive award for each NEO to determine their annual incentive funding. For purposes of the 2016 Annual Incentive Program, EPS and ROE were calculated as follows:

- EPS is Earnings Per Share of Common Stock (diluted), based on after-tax adjusted operating income ("AOI").
- ROE is determined using after-tax AOI divided by adjusted book value, and for our peer companies is determined based on the comparable financial metric from each peer company's quarterly financial reports, in each case, based on a rolling quarterly average for the four quarters ended September 30, 2016.

For more information regarding our 2016 annual measures of EPS, AOI, ROE, and adjusted book value, see Appendix A to this Proxy Statement.

We applied our pre-set formulaic framework to our January 2017 estimate of our 2016 reported AOI, EPS, and ROE.

Standard Adjustments

We make standard adjustments to estimated AOI, EPS, and ROE under our formulaic framework that may vary from year to year and may have either a favorable or unfavorable impact on the funding of the Annual Incentive Award Pool. For 2016, these standard adjustments resulted in the following changes to EPS:

EPS (January Estimate)	\$ 9.16
Market Unlockings	-0.14
Actuarial Assumptions	+0.64
Other Items	+0.07
EPS (Annual Incentive Program)	\$ 9.73

The market unlockings adjusted our reported results for our Individual Annuities business to exclude the impact of actual equity market performance relative to our plan assumption. The adjustment for 2016 market unlockings reduced EPS under the annual incentive program by approximately \$0.14.

Annually, based on Company-specific data, industry data, and the current long-term economic outlook, we update our assumptions on long-term market returns (equity and fixed income) and customer behavioral expectations (*e.g.*, mortality, morbidity, and lapses). These updates and related refinements result in a cumulative revaluation of our reserves and the carrying values of our deferred acquisition costs. While GAAP requires these updates to be reported in the current period, they are not representative of annual performance since they relate to outcomes in both prior and future years. For these reasons, they are excluded from EPS under the annual incentive program (regardless of whether they are positive or negative). In 2016, the adjustments to account for these updates had a positive EPS impact of approximately \$0.64.

Other items not considered representative of operating results or included in our 2016 EPS guidance range are also excluded from EPS under the program. In 2016, these excluded items included certain costs related to Company-wide initiative spending and the benefit from a lower income tax rate in Japan adopted subsequent to the issuance of 2016 guidance. These adjustments contributed approximately \$0.07 in 2016 EPS under the program.

These standard adjustments under our pre-set formulaic framework had a net positive effect of \$0.57 to EPS under the annual incentive program.

EPS Target Factor

The following table depicts the EPS scale target range for 2016. This target range is aligned to our publicly disclosed EPS guidance range. Our adjusted EPS for 2016 of \$9.73 per share of Common Stock corresponded to an EPS Target Factor of 0.947.

	2016 EPS ⁽¹⁾	EPS Target Factor ⁽²⁾
	\$7.00 or below	0.50
	\$9.75	0.95
Target Range	\$10.00	1.00
	\$10.25	1.05
	\$13.00 or above	1.50

(1) Determined on an AOI basis, subject to certain adjustments.

(2) The EPS Target Factor is interpolated on a straight-line basis between the EPS data points.

EPS Growth Factor

Our adjusted EPS for 2016 was \$9.73 per share of Common Stock, a decrease of \$0.08 per share from our adjusted EPS of \$9.81⁽¹⁾ for 2015. This corresponds to an EPS Growth Factor of 0.992.

(1) EPS for 2015 was increased by \$0.06 to exclude earnings from specified classes of non-coupon investments outside of a range of -10% to +10% of the earnings on these investments that are included in the Company's EPS guidance range.

Relative ROE Factor

Our adjusted ROE for 2016 was 12.5%, which is 0.6 percentage points higher than the median 2016 ROE for the North American Life Insurance subset of the Peer Group. This corresponds to a Relative ROE Factor of 1.05 based on the scale depicted below.

ROE +/- Peer Median ⁽¹⁾	Relative ROE Factor ⁽²⁾
3%	1.25
2%	1.17
1%	1.08
0%	1.00
-1%	0.92
-2%	0.83
-3%	0.75

(1) Determined on an AOI basis, subject to certain adjustments as discussed above.

(2) The Relative ROE Factor is interpolated on a straight-line basis between the ROE +/- Peer Median data points.

Step 2. Determined Final Performance Factor.

Weighting each of the EPS Target Factor (0.947), the EPS Growth Factor (0.992), and the Relative ROE Factor (1.05) by one-third, we arrived at an Initial Performance Factor of 0.996.

Once the Initial Performance Factor is determined, the Board believes it generally should not exercise meaningful discretion to increase the Performance Factor for strategic or other considerations. For the last three years, the Committee did not make any discretionary adjustments based on these considerations.

Based on the foregoing, the Final Performance Factor for 2016 was determined to be 0.996. This factor was then applied to the target award opportunities of each NEO to determine their annual incentive awards, with minor adjustments primarily due to rounding.

The following table summarizes the calculation of the Final Performance Factor.

Summary of 2016 Performance Factor Mechanics

Step 1: Establish EPS Target Factor	
2016 EPS (on AOI basis)	\$ 9.16
Standard adjustments	\$ 0.57
EPS under Annual Incentive Program	\$ 9.73
EPS of \$9.73 translates to an EPS Target Factor of	0.947 ⁽¹⁾
Step 2: Establish EPS Growth Factor	
2016 EPS (on AOI basis)	\$ 9.16
Standard adjustments	\$ 0.57
EPS under Annual Incentive Program	\$ 9.73
2015 EPS under Annual Incentive Program	\$ 9.81 ⁽²⁾
EPS Growth under Annual Incentive Program	(\$ 0.08)
EPS Growth of (\$0.08) translates to an EPS Growth Factor of	0.992
Step 3: Establish Relative ROE Factor	
2016 ROE Performance	12.5%
2016 Peer Median ROE Performance	11.9%
ROE performance as compared to median ROE performance for life insurer peers	0.6% ⁽¹⁾
Favorable ROE of 0.6% translates to a Relative ROE Factor of	1.05
Step 4: Determine Final Performance Factor	
EPS Target Factor times 1/3	0.316
EPS Growth Factor times 1/3	0.330
Relative ROE Factor times 1/3	0.350
Initial Performance Factor	0.996
Discretionary Adjustments made by Committee for 2016	None
Final Performance Factor	0.996

(1) Based on interpolation on the scales above.

(2) EPS for 2015 was increased by \$0.06 to exclude earnings from specified classes of non-coupon investments outside of a range of -10% to +10% of the earnings on these investments that are included in the Company's EPS guidance range.

Annual Incentive Award Decisions for 2016

The principal driver of the actual annual incentive awards for the NEOs is the Final Performance Factor. The Committee also considers individual performance and contributions in determining final awards.

At the beginning of 2016, our CEO met with each of the other NEOs to outline and discuss with them the key financial factors for determining awards under our annual incentive program and their expected contributions to that performance.

Mr. Strangfeld

ANNUAL INCENTIVE AWARD DECISION

Based on the Final Performance Factor and the Committee's evaluation of his performance, in February 2017, the Committee recommended, and the independent members of our Board approved, an annual incentive award of \$5,976,000 for Mr. Strangfeld for 2016, or approximately 0.996 times his target award amount. This award compares to an annual incentive award of \$5,915,000 for 2015, representing an increase of 1.0%. Of the \$5,976,000, \$1,792,800 was mandatorily deferred into the Book Value Performance Program.

KEY PERFORMANCE ACHIEVEMENTS

In assessing the individual performance of Mr. Strangfeld, our CEO, the Committee, and the independent members of our Board, considered the evaluation of his performance that was conducted by the Lead Independent Director of our Board and the Committee Chair. This evaluation identified and examined a broad range of corporate and individual performance factors, including:

- After-tax AOI of \$4.11 billion, and EPS, based on after-tax AOI, of \$9.13 in 2016;
- Operating return on average equity of 12% for 2016, with solid core performance from our businesses partly offset by the impact of a number of inherently variable and episodic items including our annual actuarial review;
- Growth in adjusted book value per share of our Common Stock, to \$78.95 at December 31, 2016 versus \$73.59 per share at December 31, 2015, an increase of \$5.36, or 7%, after payment of four quarterly dividends totaling \$2.80 per share;
- International Division's 8% increase in constant dollar sales⁽¹⁾ in 2016 versus 2015;
- Retirement account values of \$386 billion at December 31, 2016, up 5% from a year earlier;
- Asset Management's assets under management of \$1.04 trillion at December 31, 2016, up 8% from a year earlier;
- Individual Life's 7% increase in sales in 2016 versus 2015;
- Group Insurance pre-tax adjusted operating income of \$220 million for 2016, up 25% from 2015;
- Completed the acquisition of a 40% stake in AFP Habitat, a leading provider of retirement services in Chile;
- Took actions to restructure the Individual Annuities business to reduce capital volatility and improve earnings and cash flow prospects;
- Returned \$3.2 billion of capital to shareholders, including \$2.0 billion through our share repurchase program and \$1.2 billion in the form of Common Stock dividends, compared to a total of \$2.1 billion of shareholder distributions in 2015. The Company has one of the highest dividend yields among its peers and targets the allocation of 60% of earnings over time towards capital distributions and accretive actions;
- Meaningful progress in our short-term and long-term leadership, talent, and succession planning priorities;
- Introduction of new products and rebalancing of product mix in order to adapt to changing market conditions, diversify risks and maintain appropriate returns;
- The Company's ongoing constructive engagement with the Federal Reserve, international regulators, and other supervisory bodies; and
- Despite a challenging interest rate environment, the Company's share price increased 28% and TSR is 33% over the last year versus a 10% increase in the Standard & Poor's 500.
- The Company's one-year TSR placed it in the 84th percentile relative to the 20 companies in its compensation peer group.

⁽¹⁾ As used throughout, sales are based on annualized new business premiums.

OTHER NEOs

In the case of the other NEOs, Mr. Strangfeld formulated recommendations for each individual based on the Final Performance Factor and his assessment of their performance, and presented these recommendations to the Committee for its consideration. Based on the Final Performance Factor, as well as these recommendations and its own evaluation of their performance, the Committee recommended, and the independent members of our Board approved, the following annual incentive awards for each of the other NEOs:

Mr. Falzon

2016 COMPENSATION MIX

92% of compensation is performance based.

ANNUAL INCENTIVE AWARD DECISION

Consistent with the Final Performance Factor, Mr. Falzon's annual incentive award was \$2,990,000 or approximately 0.997 times his target award amount. This award compares to an annual incentive award of \$2,600,000 for 2015, representing an increase of 15.0%. Of the \$2,990,000, \$897,000 was mandatorily deferred into the Book Value Performance Program.

KEY PERFORMANCE ACHIEVEMENTS

In assessing the individual performance of Mr. Falzon, the Committee identified and examined a broad range of corporate and individual performance factors, including:

- After-tax AOI of \$4.11 billion and EPS, based on after-tax AOI, of \$9.13 in 2016;
- Operating return on average equity of 12% for 2016, with solid core performance from our businesses partly offset by the impact of a number of inherently variable and episodic items including our annual actuarial review;
- His acumen in capital management and cash flow planning, including the return of \$3.2 billion to shareholders during 2016, through our share repurchase program and Common Stock dividends, representing over a 50% increase from 2015;
- His leadership on initiatives to reduce the Company's use of financial leverage, resulting in a reduction of total debt outstanding by \$1.6 billion in 2016;
- His effective oversight of our liquidity position, including the maintenance of \$4.5 billion* of cash and highly liquid assets at the parent company level at December 31, 2016;
- Includes cash, short-term investments, and U.S. Treasury fixed maturities; excludes cash held in an intra-company liquidity account at Prudential Financial, Inc., and outstanding commercial paper.
- His instrumental role in restructuring our Individual Annuities business, which resulted in the initial distribution of approximately \$1 billion to the parent company from the restructuring and a further distribution of approximately \$1 billion driven by earnings and is expected to reduce capital volatility and improve earnings and cash flow prospects;
- His key role in management of the statutory capital position of our insurance companies, resulting in a risk-based capital ratio of approximately 457% for Prudential Insurance, 867% for PALAC, and a composite risk-based capital ratio for our major U.S. insurance subsidiaries of 527%, as of December 31, 2016 and strong solvency margins at our international insurance subsidiaries as of that date;
- His effective supervision of internal financial and accounting functions; and
- His leadership in the Company's ongoing engagement with the Federal Reserve, international regulators and other supervisory bodies.

Mr. Grier

ANNUAL INCENTIVE AWARD DECISION

Consistent with the Final Performance Factor, Mr. Grier's incentive award was \$5,080,000 or approximately 0.996 times his target award amount. This award compares to an annual incentive award of \$5,100,000 for 2015, representing a decrease of 0.4%. Of the \$5,080,000, \$1,524,000 was mandatorily deferred into the Book Value Performance Program.

KEY PERFORMANCE ACHIEVEMENTS

In assessing the individual performance of Mr. Grier, the Committee identified and examined a broad range of corporate and individual performance factors, including:

- After-tax AOI of \$4.11 billion and EPS, based on after-tax AOI, of \$9.13 in 2016;
- Operating return on average equity of 12% for 2016, with solid core performance from our businesses partly offset by the impact of a number of inherently variable and episodic items including our annual actuarial review;
- His leadership in enhanced capital management, including the return of \$3.2 billion to shareholders during 2016, through our share repurchase program and Common Stock dividends, representing over a 50% increase from 2015. The Company has one of the highest dividend yields among its peers and targets the allocation of 60% of earnings towards capital distributions and accretive actions over time;
- His oversight of risk management, including oversight of the restructuring of our Individual Annuities business, including enhancements to the risk management strategies to reduce capital volatility and improve earnings and cash flow prospects;
- His acumen in capital deployment and business development, including a key role in the completion of our acquisition of a 40% stake in AFP Habitat, a leading provider of retirement services in Chile; and
- His successful service as our Company's and an industry spokesperson regarding the evolving regulatory initiatives affecting the insurance and financial services industries, and his leadership in the Company's ongoing engagement with the Federal Reserve, international regulators and other supervisory bodies.

Mr. Lowrey

ANNUAL INCENTIVE AWARD DECISION

Consistent with the Final Performance Factor, Mr. Lowrey's incentive award was \$3,985,000 or approximately 0.996 times his target award amount. This award compares to an annual incentive award of \$4,250,000 for 2015, representing a decrease of 6.2%. Of the \$3,985,000, \$1,195,500 was mandatorily deferred into the Book Value Performance Program.

KEY PERFORMANCE ACHIEVEMENTS

In assessing the individual performance of Mr. Lowrey, the Committee identified and examined a broad range of corporate and individual performance factors, including:

- His efforts in leading our International Businesses to earn pre-tax AOI of \$3.1 billion for 2016, a 3% increase from 2015 before the impact of changes in currency exchange rates;
- His role in achieving an 8% increase in constant dollar sales in 2016 compared to 2015;
- His oversight of our distribution through Life Planner operations, which achieved constant dollar sales of \$1.3 billion in 2016, representing a 10% increase from 2015;
- His leadership in the active management of proprietary and third party distribution at Gibraltar Life, which achieved constant dollar sales of \$1.7 billion in 2016, representing a 7% increase from 2015;
- His contributions to the successful adaptation to current market conditions of major product lines serving death protection and retirement needs in our key international markets through multiple distribution channels including a 53% increase in U.S. dollar product sales in Japan in 2016 compared to 2015;
- His role in helping drive expansion into new markets outside of Japan, including a key role in our acquisition of a 40% stake in AFP Habitat, a leading provider of retirement services in Chile, and our step-up in ownership percentage from 26% to 49% in DHFL Pramerica, our joint venture in India; and
- His overall leadership of the International Businesses including comprehensive succession planning.

Mr. Pelletier

ANNUAL INCENTIVE AWARD DECISION

Consistent with the Final Performance Factor, Mr. Pelletier's incentive award was \$3,985,000 or approximately 0.996 times his target award amount. This award compares to an annual incentive award of \$3,200,000 for 2015, representing an increase of 24.5%. Of the \$3,985,000, \$1,195,500 was mandatorily deferred into the Book Value Performance Program.

KEY PERFORMANCE ACHIEVEMENTS

In assessing the individual performance of Mr. Pelletier, the Committee identified and examined a broad range of corporate and individual performance factors, including:

- His efforts in leading our Retirement business to achieve account values of \$386 billion at December 31, 2016, a 5% increase from a year earlier;
- His instrumental role in the expansion of our leading position in the pension risk transfer market, including the completion of approximately \$5 billion of new funded cases in 2016;
- His contributions to the success of our Asset Management business, which had \$1.04 trillion of assets under management as of December 31, 2016, up 8% from a year earlier, marking the 14th consecutive year of net positive institutional flows;
- His oversight of our Individual Life Insurance business, which produced a 7% increase in sales in 2016, as compared to a year earlier;
- His oversight of our Individual Annuities business which recorded a 3% increase in account values as of December 31, 2016 compared to a year earlier, while successfully executing product diversification strategies and a restructuring that is expected to reduce capital volatility and improve earnings and cash flow prospects;
- His role in the improved results of our Group Insurance business, which recorded pre-tax adjusted operating income of \$220 million for 2016, an increase of 25% from 2015; and
- His overall leadership of the U.S. Businesses including cross-business initiatives and comprehensive succession planning.

Long-Term Incentive Program

We provide a long-term incentive opportunity to motivate and reward our executive officers for their contributions toward achieving our business objectives by tying these incentives to the performance of our Common Stock and book value over the long term, to further reinforce the link between the interests of our executive officers and our shareholders, and to motivate our executive officers to improve our multi-year financial performance. Our practice is to grant long-term incentive awards annually in the form of a balanced mix of performance shares and units, stock options, and book value units to our officers at the level of senior vice president and above, including the NEOs, in amounts that are consistent with competitive practice.

The mix of long-term incentives granted in 2016 to NEOs is shown in the table below:

Performance Shares and Units	60%
Stock Options	20%
Book Value Units	20%

In determining the amount of individual long-term incentive awards, the Committee considers a senior executive's individual performance during the immediately preceding year, potential future contributions, his or her prior year's award value, and retention considerations, as well as market data for the executive officer's position at the companies in the Peer Group.

Long-term incentive awards may also be granted when an individual is promoted to a senior executive position to recognize the increase in the scope of his or her role and responsibilities. From time to time, we may make special awards in the form of restricted stock units, to recognize major milestones, or selective awards in situations involving a leadership transition.

In addition, for all long-term incentive awards granted in 2014 or earlier to any NEO who is subject to Section 162(m), the total payout amount for performance shares and units, restricted stock units, and book value units, as well as the 2016 annual incentive payment, may not exceed 0.6% of our pre-tax AOI for the prior year. For all such long-term awards granted in 2015 and subsequent years, the total payout amount to any NEO subject to Section 162(m) may not exceed 0.4% of the highest pre-tax AOI reported for any of the three fiscal years ended prior to the year of payment, provided that there is positive AOI in at least one fiscal year during which the award is outstanding for at least 276 days of that year. For annual incentive payments relating to 2017 and subsequent performance years, there is a separate limit for any NEO subject to Section 162(m) of 0.4% of our pre-tax AOI for the applicable performance year.

PERFORMANCE SHARES AND UNITS

Performance shares and units align the majority of our long-term incentive values to the achievement of our key ROE goals over a three-year performance period. Starting with the February 2014 awards with respect to the 2014 to 2016 performance period, award payouts generally range from 0% to 125% of the target number of shares and units. In past years, maximum awards ranged up to 150% of the target number of shares. Beginning with the February 2014 awards with respect to the 2014 to 2016 performance period and ending with the February 2016 awards with respect to the 2016 to 2018 performance period, the preliminary payout will be based on the average ROE achievement over the three-year performance period relative to the goals set at the start of the period as established by the Committee.

Also, for the February 2015 awards with respect to the 2015 to 2017 performance period and the February 2016 awards with respect to the 2016 to 2018 performance period, we used a relative performance modifier. The modifier provided a balance between absolute performance and performance relative to the North American Life Insurance subset of the Peer Group and is based on the Company's three-year performance in ROE, book value per share growth and EPS growth. The modifier increases or decreases the award payment by up to 10% within the 0% to 125% range.

Beginning with the February 2017 awards with respect to the 2017 to 2019 performance period, the preliminary payout will be based on two equally-weighted financial metrics: (i) average ROE achievement over the three-year performance period relative to the goals set at the start of the period as established by the Committee and (ii) average ROE achievement over the three-year performance period relative to the median ROE results over this period of the North American Life Insurance subset of the Peer Group. This change to the performance shares and units program further solidifies the balance between absolute performance and performance relative to life insurer peers. Accordingly, the use of a relative performance modifier was eliminated starting with the February 2017 awards.

Performance unit awards are denominated in share equivalents and have the same value as the performance share awards on the award payment date. Dividend equivalents are paid retroactively on the final number of performance shares and units paid out, up to the target number of shares and units.

ROE is determined using after-tax AOI divided by adjusted book value. The ROE figures are also subject to standard adjustments as part of our pre-set established formulaic framework.

While the program allows the Committee to make a discretionary adjustment by up to 15% of the earned shares and units based on quantitative and qualitative factors, the Committee has rarely exercised discretion and did not exercise discretion for the 2014 awards that paid out in February 2017.

STOCK OPTIONS

Stock options provide value based solely on stock price appreciation. Stock options are granted with a maximum term of ten years. One-third of the option grants vest on each of the first three anniversaries of the date of grant. The exercise price is based on the closing market price of a share of our Common Stock on The New York Stock Exchange on the date of grant.

BOOK VALUE PERFORMANCE PROGRAM

The Book Value Performance Program is intended to link the incentive payments to a measure of book value per share—a key metric in valuing insurance companies, banks, and investment firms that is closely followed by investors. We calculate adjusted book value per share by dividing our adjusted book value by the number of shares of our Common Stock outstanding. Our calculations of adjusted book value and adjusted book value per share, as described in Appendix A to this Proxy Statement, exclude certain balance sheet items that are not, and may never be, reflected in the income statement. Unlike the financial measures based on AOI that are used in other aspects of our executive compensation program, the adjusted book value per share metric takes into consideration realized gains and losses in our investment portfolio. The key features of the Book Value Performance Program for our NEOs are:

- Awards are granted and denominated in book value units that are funded from two sources:
 - the allocation of 20% of a participant's long-term incentive award value for the year as determined by the Committee; and
 - a mandatory deferral of 30% of their annual incentive award.
- Once granted, the value of these book value units then tracks changes in book value per share for each participant.
- These units track the value of book value per share of Common Stock, excluding total accumulated other comprehensive income and the non-economic effects of foreign currency exchange rate remeasurement of non-yen liabilities and assets included in net income or loss.
- One-third of a participant's annual award of book value units is distributed in cash in each of the three years following the year of grant.

ADJUSTED BOOK VALUE

Book value per common share increases (or decreases) as a result of the Company's net income (or loss). Book value per common share decreases when the Company pays dividends on its Common Stock. Book value per common share may also increase or decrease due to other items, including share repurchase activity.

- Represents the aggregate market value distributed on February 19, 2016 for all NEOs and also for Mr. Pelletier on April 12, 2016.
- Represents the aggregate market value awarded on February 9, 2016 for all NEOs.
- Represents the aggregate market value of the number of book value units held at December 31, 2016 obtained by multiplying the book value per share of \$78.95 as of December 31, 2016 by the number of book value units outstanding.

LONG-TERM INCENTIVE AWARD DECISIONS FOR 2016

In February 2017, the Committee granted long-term incentive awards to the NEOs based on updated market data and its assessment of their individual performance during 2016. These awards were granted in the form of performance shares (30%), performance units (30%), stock options (20%), and book value units (20%) under the Book Value Performance Program (in addition to the mandatory deferral of 30% of each NEO's annual incentive award). The Committee determined that this long-term incentive mix would appropriately reward the NEOs for their 2016 performance, motivate them to work towards achieving our long-term objectives, further reinforce the link between their interests and the interests of our shareholders, and provide a balanced portfolio composed of performance shares and units (which provide value based upon attainment of specific performance goals and performance relative to peers), stock options (which provide value based solely on stock price appreciation) and book value units (which provide value based on changes in our book value per share).

The following table presents the long-term incentive awards granted to each NEO in February 2017, including our Book Value Performance Program, and includes the mandatory deferrals of 30% of their annual incentive award. Awards are expressed as dollar compensation values in the table. These awards generally will not be reported in the Summary Compensation Table until 2018. For discussion of the long-term incentive awards granted in February 2016 for 2015 performance and included in this year's Summary Compensation Table, see the CD&A in our 2016 Proxy Statement.

- Includes amounts that were mandatorily deferred from the Annual Incentive Program (30%) that total \$1,792,800 for Mr. Strangfeld; \$897,000 for Mr. Falzon; \$1,524,000 for Mr. Grier; \$1,195,500 for Mr. Lowrey, and \$1,195,500 for Mr. Pelletier.

PERFORMANCE SHARE AND PERFORMANCE UNIT AWARDS

The NEOs currently have three performance share and unit awards outstanding. In February 2017, the Committee granted the performance share and unit awards for the 2017 to 2019 performance period. The key features of these three awards are as follows:

Performance Period	Performance Measures	Performance Measure Target Levels	Target Number of Shares/Units to be Awarded	Actual Number of Shares/Units
2015–2017	- ROE - Relative Performance: ROE Book value per share growth EPS growth	Average ROE of 13.5% for the 2015 through 2017 performance period. Weighted average relative performance ranking of 4 on relative ROE, book value per share growth and EPS growth.	100% at target level and 125% if average ROE is 14% or more, in each case, assuming a relative performance modifier of zero.	To be determined between 0% and 125% of the target number by the Committee in February 2018 based on average ROE over the 2015–2017 performance period compared to the Company's ROE targets, as modified by the relative performance modifier.
2016–2018	- ROE - Relative Performance: ROE Book value per share growth EPS growth	Average ROE of 13% for the 2016 through 2018 performance period. Weighted average relative performance ranking of 4 on relative ROE, book value per share growth and EPS growth.	100% at target level and 125% if average ROE is 14% or more, in each case, assuming a relative performance modifier of zero.	To be determined between 0% and 125% of the target number by the Committee in February 2019 based on average ROE over the 2016–2018 performance period compared to the Company's ROE targets, as modified by the relative performance modifier.
2017–2019	- ROE - Relative ROE versus life insurer peer group	Average ROE of 12% and ROE performance equal to the median performance of the North American Life Insurance subset of the Peer Group for the 2017 through 2019 performance period.	100% at target level and 125% if average ROE is 13.5% or more and ROE performance exceeds the median performance of the North American Life Insurance subset of the Peer Group by 3% or more.	To be determined between 0% and 125% of the target number by the Committee in February 2020 based on average ROE over the 2017–2019 performance period compared to the Company's ROE targets and ROE performance as compared to the median performance of the North American Life Insurance subset of the Peer Group.

In February 2016, for the 2016 awards, the Committee aligned the target award opportunity to 13% average ROE during the performance period, recognizing that 13% ROE represents second quartile performance relative to the North American Life Insurance subset of the Peer Group.

In February 2017, for the 2017 awards, the Committee aligned the target award opportunity to 12% average ROE during the performance period, recognizing that the Company has changed its near-to-intermediate term ROE target from 13% to 14% to 12% to 13%, reflecting a sustained low interest rate environment, and that 12% ROE exceeds the estimated ROEs of its closest comparable peers within the North American Life Insurance subset of the Peer Group.

In February 2017, the NEOs received payouts with respect to the performance share and unit awards that were granted in February 2014 for the three-year performance period ended December 31, 2016. These awards were paid at 1.25 times the target number of shares and units initially awarded based on our average ROE relative to our ROE targets for the three-year performance period.

Average ROE over the 2014–2016 Performance Period	
Goal:	13.5%
Actual ⁽¹⁾ :	14.3%
Earnout Factor:	1.25
⁽¹⁾ Actual figures adjusted for one-time items and Standard & Poor's 500 performance as under the Annual Incentive Program for each year.	

The final award payments to the NEOs in February 2017 for the 2014 to 2016 performance period were:

Named Executive Officers	Target Number of Shares/Units Awarded ⁽¹⁾	Actual Number of Shares/Units Awarded ⁽¹⁾
John R. Strangfeld	57,726	72,158
Robert M. Falzon	17,658	22,074
Mark B. Grier	47,540	59,426
Charles F. Lowrey	30,562	38,204
Stephen Pelletier	20,674	25,844

¹ Target and actual number of awards are 50% shares and 50% units.

Supplemental Compensation Analysis

TOTAL DIRECT COMPENSATION

The following table illustrates the Committee's perspective on the total direct compensation (base salary, annual incentive award, and long-term incentives) of the NEOs for the 2015 and 2016 performance years. This table is not a substitute for the compensation tables required by the SEC and included under "Compensation of Named Executive Officers" contained in this Proxy Statement. However, we believe it provides a more accurate picture of how the Committee viewed its compensation actions for the NEOs based on our performance for each of these two years:

Named Executive Officer	2015 Compensation	2016 Compensation	Percentage Change

Total	\$ 8,470,000	\$ 9,255,000	9.27%

(1) Thirty percent of this amount was mandatorily deferred into the Book Value Performance Program, which is part of the Long-Term Incentive Program. These amounts total \$1,774,500 for Mr. Strangfeld, \$780,000 for Mr. Falzon, \$1,530,000 for Mr. Grier, \$1,275,000 for Mr. Lowrey, and \$960,000 for Mr. Pelletier.

(2) Thirty percent of this amount was mandatorily deferred into the Book Value Performance Program, which is part of the Long-Term Incentive Program. These amounts total \$1,792,800 for Mr. Strangfeld, \$897,000 for Mr. Falzon, \$1,524,000 for Mr. Grier, \$1,195,500 for Mr. Lowrey, and \$1,195,500 for Mr. Pelletier.

(3) Represents the compensation value of long-term awards for each performance year. For example, the long-term values under the "2016 Compensation" column represent awards made in February 2017 for the 2016 performance year, excluding amounts mandatorily deferred from the annual incentive awards.

(4) Reflects annualized salary as of December 31, 2015. Effective February 22, 2016, Mr. Falzon received a salary increase of \$70,000, resulting in an annualized salary of \$770,000.

REPORTED CHANGES IN PENSION VALUES

As part of its compensation review, the Compensation Committee considered the dollar amount change in pension value for Mr. Strangfeld and the other NEOs. The change in the present value of Mr. Strangfeld's pension for 2016 reflects a number of factors, including his 39 years of service, his age, his average earnings, changes in interest rates and life expectancy assumptions used to calculate the pension plan obligations. These factors, as well as our plan design that updates average earnings every other year, resulted in an increase in Mr. Strangfeld's pension accrual for 2016. Pension values may fluctuate significantly from year to year and it is expected that in 2017, should interest rates remain unchanged, the change in Mr. Strangfeld's pension accrual will be substantially lower. Alternatively, if the discount rate were to rise, it is possible that Mr. Strangfeld's change in pension value in future years could be a negative amount, as it was for the years 2015 and 2013. Given this inherent volatility, the Compensation Committee will continue to monitor future accruals for Mr. Strangfeld and the other NEOs. The Traditional Pension Formula that applies to Mr. Strangfeld was closed to employees hired on or after January 1, 2001.

TOTAL SHAREHOLDER RETURN

The chart below shows our absolute Total Shareholder Return ("TSR") and percentile ranking relative to the 20 companies in our Peer Group over the three time periods indicated.

	Total Shareholder Return		
	1-Year	3-Year	5-Year
Cumulative TSR	33%	24%	135%
Annualized TSR	33%	7%	19%
Percentile Rank	84%	49%	56%

With respect to our three-year TSR, and to a lesser extent our five-year TSR, Prudential is the only life insurer among our Peer Group that is subject to Federal regulation as a non-bank systemically important financial institution ("SIFI").

The discussion of our SIFI status and our subsequent designation began in 2012 with our designation occurring in 2013. We believe this occurrence, as well as the questions on the additional regulatory requirements that might accompany this designation, among other factors, may have negatively impacted our three-year and five-year TSR.

CEO REALIZED AND REALIZABLE PAY ANALYSIS

The total compensation of our NEOs as reported in the 2016 Summary Compensation Table is calculated in accordance with SEC rules. Under these rules, we are required to show the grant date fair value of equity and equity-based awards, even though the ability of our executive officers to realize value from such awards is contingent on the achievement of certain performance conditions (including, in the case of stock options, the sustained increase in our stock price). The accompanying chart compares our CEO's total compensation, as measured based on actual compensation received (or, with regard to pending awards, realizable pay based on the applicable performance elements and stock value at a relatively current time), to the amounts reported for him in the Summary Compensation Table for the periods shown.

The chart illustrates that our executive compensation program is designed so that the amount of compensation that our CEO actually receives, or is expected to receive, may be higher or lower than the amount we are required to report in the Summary Compensation Table, depending on the performance of our Common Stock and our performance relative to our key financial objectives. It demonstrates the strong alignment of the interests of our executive officers with those of our shareholders.

CEO TOTAL COMPENSATION

Grant Date Fair Value vs. Realized and Realizable Gains (in thousands)

■ Total compensation based on Grant Date Fair Value

2013-2015 (based on December 31, 2015 share price of \$81.41 and book value share per share of \$73.59)

- Total compensation based on grant date fair value is the sum of base salary; actual annual incentive payout for the performance year (excluding the portion mandatorily deferred into the long-term Book Value Performance Program); the grant date fair values of the performance shares and units, book value units and stock options awarded each year.
- Total compensation based on realized and realizable pay is the sum of: base salary; actual annual incentive payout for the performance year (excluding the portion mandatorily deferred into the long-term Book Value Performance Program); performance

i

■ Total compensation based on Realized and Realizable Gains

2014-2016 (based on December 31, 2016 share price of \$104.06 and book value share per share of \$78.95)

- Total compensation based on grant date fair value is the sum of base salary; actual annual incentive payout for the performance year (excluding the portion mandatorily deferred into the long-term Book Value Performance Program); the grant date fair values of the performance shares and units, book value units and stock options awarded each year.
- Total compensation based on realized and realizable pay is the sum of: base salary; actual annual incentive payout for the performance year (excluding the portion mandatorily deferred into the long-term Book Value Performance Program); performance

i

performance shares and units awarded in 2013 and paid in February 2016 based on an earnout factor of 1.5 times target valued at the December 31, 2015 share price of \$81.41; performance shares and units awarded in 2014 and 2015 valued at target based on the \$81.41 share price; the actual book value units awarded each year but paid in three annual tranches including unpaid portions valued as of December 31, 2015 at \$73.59 per unit; and the intrinsic value of stock options awarded in each year based on the \$81.41 share price as of December 31, 2015.

- For 2013, a key reason why grant date and realized/realizable pay differ is that the intrinsic value of the stock options and the value of the performance shares and units awarded in each year are significantly higher when valued as of December 31, 2015. Another contributing factor to the higher realized/realizable pay for 2013 is that the 2013 performance shares program payment is 1.5 times target reflecting the achievement of our sustainable ROE objective of 13% to 14%. There is little difference between the grant date and realized/realizable pay amounts in either 2014 or 2015, consistent with the relatively small change in our share price over that period.

WHY WE USE ADJUSTED OPERATING INCOME (“AOI”) INSTEAD OF GAAP NET INCOME⁽¹⁾

Why don’t we use GAAP net income as our compensation performance measure?

We seek to compensate our senior executive officers based on their success in building shareholder value through the operation of the Company’s businesses. The Committee and the investment community do not believe GAAP net income optimally measures the creation of shareholder value because it may be significantly affected by items with limited economic impact, or that are otherwise not indicative of ongoing trends.

What are some examples of items included in GAAP net income, but excluded from AOI, and why are they excluded?

- Realized investment gains/losses.** Sales of general account invested assets may result in a gain or loss that is recognized in GAAP net income. However, the timing of these sales that would result in gains or losses (such as gains or losses related to changes in interest rates) is largely subject to our discretion and influenced by market opportunities as well as our tax and capital profile. Accordingly, we believe gains or losses on these sales are not indicative of business performance trends.
- Foreign currency exchange rate liability remeasurement.** GAAP requires us to recognize on our income statement gains and losses on certain insurance liabilities due to changes in foreign currency exchange rates. However, these liabilities are supported by assets for which corresponding changes in value due to changes in foreign exchange rates are recognized in

shares and units awarded in 2014 and paid in February 2017 based on an earnout factor of 1.25 times target valued at the December 31, 2016 share price of \$104.06; performance shares and units awarded in 2015 and 2016 valued at target based on the \$104.06 share price; the actual book value units awarded each year but paid in three annual tranches including unpaid portions valued as of December 31, 2016 at \$78.95 per unit; and the intrinsic value of stock options awarded in each year based on the \$104.06 share price as of December 31, 2016.

- For 2016, a key reason why grant date and realized/realizable pay differ is that the intrinsic value of the stock options and the value of the performance shares and units awarded are significantly higher when valued as of December 31, 2016. The primary reason the difference between the grant date and realized value for years 2014 and 2015 is that the grant date stock price was significantly higher in 2014 and 2015 than it was in 2016.

Why do we use AOI as our compensation performance measure?

The Committee believes AOI is superior to GAAP net income as a measure of our performance because AOI includes only our results of operations from ongoing operations and the related underlying profitability factors, and excludes items that are not indicative of ongoing trends. Among other things, AOI excludes items where the timing of the impact is subject to management discretion, items with limited economic impact, items that we expect to reverse over time, and items that are otherwise not indicative of our ongoing performance.

accumulated other comprehensive income (loss) on our balance sheet under GAAP. Given that the gains and losses on the income statement for these insurance liabilities are offset by changes to accumulated other comprehensive income (loss) on our balance sheet, the impact on the Company is non-economic and therefore not a reflection of shareholder value created or lost. The Company has taken steps to mitigate the impact of foreign currency exchange rate liability remeasurement on GAAP net income or loss, commencing in 2015.

- Divested businesses.** The contribution to GAAP net income or loss of divested businesses that have been or will be sold or exited or are in wind-down status are excluded from AOI since the results of divested businesses are not relevant to an understanding of the Company’s ongoing operations.

⁽¹⁾ For more information, see Appendix A to this Proxy Statement.

Post-Employment Compensation

Retirement Plans

We view retirement benefits as a key component of our executive compensation program because they encourage long-term service. Accordingly, we offer our employees, including the NEOs, a comprehensive benefits program that provides the opportunity to accumulate adequate retirement income. This program includes both defined benefit and defined contribution plans, as well as two supplemental retirement plans which allow highly compensated employees (that is employees whose compensation exceeds the limits established by the Internal Revenue Code for covered compensation and benefit levels) to receive the same benefits they would have earned but for these limitations. Further, we sponsor three supplemental executive retirement plans ("SERPs") for certain eligible executive officers, including the NEOs, to offset the potential loss or forfeiture of retirement benefits under certain limited circumstances or to provide additional benefits to certain key executives. For descriptions of these plans, including their titles, see "Pension Benefits."

We also maintain the Prudential Insurance Company of America Deferred Compensation Plan (the "Deferred Compensation Plan"). We offer this plan to our executive officers, including the NEOs, as a competitive practice. For a description of this plan, see "Nonqualified Deferred Compensation."

Periodically, we compare the competitiveness of our benefits programs for our employees, including retirement benefits, against other employers with whom we broadly compete for talent. It is our objective to provide our employees with a benefits package that is at or around the median of the competitive market when compared to other employers.

Severance and Change in Control Arrangements

Our Board has adopted a policy prohibiting us from entering into any severance or change in control agreement with any of our executive officers, including the NEOs, that provides for payments and benefits that exceed 2.99 times the sum of the executive officer's base salary and most recently earned cash bonus, without shareholder approval or ratification. We do not provide excise tax payments, reimbursements, or "gross-ups" to any of our executive officers.

While our other executive officers are eligible for severance payments in the event of an involuntary termination of employment without "cause," our CEO is not a participant in the severance program providing this benefit.

To enable us to offer competitive total compensation packages to our executive officers, as well as to ensure the ongoing retention of these individuals when considering potential transactions that may create uncertainty as to their future employment with us, we offer certain post-employment payments and benefits to our executive officers, including the NEOs, upon the occurrence of several specified events. These payments and benefits are provided under two separate programs:

- the Prudential Severance Plan for Senior Executives (the "Severance Plan"); and
- the Prudential Financial Executive Change in Control Severance Program.

We have not entered into individual employment agreements with our executive officers. Instead, the rights of our executive officers with respect to post-employment compensation upon specific events, including death, disability, severance or retirement, or a change in control of the Company, are covered by these two programs.

We use plans, rather than individually negotiated agreements, to provide severance and change in control payments and benefits for several reasons. First, a "plan" approach provides us with the flexibility to change the terms of these arrangements from time to time. An employment agreement would require that the affected executive officer consent to any changes. Second, this approach is more transparent, both internally and externally. Internal transparency eliminates the need to negotiate severance or other employment separation payments and benefits on a case-by-case basis. In addition, it assures each of our executive officers that his or her severance payments and benefits are comparable to those of other executive officers with similar levels of responsibility and tenure.

As previously noted, our executive officers, including the NEOs, except for our CEO, are eligible for severance payments and benefits in the event of an involuntary termination of employment without "cause." These executive officers and our CEO are also eligible for "double trigger" severance payments and benefits in the event of an involuntary termination of employment without "cause" or a termination of employment with "good reason" in connection with a change in control of the Company. Our equity awards are also designed to be "double trigger," so long as such awards are allowed to continue in effect following any change in control transaction on substantially equivalent terms and conditions to those applicable prior to such transaction.

The payment of these awards at target achievement rewards the executive officer for his or her expected performance prior to the change in control transaction.

For detailed information on the estimated potential payments and benefits payable to the NEOs in the event of their termination of employment, including following a change in control of the Company, see "Potential Payments Upon Termination or Change in Control."

Perquisites and Other Personal Benefits

We do not provide our executive officers, including the NEOs, with perquisites or other personal benefits, except for the use of Company aircraft, Company-provided vehicles and drivers, and, in the case of our CEO and Vice Chairman, security services. These items are provided because we believe that they serve a necessary business purpose and represent an immaterial element of our executive compensation program. The cost allocated to the personal use of Company-provided vehicles and drivers, including commuting expenses, and the incremental cost associated with the security services, to the extent not reimbursed to us, are reported in the Summary Compensation Table. Our executive officers, including the NEOs, are required to reimburse us for the incremental cost of any personal use of Company aircraft.

We do not provide tax reimbursements or any other tax payments, including excise tax "gross-ups", to any of our executive officers.

Perquisites and other personal benefits represent an immaterial element of our executive compensation program.

Other Compensation Related Policies

In addition to the other components of our executive compensation program, we maintain the policies described below. These policies are consistent with evolving best practices and help ensure that our executive compensation program does not encourage our executive officers to engage in behaviors that are beyond our ability to effectively identify and manage risk.

Clawback Policy

In 2015, we strengthened our clawback policy to cover all incentive compensation and to address material financial restatements and improper conduct (including failure to report).

The revised clawback policy covers all executive officers (including the NEOs) and applies to all incentive-based compensation (including stock options and other equity awards) paid to or in respect of an executive officer. The policy provides that if (i) the Company is required to undertake a material restatement of any financial statements filed with the SEC or (ii) an executive officer engages in improper conduct that either has had, or could reasonably be expected to have, a significant adverse reputational or economic impact on the Company or any of its affiliates or divisions, then the Board may, in its sole discretion, after evaluating the associated costs and benefits, seek to recover all or any portion of the incentive-based compensation paid to any such executive officer during the three-year period preceding the restatement, or the occurrence of the improper conduct, as the case may be.

The policy also requires us to disclose to our shareholders, not later than the filing of the next proxy statement the action taken by the Board, or the Board's decision not to take action, with regard to compensation recovery following the occurrence of a material restatement or improper conduct, so long as such event has been previously disclosed in our SEC filings.

For purposes of the policy a "restatement" means any material restatement (occurring after the effective date of this policy) of any of the Company's financial statements that have been filed with the SEC under the Exchange Act or the Securities Act of 1933, as amended. "Improper conduct" means willful misconduct (including, but not limited to, fraud, bribery or other illegal acts) or gross negligence, which, in either case, includes any failure to report properly, or to take appropriate remedial action with respect to, such misconduct or gross negligence by another person.

Other Long-Term Compensation Recovery Policies

In 2015, we adopted a "resignation notice period" requirement as part of the terms and conditions of all long-term incentive awards granted to certain designated grades of executives, including the NEOs. The requirement is applicable to awards granted

in 2015 and subsequent years. The requirement is intended to reduce the adverse and disruptive effect of a sudden voluntary departure of an executive subject to the requirement, and requires him or her to provide notice for a specified period prior to the effective date of a voluntary resignation, or otherwise risk forfeiting his or her outstanding long-term incentive awards.

The terms and conditions of long-term incentive awards also provide for forfeiture in the event a recipient violates applicable non-solicitation or non-competition agreements.

Process for Approving Long-Term Incentive Awards

The Committee approves long-term incentive awards (including stock options, book value units, performance shares, performance units and, restricted stock units) on an annual basis at its regularly scheduled February meeting.

The Committee has delegated authority to management to approve long-term incentive awards for new hires, promotions, and retention purposes within specified limits to employees below the level of senior vice president. The Committee approves any long-term incentive awards to newly hired or promoted senior executives.

Under the terms of our 2016 Omnibus Plan, which was approved by shareholders in 2016, stock options are required to be priced at the fair market value of our Common Stock on the date of grant, which is based on the closing market price of our Common Stock on the date of grant. The number of shares of our Common Stock subject to a stock option grant to an individual is determined by dividing the compensation value of the grant by the fair value of each stock option based on the average closing market price of our Common Stock on the NYSE for the final 20-day trading period in the month prior to the grant date.

The number of performance shares and units or restricted stock units awarded to an individual is determined by a formula that divides the compensation value of the award by the average closing market price of our Common Stock on the NYSE for the final 20-day trading period in the month prior to the grant date.

Stock Ownership Guidelines

We have adopted stock ownership guidelines for our executive officers to encourage them to build their ownership position in our Common Stock over time by direct market purchases, making investments available through the PESP and the Deferred Compensation Plan, and retaining shares they earn under long-term incentive awards. In 2015, we revised the guidelines to increase the CEO stock ownership level from 500% to 700% of base salary. The guidelines are framed in terms of stock value as a percentage of base salary as follows:

Position	Stock Value as a Percentage of Base Salary
Chief Executive Officer	700%
Vice Chairman and Executive Vice Presidents	300%
Senior Vice Presidents	200%

Each of the NEOs meets his individual stock ownership level. Under the current stock ownership guidelines, once an executive officer attains his or her individual ownership level, he or she will remain in compliance with the guidelines despite future changes in stock price and base salary, as long as his or her holdings do not decline below the number of shares at the time the stock ownership guidelines were met.

Stock Retention Requirements

We have adopted stock retention requirements for our executive officers. Each executive officer is required to retain 50% of the net shares (after payment of the applicable exercise price (if any), fees, and taxes) acquired upon the exercise of stock options or the payment or vesting of any performance shares and restricted stock units. The executive officer is required to hold such shares until the later of one year following the date of acquisition of such shares (even if this one-year holding period extends beyond termination of employment) or the date that he or she satisfies our stock ownership guidelines.

Prohibition of Derivatives Trading, and Hedging and Pledging of Our Securities

Our Board has adopted a policy prohibiting all employees, including the NEOs, and members of the Board from engaging in any hedging transactions with respect to any of our equity securities held by them, which includes the purchase of any financial instrument (including prepaid variable forward contracts, equity swaps, collars, and exchange funds) designed to hedge or offset any decrease in the market value of such equity securities.

Our Board has also adopted a policy prohibiting our Section 16 officers and members of the Board from pledging, or using as collateral, our securities to secure personal loans or other obligations, which includes holding shares of our Common Stock in a margin account.

POLICY ON RULE 10b5-1 TRADING PLANS

We have a policy governing the use by executive officers of pre-established trading plans for sales of our Common Stock and exercises of stock options for shares of our Common Stock. We believe our Rule 10b5-1 policy reflects best practices and is effective in ensuring compliance with legal requirements. Under the policy:

- All Rule 10b5-1 trading plans must be pre-cleared by law and compliance.
- A trading plan may be entered into, modified or terminated only during an open trading window and while not in possession of material non-public information.
- No trade may occur for the first 30 days after the trading plan is established. No modification or termination of a plan may affect any trade scheduled to occur within 30 days.

DEDUCTIBILITY OF EXECUTIVE COMPENSATION

It is our policy to structure and administer our annual and long-term incentive compensation plans and stock option grants for our CEO and the other NEOs to maximize the tax deductibility of the payments as "performance-based compensation" for purposes of Section 162(m) to the extent practicable. In 2016, all such performance-based compensation was deductible. The Committee may provide compensation that is not tax deductible if it determines that such action is appropriate and in the best interests of the Company. Further, the rules and regulations promulgated under Section 162(m) are complicated, and may change from time to time, sometimes with retroactive effect. As such, there can be no guarantee that any compensation intended to qualify as "performance-based compensation" will so qualify.

The 2016 Omnibus Plan contains an overall limit on compensation paid to covered executives to comply with the conditions for determining "performance-based compensation" under Section 162(m). Under the terms of the 2016 Omnibus Plan, payment on annual incentive awards to an NEO who is subject to Section 162(m) in a taxable year may not exceed 0.4% of our pre-tax AOI for the year ended prior to the year in which payment is due. Awards of restricted stock units, performance shares, performance units and book value units and associated dividend equivalents have a performance condition that our pre-tax AOI must be positive in at least one fiscal year during which the award is outstanding for at least 276 days of that year, and a maximum limitation that the amount payable in any year may not exceed 0.4% of the highest amount of our pre-tax AOI for any of the three years ended prior to the year payment on those awards is due. For awards granted prior to May 2016 under the Omnibus Incentive Plan, the total payout on awards of annual incentives, restricted stock units, performance shares, performance units and book value units and associated dividend equivalents for an NEO who is subject to Section 162(m) in a taxable year cannot exceed 0.6% of pre-tax AOI for the prior year.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of our Board of Directors has reviewed and discussed with management the Compensation Discussion and Analysis contained in this Proxy Statement. Based on its review and these discussions, the Compensation Committee has recommended to our Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into our Annual Report on Form 10-K for the year ended **December 31, 2016**.

Executive Compensation

2016 Summary Compensation Table

The following table presents, for the years ended December 31, 2016, 2015, and 2014, the compensation of Mr. Strangfeld, our principal executive officer, Mr. Falzon, our principal financial officer, and Messrs. Grier, Lowrey and Pelletier, our three most highly compensated executive officers (other than the principal executive officer and principal financial officer) who were serving as executive officers as of December 31, 2016.

For information on the role of each compensation component within the total compensation packages of the NEOs, please see the relevant description in the "Compensation Discussion and Analysis ("CD&A")." The compensation data in this table is presented in accordance with the SEC disclosure rules. For the Compensation Committee's view of 2016 performance year compensation, see the "Supplemental Compensation Analysis — Total Direct Compensation" in the CD&A.

(1) The amounts reported in the **Salary** column for 2016 include elective contributions of a portion of their base salary to the SESP by Messrs. Strangfeld, Falzon, Grier, Lowrey, and Pelletier in the amounts of \$45,400, \$19,769, \$37,000, \$20,200, and \$20,200, respectively.

(2) The amounts reported in the **Stock Awards** column represent the aggregate grant date fair value for performance shares and performance units at target in each respective year. The maximum number of performance shares and performance units payable for 2016, 2015, and 2014 are 1.25 times the target amounts.

For 2016, the maximum performance shares and units payable and valued at the grant date price of \$63.59 to Messrs. Strangfeld, Falzon, Grier, Lowrey, and Pelletier are 103,896 or \$6,606,747; 41,558 or \$2,642,673; 83,116 or \$5,285,346; 49,350 or \$3,138,167; and 46,754 or \$2,973,087, respectively.

For 2015, the maximum performance shares and units payable and valued at the grant date price of \$78.08 to Messrs. Strangfeld, Falzon, Grier, Lowrey, and Pelletier are 77,556 or \$6,055,572; 27,374 or \$2,137,362; 63,870 or \$4,986,970; 41,060 or \$3,205,965; and 36,498 or \$2,849,764, respectively.

For 2014, the maximum performance shares and units payable and valued at the grant date price of \$84.53 to Messrs. Strangfeld, Falzon, Grier, Lowrey, and Pelletier are 72,158 or \$6,099,516; 22,073 or \$1,865,831; 59,425 or \$5,023,195; 38,203 or \$3,229,300; and 12,735 or \$1,076,490, respectively. Mr. Pelletier received an additional grant upon his promotion to Executive Vice President in April 2014 that has a maximum number of performance shares and performance units payable and valued at the grant date price of \$81.17 of 13,108 or \$1,063,976.

(3) The amounts reported in the **Options Awards** column represent the aggregate grant date fair value for stock options granted in each respective year for the prior year's performance as calculated under ASC Topic 718. The assumptions made in calculating the grant date fair value amounts for these stock options are incorporated herein by reference to the discussion of those assumptions and found below in the Grants of Plan-Based Awards Table. Note that the amounts reported in this column do not necessarily correspond to the actual economic value that will be received by the Named Executive Officers from the options.

(4) The aggregate amounts reported in the **Non-Equity Incentive Plan Compensation** column for 2016 represent annual incentives paid in February 2017 for performance in 2016, excluding 30% of the total annual incentive carved out to the Book Value Performance Program; and the value of the book value units paid in February 2017, and additionally in April 2016 for Mr. Pelletier; for 2015 represent annual incentives paid in February 2016 for performance in 2015, excluding 30% of the total annual incentive carved out to the Book Value Performance Program; and the value of the book value units paid in February 2016, and additionally in April 2015 for Mr. Pelletier; for 2014 represent annual incentives paid in February 2015 for performance in 2014, excluding 30% of the total annual incentive carved out to the Book Value Performance Program; and the value of the book value units paid in February 2015.

Name	2016		2015		2014

For Mr. Falzon, 2015, and 2014 also include the value of carried interest payments of \$4,747 and \$15,600, respectively.

For Mr. Lowrey, 2016, 2015, and 2014 also include the value of carried interest payments of \$64,393, \$197,029, and \$237,147, respectively.

The carried interest payments relate to carried interest programs in which Mr. Falzon and Mr. Lowrey participate as a result of previous positions held within the Company's Asset Management Business. While Mr. Falzon and Mr. Lowrey are no longer entitled to invest in or be granted new carried interests in these programs, they will continue to receive distributions if and when they are earned.

- (5) The amounts reported in the **Change in Pension Value** column represent the change in the actuarial present value of each NEO's accumulated benefit under the Merged Retirement Plan, the Supplemental Retirement Plan, and the SERPs, as applicable, determined using interest rate and mortality rate assumptions consistent with those used for our consolidated financial statements on December 31, 2013, December 31, 2014, December 31, 2015, and December 31, 2016, as applicable; namely, the RP 2000 generational mortality table with white collar adjustments for 2013, and the RP 2014 generational mortality table with white collar adjustments, and an adjustment to reflect recent Prudential-specific experience for 2014, 2015, and 2016, an interest discount rate of 4.95% for 2013, 4.10% for 2014, 4.50% for 2015, and 4.15% for 2016, a Cash Balance Formula interest crediting rate of 4.25% for 2013, 2014, 2015 and 2016, and a PSI Cash Balance Formula interest crediting rate of 5.00% for 2013, 2014, 2015 and 2016. The amounts represented above may fluctuate significantly in a given year depending on a number of factors that affect the formula to determine pension benefits, including age, years of service, and the measurement of average annual earnings.

Messrs. Strangfeld and Pelletier accrue pension benefits under the Traditional Pension Formula and Messrs. Falzon, Grier, and Lowrey accrue pension benefits under the Cash Balance Formula (both formulas are described in the "Pension Benefits" section of this Proxy Statement). In accordance with the provisions of the Traditional Pension Formula, the years of earnings used for determining Average Eligible Earnings change every two years (most recently on January 1, 2016).

The amounts reported in this column include payments from the Supplemental Retirement Plan of \$2,524 for Mr. Falzon, \$21,367 for Mr. Grier and \$13,899 for Mr. Lowrey in 2014; \$5,549 for Mr. Falzon, \$29,589 for Mr. Grier and \$20,597 for Mr. Lowrey in 2015; and \$10,643 for Mr. Falzon, \$31,095 for Mr. Grier and \$20,990 for Mr. Lowrey in 2016; and above-market interest on the SESP of \$82 for Mr. Strangfeld, \$6 for Mr. Falzon, \$56 for Mr. Grier, \$24 for Mr. Lowrey and \$17 for Mr. Pelletier in 2014; \$4,229 for Mr. Strangfeld, \$359 for Mr. Falzon, \$2,905 for Mr. Grier, \$1,235 for Mr. Lowrey and \$917 for Mr. Pelletier in 2015; and \$10,388 for Mr. Strangfeld, \$1,138 for Mr. Falzon, \$7,239 for Mr. Grier, \$3,158 for Mr. Lowrey, and \$2,433 for Mr. Pelletier in 2016.

The actual change in pension value for Mr. Strangfeld in 2015 was \$(382,375). In accordance with SEC instructions, the amount included in this column for the change in pension value for 2015 is \$0.

- (6) The amounts reported in the **All Other Compensation** column are itemized in the supplemental "All Other Compensation" table below.

- (7) Mr. Pelletier was appointed an executive officer in April 2014.

- (1) For Messrs. Strangfeld and Grier, the amounts reported in the **Perquisites** column for 2016 represent the incremental cost for security services of \$25,658 and \$7,029 respectively, and the costs associated with Company-provided vehicles for personal and commuting purposes of \$22,306 and \$26,012, respectively. For Messrs. Falzon, Lowrey and Pelletier, the amounts reported represent the costs of commuting and limited personal use of Company-provided vehicles. The amounts reported in the table for commuting and personal use of vehicles reflect our determination of the costs allocable to the actual commuting and personal use of each individual and are based on a formula that takes into account various expenses, including costs associated with the driver and fuel.

- (2) The amounts reported in the **PESP** and **SESP Contributions** columns represent our contributions to the account of each NEO under (a) The Prudential Employee Savings Plan (the "PESP"), a defined contribution plan which provides employees with the opportunity to contribute up to 50% of eligible earnings in any combination of before-tax, Roth 401(k) and/or after-tax contributions (subject to Internal Revenue Code limits) and (b) the Prudential Supplemental Employee Savings Plan, a non-qualified plan which provides employees who exceed the Internal Revenue Code earnings limit (\$265,000 in 2016) with the opportunity to defer up to 4% of eligible earnings in excess of the earnings limit. We match 100% of the first 4% of an employee's before-tax or Roth 401(k) deferrals under the PESP (after one year of service) and 100% of an employee's deferrals under the SESP.

Grants of Plan-Based Awards

(1) The amounts reported in the Estimated Future Payouts Under Non-Equity Incentive Plan Awards column represent the potential amounts for annual incentives for the 2016 performance year. Actual amounts earned by the NEOs are reflected in the Summary Compensation Table. In addition, individual amounts are reported by grant date to represent the value of the book value units awarded to the NEOs under the Omnibus Plan on February 9, 2016, and reflected in the Number of Book Value Units column, based on the book value per share of the company of \$73.59 as originally reported as of December 31, 2015.

(2) The amounts reported in the Estimated Future Payouts Under Equity Incentive Plan Awards columns represent performance shares and performance units awarded to the NEOs under the Omnibus Plan in 2016. Performance share and performance unit awards are granted for a three-year performance period with payout determined at the end of the period based on our performance against our ROE goals. The ROE goals for the 2016 grant are within a range of 10% to 14%.

(3) The amounts reported in the All Other Option Awards column represent the number of stock options granted to each Named Executive Officer under the Omnibus Plan in 2016. These stock options vest one-third each year on the anniversary of the grant date. These stock options expire 10 years from their respective grant date. The exercise price for the February 9, 2016 grant of stock options is the closing price of our Common Stock on the grant date of February 9, 2016 (\$63.59 per share).

(4) The amounts in the Grant Date Fair Value column have been calculated in the case of performance shares and performance units as the target number of performance shares and performance units multiplied by the closing price of our Common Stock on the grant date of February 9, 2016 (\$63.59 per share).

For stock options, the grant date fair values are hypothetical values developed under a binomial option pricing model, which is a complex, mathematical formula to determine fair value of stock options on the date of grant. The binomial option pricing model is a flexible, lattice-based valuation model that takes into consideration transferability, fixed estimate of volatility, and expected life of the options. As such, the amounts reported in the table are hypothetical values and may not reflect the actual economic value a Named Executive Officer would realize upon exercise.

We made the following assumptions when calculating the grant date fair value of the stock option grants: exercise price is equal to our share price on the grant date, and for the grants of February 9, 2016, 5.61 year life expected for each option, expected dividend yield is 3.92%, risk-free rate of return of 1.25%, and expected price volatility of 38.36%.

Outstanding Equity Awards

The following table provides information on the NEOs' outstanding equity awards as of December 31, 2016. The equity awards reported in the Stock Awards columns consist of performance share and performance unit awards. The equity awards reported in the Option Awards columns consist of non-qualified stock options.

(1) The options reported in the **Option Awards** column vest at the rate of one-third per year on the anniversary of the date of grant.

(2) The **Equity Incentive Plan Awards** columns reflect the number of outstanding performance shares and performance units that would be received by each Named Executive Officer at the maximum payout level for the 2016, 2015 and 2014 grants. The dollar values reported represent the estimated value of the outstanding performance shares and performance units at the maximum payout level for the 2016, 2015 and 2014 grants, based on the closing market price for our Common Stock on December 31, 2016 (\$104.06 per share). Performance shares and performance units are subject to a three-year performance period with payout determined at the end of the period based on our performance against our ROE goals.

Grants were made for three-year performance cycles with the 2014 grant as the 2014-2016 performance cycle, the 2015 grant as the 2015-2017 performance cycle, and the 2016 grant as the 2016-2018 performance cycle.

Option Exercises and Stock Vested

The following table provides information on the value realized by each of the NEOs as a result of the exercise of options and stock awards that vested from January 1, 2016 through December 31, 2016.

(1) The amounts in the Stock Awards—Number of Shares Acquired on Vesting column represent the payout of shares of our Common Stock for the vesting of the 2013 performance shares grants and payout of the 2013 performance units as cash.

(2) The amounts in the Stock Awards—Value Realized on Vesting column represent the product of the number of performance shares and performance units released and the closing sale price of our Common Stock on February 9, 2016, \$63.59.

Pension Benefits

The following table provides information on the defined benefit retirement plans in which the NEOs participate, including the present value of accumulated benefits as of December 31, 2016, except as noted, payable for each of the NEOs under each of these plans determined using interest rate and mortality rate assumptions consistent with those used in our consolidated financial statements; namely, the RP 2014 generational mortality table with white collar adjustments and an adjustment to reflect recent Prudential-specific experience and an interest discount rate of 4.15%. Cash Balance Formula and PSI Cash Balance Formula accounts are assumed to grow with interest at 4.25% and 5.00%, respectively, until commencement of pension benefits. No additional earnings or service after December 31, 2016 are included in the calculation of the accumulated benefits.

(1) This benefit is a result of an allocation of demutualization compensation distributed to all participants in the Merged Retirement Plan in 2002 ("Demutualization Credit"). Ongoing service is not a consideration in determining this benefit for the NEOs.

(2) Mr. Falzon transferred to Prudential from Prudential Securities Incorporated in 1998 and began accruing pension benefits under the Traditional Pension Formula and subsequently, the Cash Balance Formula upon his election of this formula in 2001; in accordance with the Merged Retirement Plan Cash Balance Formula, credited service includes service with the Company's subsidiaries, in particular Prudential Securities Incorporated. As a result of his transfer, ongoing service is not a consideration in determining his benefit under the PSI Cash Balance Formula.

(3) This payment was a distribution from the Supplemental Retirement Plan Cash Balance Formula to pay for FICA taxes due and accrued in 2015 on this benefit, and federal, state and local taxes on the distributed amount. The entire payment was withheld to pay these taxes.

(4) Mr. Pelletier transferred to Prudential from Prudential Securities Incorporated in 1998 and began accruing pension benefits under the Traditional Pension Formula. As a result, ongoing service is not a consideration in determining this benefit.

The Merged Retirement Plan

Our wholly owned subsidiary, The Prudential Insurance Company of America, sponsors our tax-qualified defined benefit retirement plan, The Prudential Merged Retirement Plan (the "Merged Retirement Plan"), which is available to our executive officers, including the NEOs, and other salaried U.S. employees. The Merged Retirement Plan has two formulas under which

participants may have their retirement benefits for ongoing service determined: the "Traditional Pension Formula" or the "Cash Balance Formula." In addition, employees who previously worked for Prudential Securities Incorporated also have retirement benefits for their service with Prudential Securities Incorporated under a third component of the Merged Retirement Plan: the "PSI Cash Balance Formula."

TRADITIONAL PENSION FORMULA

Under the Traditional Pension Formula, employees are fully vested in their accrued benefits. These benefits (which are subject to Internal Revenue Code limits) are determined using the following formula, which is based on Average Eligible Earnings (as defined) and years of Credited Service (as defined):

$$\begin{aligned}
 & (1.35\% \times \text{Average Eligible Earnings up to Covered Compensation} \\
 & \quad + \\
 & \quad 2\% \times \text{Average Eligible Earnings in excess of Covered Compensation}) \\
 & \quad \times \\
 & \quad \text{Years of Credited Service up to 25 years} \\
 & \quad + \\
 & (0.75\% \times \text{Average Eligible Earnings up to Covered Compensation} \\
 & \quad + \\
 & \quad 1\% \times \text{Average Eligible Earnings in excess of Covered Compensation}) \\
 & \quad \times \\
 & \quad \text{Years of Credited Service for the next 13 years} \\
 & \quad + \\
 & \quad 1\% \times \text{Average Eligible Earnings} \\
 & \quad \times \\
 & \quad \text{Years of Credited Service in excess of 38 years}
 \end{aligned}$$

For a separation from service in 2016, Average Eligible Earnings are determined by taking the average of earnings (base salary plus annual incentive payment) over the period beginning January 1, 2009, and ending on the date of separation after dropping the lowest two years of earnings in that period. Under the Traditional Pension Formula, the starting point for the averaging period is moved forward two years on January 1 of every even calendar year. "Covered Compensation" for a year is the average of the Social Security wage bases for the 35 years ending in the year the participant will reach Social Security normal retirement age. Benefits are payable as early as age 55 (with a reduction in benefits) as a single life annuity if not married or an actuarially equivalent 50% joint and survivor annuity if married.

Generally, a participant's benefit will be determined as the greater of:

- the benefit as determined above calculated at the time of separation from service;
- the benefit as determined above calculated as of January 1, 2002, plus all or a portion of the Supplemental Retirement Plan benefit calculated as of January 1, 2002; and
- If the Supplemental Retirement Plan benefit is to be paid in the form of an annuity, the benefit as determined above calculated as of January 1, 2012 (including any adjustment in the benefit on January 1, 2002 as described in the previous bullet), plus all or a portion of the Supplemental Retirement Plan benefit calculated as of January 1, 2012. (Messrs. Strangfeld and Pelletier each elected to receive their Supplemental Retirement Plan benefit in the form of a lump sum; consequently, this provision does not apply to them.)

Additional benefits are provided to participants who are eligible to retire upon separation from service. A participant is eligible to retire if he or she separates from service either: (a) after attainment of age 55 (with 10 years of vesting service) or age 65 or (b) due to an involuntary termination (other than for cause or exhausting short-term disability benefits) after attainment of age 50 (with 20 years of continuous service).

If a participant is eligible to retire, he or she is eligible for survivor benefits (with no actuarial reduction), a lesser (or no) reduction in benefit for benefit commencement before age 65, and an additional benefit paid to age 65.

The benefits reported in the Pension Benefits Table above are assumed to commence in the form of a 50% joint and survivor annuity on the later of January 1, 2017 and the date the participant is eligible for an unreduced benefit, i.e., the earlier of (i) the first of the month on or following the later of attainment of age 60 and 30 years of service and (ii) the first of the month on or following attainment of age 65 ("Normal Retirement Date").

CASH BALANCE FORMULA

The Cash Balance Formula was added to the Merged Retirement Plan in 2001 for employees hired on or after January 1, 2001, except employees of Prudential Securities Incorporated. At that time, we offered a one-time conversion election for the current Merged Retirement Plan participants with benefits under the Traditional Pension Formula to opt to have their individual retirement benefits determined under the Cash Balance Formula. Participants who made this election to use the Cash Balance Formula are fully vested in their Cash Balance Formula benefit. Otherwise, participants are generally vested in their Cash Balance Formula benefit after three years of service.

Cash Balance Formula benefits (which are subject to Internal Revenue Code limits) are computed using a cash balance methodology that provides for credits to be made to a hypothetical account that is allocated basic credits equal to 2% to 14% (depending on age and service) of base salary and annual incentive payments. Interest credits are made to the hypothetical account each month using an interest rate set each year based on the average yield on 30-year U.S. Treasury securities (constant maturities) for October of the prior year, with a minimum rate of 4.25%. The rate in effect for 2016 was 4.25%.

Active participants on June 30, 2003 received an additional credit equal to his or her Supplemental Retirement Plan Cash Balance Formula benefit determined as of January 1, 2002, if any. Active participants on June 30, 2012 received an additional credit of no more than his or her Supplemental Retirement Plan Cash Balance Formula benefit determined as of April 1, 2012, if any.

Benefits are payable at any time after separation of service as a lump sum amount (based on the account balance) or an actuarially equivalent single life annuity; 50%, 75%, or 100% joint and survivor annuity; or 50% contingent annuity. Employees who made the one-time conversion election to use the Cash Balance Formula (specifically, Messrs. Falzon and Grier) have a frozen "Grandfathered Benefit" determined as the accrued benefit under the Traditional Pension Formula as of January 1, 2002. The value of the Grandfathered Benefit, and early retirement subsidies on this benefit, if applicable, are included in determining the payable benefit.

As reported in the Pension Benefits Table, cash balance accounts are assumed to grow with interest until, and benefits will commence on:

- for Messrs. Strangfeld and Pelletier (whose Cash Balance Formula benefits are due only to the Demutualization Credit), the same date benefits are assumed to commence under the Traditional Pension Formula; and
- for Messrs. Falzon, Grier, and Lowrey, the participant's Normal Retirement Date.

Benefits are assumed to commence in a form that is based on a value comparison between a lump sum and a 50% joint and survivor annuity.

PSI CASH BALANCE FORMULA

The PSI Cash Balance Formula applies only to employees who previously worked for Prudential Securities Incorporated. At this time, all participants are fully vested in their PSI Cash Balance Formula benefit. Messrs. Falzon and Pelletier are the only NEOs with a benefit under this formula.

PSI Cash Balance Formula benefits (which are subject to Internal Revenue Code limits) are computed using a cash balance methodology that provides for credits to be made to a hypothetical account. Prior to January 1, 2004, the hypothetical accounts were allocated basic credits equal to 1.7% to 7% (depending on age and service) of eligible earnings. Since then, interest credits only have been made to the hypothetical account each month using an interest rate set each year, with a minimum rate of 5.00%. The rate in effect for 2016 was 5.00%.

Benefits are payable at any time after separation of service as a lump sum amount (based on the account balance) or an actuarially equivalent single life annuity; 50%, 75%, or 100% joint and survivor annuity; 50% or 100% contingent annuity; or single life annuity with 5 or 10 years guaranteed.

As reported in the Pension Benefits Table, PSI Cash Balance accounts are assumed to grow with interest until, and benefits will commence on:

- for Mr. Falzon, the participant's Normal Retirement Date; and
- for Mr. Pelletier, the same date benefits are assumed to commence under the Traditional Pension Formula.

Benefits are assumed to commence with 90% of participants electing a lump sum and 10% electing a 50% joint and survivor annuity.

The Supplemental Retirement Plan and SERPs

The Supplemental Retirement Plan is a non-qualified retirement plan designed to complement the Merged Retirement Plan by providing benefits to all participants of the Merged Retirement Plan, including the NEOs, who are prohibited from receiving additional benefits under the Merged Retirement Plan because of Internal Revenue Code limits. Benefits under the Supplemental Retirement Plan are generally payable at the earlier of six months after separation from service and age 65.

The Prudential Insurance Supplemental Executive Retirement Plan and the PFI Supplemental Executive Retirement Plan (collectively, the "Prudential SERPs") provide "Early Retirement Benefits" to certain eligible executives, including the NEOs, subject to the approval of our Board and the Committee. Early Retirement Benefits are designed to recognize the service and contributions of eligible executives who are involuntarily terminated by exempting them from the reduction factor for early retirement between the ages of 55 and 65, a reduction of up to 50%, which would otherwise be applicable under the Traditional Pension Formula and the Grandfathered Benefit under the Cash Balance Formula of the Merged Retirement Plan and the Supplemental Retirement Plan. Benefits under the Prudential SERPs are generally payable at the earlier of six months after separation from service and age 65.

No NEO is currently eligible for benefits under the Early Retirement Benefits provision. Upon an involuntary termination of employment, Messrs. Strangfeld, Grier, and Lowrey will not be eligible for benefits under the Early Retirement Benefits provision due to a variety of factors; Messrs. Falzon and Pelletier are potentially eligible for benefits under the Early Retirement Benefits provision. However, were Mr. Falzon to qualify for Early Retirement Benefits, only the Grandfathered Benefit portion of his benefits would not be subject to reduction.

In 2008, the NEOs (with the exception of Mr. Lowrey) were permitted to make an irrevocable election regarding the form of payment for their pension benefits and each NEO (with the exception of Mr. Falzon) elected to receive his Supplemental Retirement Plan and Prudential SERPs benefits, if any, in a lump sum.

The Prudential Securities Incorporated Supplemental Retirement Plan for Executives ("PSI SERP") was designed to make it more attractive to certain key executives to remain employees of Prudential Securities Incorporated and its subsidiaries. Mr. Pelletier is the only NEO that is accruing benefits under the PSI SERP. Mr. Pelletier's PSI SERP benefit will be paid as an annuity upon separation from service, irrespective of age. The PSI SERP benefit is determined as a target benefit, less the benefit payable from the PSI Cash Balance Formula and an estimated Social Security retirement benefit. The target benefit is 60% of an employee's average salary times a ratio of service to 30 years. Mr. Pelletier stopped accruing service credit under this plan upon his transfer to Prudential from Prudential Securities Incorporated.

Notwithstanding the foregoing, benefits reported in the Pension Benefits Table are assumed to commence in the same form and at the same time as under the Merged Retirement Plan benefit to be consistent with assumptions used in the Company's financial statements.

Nonqualified Deferred Compensation

The following table provides information on the NEOs' participation in the Prudential Supplemental Employee Savings Plan (The "SESP") and the Deferred Compensation Plan:

(1) The amounts reported in the Executive Contributions in Last Fiscal Year column represent elective contributions of a portion of their base salary to the SESP (which amounts are also included in the Salary column of the Summary Compensation Table) and elective contributions to the Deferred Compensation Plan from the annual Bonus column.

- (2) The amounts reported in the Registrant Contributions in Last Fiscal Year column represent the Company's contributions to each NEO's SESP account (which amounts are also included in the All Other Compensation column of the Summary Compensation Table).
- (3) The amounts reported in the Aggregate Earnings in Last Fiscal Year column include amounts reported for above-market interest on the SESP in the Change in Pension Value column of the Summary Compensation Table. Specifically, \$10,388 for Mr. Strangfeld, \$1,138 for Mr. Falzon, \$7,239 for Mr. Grier, \$3,158 for Mr. Lowrey and \$2,433 for Mr. Pelletier.
- (4) The amounts reported in the Aggregate Balance at Last Fiscal Year-End column represent balances from the SESP and the Deferred Compensation Plan and include various amounts previously reported in the Summary Compensation Table as Salary, Bonus or All Other Compensation.

SESP

The SESP is a non-qualified profit-sharing plan designed to provide benefits in excess of amounts permitted to be contributed under the PESP. It allows employees, including the NEOs, to elect to defer from 1% to 4% of their eligible earnings paid after the Code limit is exceeded in the year (\$265,000 in 2016) to a hypothetical recordkeeping account on a pre-tax basis through payroll deduction. We match 100% of an employee's deferrals. Eligible earnings for the NEOs under the SESP are limited to base salary only. Interest is earned on a participant's account at the same rate as the Fixed Rate Fund under the PESP. This rate is generally set quarterly within a calendar year, and the rate in effect for each quarter of 2016 was 3.50%. A participant's account is distributed to the employee six months after the participant's separation from service.

Deferred Compensation Plan

The Deferred Compensation Plan is a non-qualified, unfunded plan that provides certain designated executives in the United States, including the NEOs, with the ability to defer taxation on up to 85% of their annual cash incentive awards. Deferrals may be invested in notional funds that generally mirror the PESP fund offerings, including shares of our Common Stock.

Post-Employment Compensation Arrangements

While we have not entered into employment agreements with our executive officers, including the NEOs, they are eligible to receive certain payments and benefits in the event of a termination of employment, including following a change in control of the Company, under the Severance Plan and Change in Control Program. Mr. Strangfeld does not participate in the Severance Plan.

In the case of the NEOs, and in many cases subject to the approval of our Board, the various payments and benefits provided under the Severance Plan, the Change in Control Program, the Omnibus Plan and other Company programs, as applicable, are as follows:

Voluntary Termination; Early or Normal Retirement

SEVERANCE

ANNUAL INCENTIVES

Annual Incentive Program: an annual incentive payment based on the current year's business and individual performance, payable following the completion of the performance year.

STOCK OPTIONS

Omnibus Plan*: (i) except for stock options granted on January 18, 2008, vested stock options remain exercisable for a period of up to five years after termination; and unvested stock options continue to vest according to the original vesting schedule; and (ii) for stock options granted on January 18, 2008, (x) upon a voluntary termination of employment before January 18, 2012, unvested stock options are cancelled and vested stock options are exercisable for up to 90 days after termination, and (y) upon a voluntary termination of employment on or after January 18, 2012, unexercised stock options remain exercisable for a period of up to five years after termination.

PERFORMANCE SHARES/PERFORMANCE UNITS

Omnibus Plan*: each grant of performance shares and performance units will be paid out at the end of its respective performance period based on the actual number of shares and performance units earned as determined by the Committee.

Performance shares are paid in shares of Common Stock and performance units are paid in cash.

BOOK VALUE UNITS

Omnibus Plan*: each grant of book value units vests one-third each year and is paid out annually in cash based on the Company's book value per share at the end of the fiscal quarter prior to payment.

* Based on approved retirement treatment. However, in the event the participant does not qualify for approved retirement treatment (i) for stock options granted in 2005 or later, unvested stock options are cancelled and vested stock options are exercisable for up to 90 days after termination and (ii) all outstanding restricted stock units, performance shares, performance units and book value units are generally forfeited.

SERP

ADDITIONAL RETIREMENT ACCRUALS

Merged Retirement Plan and Supplemental Retirement Plan: additional benefit based on the annual incentive.

HEALTH/LIFE

Involuntary Termination Without Cause

SEVERANCE

Severance Plan: assuming all eligibility conditions are satisfied, severance payments of up to 18 months of salary and annual incentive.

ANNUAL INCENTIVES

Annual Incentive Program: an annual incentive payment based on the current year's business and individual performance, payable following the completion of the performance year.

STOCK OPTIONS

Omnibus Plan*: (i) except for stock options granted on January 18, 2008, vested stock options remain exercisable for a period of up to five years after termination date and unvested stock options continue to vest according to the original vesting schedule; and (ii) for stock options granted on January 18, 2008, unvested stock options are pro-rated and are exercisable for up to 90 days after termination.

PERFORMANCE SHARES/PERFORMANCE UNITS

Omnibus Plan*: each grant of performance shares and performance units will be paid out at the end of its respective performance period based on the actual number of shares and performance units earned as determined by the Committee. Performance shares are paid in shares of Common Stock and performance units are paid in cash.

BOOK VALUE UNITS

Omnibus Plan*: each grant of book value units vests one-third each year and is paid out annually in cash based on the Company's book value per share at the end of the fiscal quarter prior to payment.

** Based on approved retirement treatment. However, in the event the participant does not qualify for approved retirement treatment (i) unvested stock options are cancelled and vested stock options are exercisable for up to 90 days after termination, (ii) for stock options granted on January 18, 2008, unvested stock options are pro-rated and are exercisable for up to 90 days after termination, and (iii) generally a pro-rata portion of restricted stock units, performance shares, performance units and book value units will vest.

SERP

Prudential SERP: Messrs. Falzon and Pelletier are retirement- eligible and may receive an Early Retirement Benefit.

ADDITIONAL RETIREMENT ACCRUALS

Merged Retirement Plan and Supplemental Retirement Plan: additional benefit based on the annual incentive.

Merged Retirement Plan (Traditional Pension Formula) and Supplemental Retirement Plan (Traditional Pension Formula): additional benefit to Mr. Pelletier based on the amount of severance paid and the period of time over which the severance is based (e.g., 78 weeks).

Merged Retirement Plan (Cash Balance Formula) and Supplemental Retirement Plan (Cash Balance Formula): additional benefit to Messrs. Falzon, Grier, and Lowrey based on the amount of severance.

HEALTH/LIFE

Separation in Connection with Change in Control¹

SEVERANCE

Change in Control Program: (i) a lump-sum payment equal to the sum of two times annual base salary and bonus (based on the average of the annual incentive payments for the previous three calendar years); and (ii) a payment equal to the present value of the retirement benefits that would have accrued during the period of time on which the lump-sum payment in (i) is based.

(1) Pursuant to the Change in Control Program, before payments may be made, a change in control must have occurred and the designated executive officer's employment must, within two years following the change in control, either have terminated involuntarily without "cause" or by the eligible executive officer for "good reason". An eligible executive officer would have good reason to terminate his or her employment in the event of a material reduction in his or her compensation or the terms and conditions of his or her employment were to adversely change (for example, a reduction in job responsibilities, title, or forced relocation).

ANNUAL INCENTIVES

Change in Control Program and Annual Incentive Program: an annual incentive payment based on the target annual incentive award opportunity in the year termination occurs.

STOCK OPTIONS

Change in Control Program and Omnibus Plan: accelerated vesting of stock options, only if outstanding awards will not be honored or assumed or substituted with equitable replacement awards made by a successor employer.

PERFORMANCE SHARES/PERFORMANCE UNITS

Change in Control Program and Omnibus Plan: payment of outstanding performance shares and performance units at target in cash or shares within 30 days of a change in control, only if outstanding awards will not be honored or assumed or substituted with equitable replacement awards made by a successor employer.

BOOK VALUE UNITS

Change in Control Program and Omnibus Plan: payment of outstanding book value units in cash based on the Company book value per share at the end of the fiscal quarter ended on or immediately prior to the change in control, only if outstanding awards will not be honored or assumed or substituted with equitable replacement awards made by a successor employer.

SERP

Prudential SERP: Messrs. Falzon and Pelletier are retirement-eligible and may receive an Early Retirement Benefit.

ADDITIONAL RETIREMENT ACCRUALS

Merged Retirement Plan and Supplemental Retirement Plan: additional benefit based on the annual incentive.

HEALTH/LIFE

Change in Control Program: continued health benefits at active employee contribution levels for a period of 18 months, plus a "gross up" for any expected tax consequences associated with providing these health benefits.

Separation Due to Disability

SEVERANCE

ANNUAL INCENTIVES

Annual Incentive Program: an annual incentive payment based on an average of the previous three years' annual incentive awards.

STOCK OPTIONS

Omnibus Plan: stock option vesting accelerates with up to three years to exercise.

PERFORMANCE SHARES/PERFORMANCE UNITS

Omnibus Plan: all outstanding awards of performance shares and performance units are paid at target in shares of our Common Stock and cash, respectively.

BOOK VALUE UNITS

Omnibus Plan: all outstanding awards of book value units are paid out in cash based on the Company book value per share at the end of the fiscal quarter prior to payment.

SERP

ADDITIONAL RETIREMENT ACCRUALS

Merged Retirement Plan and Supplemental Retirement Plan: additional benefit based on the annual incentive.

Merged Retirement Plan (Cash Balance Formula) and Supplemental Retirement Plan (Cash Balance Formula): Messrs. Falzon, Grier, and Lowrey would receive additional credits until pension commencement (assumed to be Normal Retirement Date).

HEALTH/LIFE

Prudential Welfare Benefits Plan: monthly disability payment based on salary plus the greater of the most recently paid annual incentive award or the average of the last three most recently paid annual incentive awards.

Separation Due to Death

SEVERANCE

ANNUAL INCENTIVES

Annual Incentive Program: an annual incentive payment based on an average of the previous three years' annual incentive awards.

STOCK OPTIONS

Omnibus Plan: stock option vesting accelerates with a minimum of one and up to three years to exercise outstanding options.

PERFORMANCE SHARES/PERFORMANCE UNITS

Omnibus Plan: all outstanding awards of performance shares and performance units are paid at target in shares of our Common Stock and cash, respectively.

BOOK VALUE UNITS

Omnibus Plan: all outstanding awards of book value units are paid out in cash based on the Company book value per share at the end of the fiscal quarter prior to payment.

SERP

ADDITIONAL RETIREMENT ACCRUALS

Merged Retirement Plan and Supplemental Retirement Plan: additional benefit payable to the spouse based on the annual incentive.

HEALTH/LIFE

Potential Payments Upon Termination or Change in Control

The following table presents, for each of the NEOs, the estimated payments and benefits that would have been payable as of the end of 2016 in the event of:

- voluntary termination of employment;
- involuntary termination of employment without cause;
- separation due to a change in control of the Company;
- separation due to disability; and
- separation due to death.

Consistent with SEC requirements, these estimated amounts have been calculated as if the NEO's employment had been terminated as of December 30, 2016, the last business day of 2016, and using the closing market price of our Common Stock on December 30, 2016 (\$104.06 per share).

Retirement eligibility differs according to the employment separation event. The following table assumes that benefits are paid in an annuity form and commence on January 1, 2017, unless stated otherwise. The table also assumes Board approval of various payments and Prudential SERP Early Retirement Benefits, as applicable, for all NEOs.

The following items have been excluded from the table:

- The benefits the NEOs would be entitled to receive under the SESP and the Deferred Compensation Plan (these benefits are disclosed in the Nonqualified Deferred Compensation Table contained in this Proxy Statement).
- Additional payments to the NEOs under the PESP, The Prudential Welfare Benefits Plan and The Prudential Retiree Welfare Benefits Plan (plans providing, among other things, life insurance, disability insurance, medical insurance and/or dental insurance), which do not discriminate in scope, terms, or operation in favor of the NEOs and are generally available to all salaried employees.

- The effects of an involuntary termination of employment for cause, which will result in a forfeiture of all outstanding vested and unvested performance shares, performance units, book value units, restricted stock units, and stock options, and for Mr. Pelletier potential forfeiture of the benefit under the PSI SERP. The NEOs will receive no additional payments in the event of a termination of employment for cause.

The amounts reported in the following table are hypothetical amounts based on the disclosure of compensation information about the NEOs. Actual payments and benefits will depend on the circumstances and timing of any termination of employment or other triggering event.

7 Reflects the expected contribution subsidy for 18 months and the associated tax gross-up. For this purpose, we have assumed the 2017 premium and contribution rates continue for the full 18 months.

General Information About The Meeting

Voting Instructions and Information

Who Can Vote

You are entitled to vote your Common Stock if our records show that you held your shares as of the record date of March 10, 2017. At the close of business on that date, a total of 430,370,040 shares of Common Stock were outstanding and entitled to vote. Each share of Common Stock is entitled to one vote at this Annual Meeting. Your voting instructions are confidential and will not be disclosed to persons other than those recording the vote, except if a shareholder makes a written comment on the proxy card, otherwise communicates his or her vote to management, as may be required in accordance with the appropriate legal process, or as authorized by you.

Voting Your Proxy

If your Common Stock is held through a broker, bank or other nominee (held in street name), you will receive instructions from such entity that you must follow in order to have your shares voted. If you want to vote in person, you must obtain a legal proxy from your broker, bank or other nominee and bring it to the meeting, and submit it with your vote.

If you hold your shares in your own name as a holder of record with our transfer agent, Computershare, you may instruct the proxies how to vote by following the instructions listed on the Notice of Internet Availability or the proxy card to vote online, or by signing, dating and mailing the proxy card in the postage-paid envelope. Of course, you can always come to the meeting and vote your shares in person.

Whichever method you select to transmit your instructions, the proxies will vote your shares in accordance with those instructions. Except as discussed below with respect to shares held in certain company plans, if you sign and return a proxy card without giving specific voting instructions, your shares will be voted as recommended by the Board of Directors: FOR each director nominee, FOR ratification of the appointment of the independent registered public accounting firm, FOR the advisory vote to approve named executive officer compensation, for "EVERY YEAR" on the advisory vote on the frequency of future advisory votes to approve named executive officer compensation, and AGAINST the shareholder proposal regarding an independent Board Chairman.

Special Voting Instructions for Plan Shares

If you are a participant in The Prudential Employee Savings Plan ("PESP") and your account is invested in the Common Stock Fund, you may instruct the PESP Trustee how to vote the shares of Common Stock credited to your PESP account and held in the Fund on March 7, 2017. The PESP Trustee, the shareholder of record, will vote these shares in accordance with your instructions or, if you do not provide voting instructions, in the same proportion as the PESP Trustee votes the shares for which it received timely voting instructions subject to the terms of the PESP plan document, its trust agreement and applicable law. If you hold shares of Common Stock through your participation in the international portion of the Prudential Stock Purchase Plan, the Prudential International Stock Purchase Plan, or the international portion of the Associates Grants (including vested shares of Prudential Financial, Inc. Common Stock) under the Prudential Financial, Inc. Omnibus Incentive Plan (collectively, "the Plan"), on those shares will be voted by the Plan administrator in accordance with your instructions or, if you do not provide voting instructions, in accordance with the Board of Directors' recommendation subject to the terms of the Plan and applicable law.

Matters to Be Presented

We are not aware of any matters to be presented at the Annual Meeting other than those described in this Proxy Statement. If any matters not described in this Proxy Statement are properly presented at the meeting, the proxies will use their own judgment to determine how to vote your shares. If the meeting is adjourned or postponed, the proxies can vote your shares at the adjournment or postponement as well.

Revoking Your Proxy

If you hold your shares in street name, you must follow the instructions of your broker, bank or other nominee to revoke your voting instructions. If you are a holder of record and wish to revoke your proxy instructions, you must deliver later-dated proxy instructions, advise the Chief Governance Officer and Corporate Secretary in writing before the proxies vote your shares at the meeting, or attend the meeting and vote your shares in person.

Quorum

A quorum is required to transact business at our Annual Meeting. Shareholders of record holding shares of stock constituting 50% of the shares entitled to be cast shall constitute a quorum. If you have returned valid proxy instructions or attend the meeting in person, your shares will be counted for the purpose of determining whether there is a quorum, even if you abstain from voting on some or all matters introduced at the meeting. In addition, broker non-votes will be treated as present for purposes of determining whether a quorum is present.

Voting Requirements

You may either vote for, against or abstain on each of the proposals, with the exception of Item 4 where you may vote for one year, two years, three years or abstain. The affirmative vote of a majority of the votes cast is required to approve each proposal. Broker non-votes and abstentions will have no impact, as they are not counted as votes cast.

Although the advisory votes in Items 3 and 4 are non-binding, as provided by law, our Board will review the results of the votes and, consistent with our commitment to shareholder engagement, will take them into account in making a determination concerning our named executive officer compensation and the frequency of future advisory votes to approve named executive officer compensation. If you hold your shares in street name, and you do not submit voting instructions to your broker, bank or other nominee, your broker, bank or other nominee will not be permitted to vote your shares in their discretion on the election of directors, the advisory vote to approve executive compensation, the advisory vote on the frequency of future advisory votes to approve named executive officer compensation, or the shareholder proposal regarding an independent Board Chairman, but may still be permitted to vote your shares in their discretion on the ratification of the independent registered public accounting firm.

Election of Directors

At the meeting, each nominee must receive the affirmative vote of a majority of the votes cast with respect to his or her election in order to be elected. If an incumbent nominee is not elected by the requisite vote, he or she must tender his or her resignation, and the Board, through a process managed by the Corporate Governance and Business Ethics Committee, will decide whether to accept the resignation.

BOARD RECOMMENDATIONS

The Board of Directors recommends that you vote “FOR” each of the Director Nominees, “FOR” the ratification of the appointment of the Independent Registered Public Accounting Firm, “FOR” the advisory vote to approve named executive officer compensation, for “EVERY YEAR” on the advisory vote on the frequency of future advisory votes to approve named executive officer compensation and “AGAINST” the shareholder proposal regarding an independent Board Chairman.

Cost of Proxy Solicitation

We are providing these proxy materials in connection with the solicitation by the Company's Board of Directors of proxies to be voted at our Annual Meeting. We will pay the cost of this proxy solicitation. In addition to soliciting proxies by mail, we expect that a number of our employees will solicit shareholders personally, electronically and by telephone. None of these employees will receive any additional compensation for doing this. We have retained Georgeson, Inc. to assist in the solicitation of proxies for a fee of \$25,000 plus reimbursement of expenses. We will, on request, reimburse brokers, banks and other nominees for their expenses in sending proxy materials to their customers who are beneficial owners and obtaining their voting instructions.

Attending the Annual Meeting

If you attend the Annual Meeting, you will be asked to present valid, government-issued photo identification, such as a driver's license. If you are a holder of record, the top half of your proxy card or your Notice of Internet Availability is your admission ticket. If you hold your shares in street name, you will need proof of ownership to be admitted to the meeting. A recent brokerage statement or a letter from your bank or broker are examples of proof of ownership. If you want to vote your shares held in street name in person, you must get a legal proxy in your name from the broker, bank or other nominee that holds your shares, and submit it with your vote.

Attendance at the Annual Meeting is limited to shareholders of Prudential as of the record date. Each shareholder may appoint only one proxy holder or representative to attend the Annual Meeting on his or her behalf.

Submission of Shareholder Proposals and Director Nominations

Proposals and Director Nominations for Inclusion in the Proxy Statement for the 2018 Annual Meeting

In order to submit shareholder proposals for the 2018 Annual Meeting of Shareholders for inclusion in our Proxy Statement pursuant to SEC Rule 14a-8, materials must be received by the Chief Governance Officer and Corporate Secretary at the Company's principal office in Newark, New Jersey, no later than the close of business on November 21, 2017.

We have adopted proxy access, which permits a shareholder, or a group of up to 20 shareholders, owning 3% or more of the Company's outstanding capital stock for at least three years, to submit director nominees for up to 20% of the Board for inclusion in our Proxy Statement if the shareholder(s) and the nominee(s) meet the requirements in our By-laws. Notice of director nominations submitted under these proxy access By-law provisions must be received no earlier than December 10, 2017 and no later than January 9, 2018. However, if the 2018 Annual Meeting is more than 30 days before or after the first anniversary of the date of this year's Annual Meeting, such notice must be received no later than the close of business on the 10th day following the earlier of the day on which notice of the date of the 2017 Annual Meeting was mailed or public disclosure of the meeting date was made.

Proposals submitted for inclusion in our Proxy Statement must comply with all of the requirements of SEC Rule 14a-8, and director nominations submitted pursuant to the proxy access provisions of our By-laws must comply with all of the requirements of our By-laws. As the rules of the SEC and our By-laws make clear, simply submitting a proposal or nomination does not guarantee its inclusion.

Other Proposals or Director Nominations for Presentation at the 2018 Annual Meeting

Our By-laws also establish an advance notice procedure with regard to director nominations and shareholder proposals that are not submitted for inclusion in the Proxy Statement, but that a shareholder instead wishes to present directly at an Annual Meeting. To be properly brought before the 2018 Annual Meeting, a notice of the nomination or the matter the shareholder wishes to present at the meeting must be delivered to the Chief Governance Officer and Corporate Secretary at the Company's principal office in Newark (see below) not less than 120 or more than 150 days prior to the first anniversary of the date of this year's Annual Meeting. As a result, any notice given by or on behalf of a shareholder pursuant to these provisions of the Company's By-laws (and not pursuant to SEC Rule 14a-8) must be received no earlier than December 10, 2017 and no later than January 9, 2018. However, if the 2018 Annual Meeting is more than 30 days before or after the first anniversary of the date of this year's Annual Meeting, such notice must be received no later than the close of business on the 10th day following the earlier of the day on which notice of the date of the 2018 Annual Meeting was mailed or public disclosure of the meeting date was made. All director nominations and shareholder proposals must comply with the requirements of the Company's By-laws, a copy of which may be obtained at no cost from the Chief Governance Officer and Corporate Secretary. The Chairman may refuse to acknowledge or introduce any such matter at the Annual Meeting if notice of the matter is not received within the applicable deadlines or does not comply with the Company's By-laws. If a shareholder does not meet these deadlines, or does not satisfy the requirements of Rule 14a-4 of the Exchange Act, the persons named as proxies will be allowed to use their discretionary voting authority when and if the matter is raised at the Annual Meeting.

All proposals and director nominations should be addressed to: Margaret M. Foran, Chief Governance Officer, Senior Vice President and Corporate Secretary, Prudential Financial, Inc., 751 Broad Street, Newark, NJ 07102.

Eliminating Duplicative Proxy Materials

A single Proxy Statement and Annual Report, along with individual proxy cards, or individual Notices of Internet Availability, will be delivered in one envelope to multiple shareholders having the same last name and address and to individuals with more than one account registered at Computershare with the same address unless contrary instructions have been received from an affected shareholder.

If you would like to enroll in this service or receive individual copies of all documents, now or in the future, please contact Computershare by calling 1-800-305-9404 or writing Computershare, P.O. Box 43033, Providence, RI 02940-3033. We will

deliver a separate copy of all documents to a shareholder at a shared address to which a single copy of the documents was delivered promptly upon request to the address or telephone number provided above.

Delivery of Proxy Materials

We want to communicate with you in the way that is most convenient for you. You may choose to receive either a full set of printed materials—which will include an Annual Report, Proxy Statement, and proxy card—or an email with instructions for how to view the materials and vote online. To select a method of delivery during the voting season, registered shareholders may follow the instructions when voting online at www.investorvote.com/prudential. Following the 2017 Annual Meeting, you may continue to choose your method of delivery of future documents by visiting www.computershare.com/investor. If you own shares indirectly through a broker, bank, or other nominee, please contact your financial institution for additional information regarding delivery options.

If you do not choose a method of delivery as outlined above, you may receive a one-page Notice of Internet Availability instructing you how to access the materials and vote in lieu of printed or electronic materials. As a publicly traded company, Prudential is legally required to make these materials available to all shareholders and it is not possible to opt out of the mailing.

Important Notice Regarding the Availability of Proxy Materials for the 2017 Annual Meeting of Shareholders to Be Held on May 9, 2017: Our 2017 Proxy Statement and Annual Report for the year ended December 31, 2016, are available free of charge on our website at www.prudential.com/governance.

Annual Report on Form 10-K

The Company will provide by mail, without charge, a copy of its Annual Report on Form 10-K, at your request. Please direct all inquiries to the Company's Corporate Information Service at 1-877-998-ROCK (7625) or 751 Broad Street, Newark, NJ 07102.

Incorporation By Reference

To the extent that this Proxy Statement has been or will be specifically incorporated by reference into any other filing of Prudential Financial under the Securities Act of 1933 or the Exchange Act, the sections of this Proxy Statement entitled "Report of the Audit Committee" (to the extent permitted by the rules of the SEC) and "Compensation Committee Report" shall not be deemed to be so incorporated, unless specifically provided otherwise in such filing.

Shareholder List

A list of shareholders entitled to vote at the Annual Meeting will be available for examination by shareholders at the Annual Meeting.

Appendix A - Non-GAAP Measures

Adjusted operating income ("AOI") and operating return on average equity are non-GAAP measures of financial performance. Adjusted book value is a non-GAAP measure of financial position. We use earnings per share based on AOI, operating return on average equity, and adjusted book value as performance measures in our incentive compensation programs. Also, we believe that our use of these non-GAAP measures helps investors understand and evaluate the Company's results of operations and financial position, by providing measures that are primarily attributable to our business operations separate from the portion attributable to external and potentially volatile capital and currency market conditions.

Adjusted Operating Income

Adjusted operating income excludes "Realized investment gains (losses), net," as adjusted, and related charges and adjustments. A significant element of realized investment gains and losses are impairments and credit-related and interest rate-related gains and losses. Impairments and losses from sales of credit-impaired securities, the timing of which depends largely on market credit cycles, can vary considerably across periods. The timing of other sales that would result in gains or losses, such as interest rate-related gains or losses, is largely subject to our discretion and influenced by market opportunities as well as our tax and capital profile.

Realized investment gains (losses) within certain of our businesses for which such gains (losses) are a principal source of earnings, and those associated with terminating hedges of foreign currency earnings and current period yield adjustments are included in adjusted operating income. Adjusted operating income generally excludes realized investment gains and losses from products that contain embedded derivatives, and from associated derivative portfolios that are part of an asset-liability management program related to the risk of those products. However, the effectiveness of our hedging program will ultimately be reflected in adjusted operating income over time. Adjusted operating income also excludes gains and losses from changes in value of certain assets and liabilities relating to foreign currency exchange movements that have been economically hedged or considered part of our capital funding strategies for our international subsidiaries, as well as gains and losses on certain investments that are classified as other trading account assets.

Adjusted operating income also excludes investment gains and losses on trading account assets supporting insurance liabilities and changes in experience-rated contractholder liabilities due to asset value changes, because these recorded changes in asset and liability values are expected to ultimately accrue to contractholders. In addition, adjusted operating income excludes the results of divested businesses, which are not relevant to our ongoing operations. Discontinued operations and earnings attributable to noncontrolling interests, each of which is presented as a separate component of net income under GAAP, are also excluded from adjusted operating income. The tax effect associated with pre-tax adjusted operating income is based on applicable IRS and foreign tax regulations inclusive of pertinent adjustments.

(1) Book value per share of Common Stock, including accumulated other comprehensive income, for the fourth quarter of 2015, includes a \$500 million increase in equity and a 5.6 million increase in diluted shares reflecting the dilutive impact of exchangeable surplus notes when book value per share is greater than \$88.90. The fourth quarter of 2016 includes a \$500 million increase in equity and a 5.75 million increase in diluted shares, reflecting the dilutive impact of exchangeable surplus notes when book value per share is greater than \$86.92.

Operating Return on Average Equity

Operating Return on Average Equity represents adjusted operating income after-tax divided by average adjusted book value. The comparable GAAP measure is return on average equity (based on income from continuing operations). Return on average equity (based on income from continuing operations) represents income from continuing operations after-tax, attributable to consolidated Prudential Financial, Inc., as determined in accordance with GAAP, divided by average total Prudential Financial, Inc. equity. Return on average equity (based on income from continuing operations) was 8.8% for the year ended December 31, 2016.

GENDER PAY POLICY

Prudential's Total Rewards is integral to our employee value proposition. This package includes compensation, as well as programs and resources available to our employees.

All roles in our U.S. organization are reviewed and assigned a value and market reference range based on market and benchmarking data. These ranges enable us to recruit and promote talent within the context of an individual's background, experience and performance.

This integrated approach ensures that we proactively manage pay equity on an ongoing basis for both women and people of color, and that we satisfy our heightened obligations as a federal contractor.

After completion of our annual review, Prudential is confident that, controlling for relevant factors, there are no significant gender or race wage differentials in the U.S. for employees performing substantially similar work.

Our Board receives a review of our pay equity assessment each year as part of our annual human resources strategy update.

THE ENVIRONMENT: RISKS, OPPORTUNITIES AND ENGAGEMENT

Prudential has long recognized the connection between climate risk and the company's long-term vitality.

The company has managed its own impact on the environment by decreasing energy use and installing solar arrays in major employee centers. Other efforts decrease water and paper use and increase recycling.

Prudential also invests in initiatives that contribute to a healthier environment. Our holdings, as of December 31, 2016, include:

Renewable energy investments valued at more than

\$3.8 billion

27.2 million square feet of LEED Green U.S. real estate totaling

\$13.7 billion

"Green" bonds totaling over

\$380 million

Our developing understanding of risks and opportunities comes from engagement with stakeholders, including our investors, customers and employees.

Active involvement in environmental issues is one part of Prudential's long-term value creation. For more information, go to www.prudential.com/sustainability

March 21, 2017

Dear Shareholder:

As a shareholder, you have the right to vote on important matters that affect Prudential Financial. We take the opinions of Prudential's shareholders very seriously and we hope you will provide your input by casting your vote on the items in the 2017 Proxy Statement.

Enclosed you will find a Notice of Internet Availability (Notice), which provides information on how to view the materials and cast your vote online. If you would prefer to vote by mail, you may request a paper copy of the proxy materials by visiting www.investorvote.com/prudential, calling 1-866-641-4276, or by sending an email to investorvote@computershare.com.

Additional information regarding the Notice is located on the reverse side of this letter. The SEC has also created an educational website where you can learn more about proxy voting — www.sec.gov/spotlight/proxymatters.shtml.

To express our appreciation when you vote, we are once again offering you a choice of receiving a specially designed, environmentally friendly tote bag, or contributing to a tree-planting campaign. Since this program's inception, we have planted more than 730,000 trees through our partnership with American Forests and have provided nearly 525,000 bags to our shareholders.

This year's tree-planting initiative will continue to support our work with American Forests in our National Parks.

As always, we thank you for your investment in Prudential.

Sincerely,

A handwritten signature in dark ink that reads "Margaret M. Foran".

FAQ – Internet Availability of Proxy Materials

The Securities and Exchange Commission (SEC) has issued rules requiring public companies to:

- Make proxy materials (such as the Annual Report and Proxy Statement) available on the Internet
- Notify shareholders how and where to access those materials online

These rules allow companies to give shareholders more options for reviewing important proxy materials. Information can be made available to shareholders more quickly and conveniently—online documents are easily searchable, enabling shareholders to quickly find the information they need to make informed voting decisions.

The SEC also allows companies to send a one-page Notice to holders with instructions on how to access the materials online, rather than sending a full set of materials. Our reasons for choosing the notice-only option are to:

- **Adopt more sustainable practices and be more environmentally responsible—by shrinking our carbon footprint through reductions in ink and paper used in printing and fuel used in shipping**
- **Increase shareholder value—by reducing print and mail costs**

Please refer to the information below to learn more and to find out what your options are as a shareholder to view materials and vote.

What is on the one-page Notice?

The Notice contains simple instructions on how to:

- Access and view the proxy materials online
- Vote your shares online
- Request a free set of printed materials
- Change delivery preferences for future proxy mailings

DO retain the Notice for future reference

DO NOT mark your vote on the Notice and return it; the Notice is not a proxy card or ballot

If I received only a one-page Notice, how do I vote my shares?

To vote your shares, follow the instructions on the Notice to vote online. If you request a paper copy of the proxy materials, you'll receive a proxy card with voting instructions. You may also vote your shares in person by bringing the Notice with you and attending the meeting.

If I received only a one-page Notice, how do I request a full set of printed materials for this meeting or future proxy mailings?

To request a free set of printed materials for this meeting or for future mailings, refer to the Notice for detailed instructions on how to request a copy via Internet, telephone or email.

If I received a full set of materials, may I request only a one-page Notice for future proxy mailings?

Our company will make a decision for each meeting whether or not to use the notice-only option, and send notice-only mailings at our discretion.

Can I elect to receive my proxy materials electronically?

You may elect to receive materials via email for future mailings. You will receive the materials electronically if our company chooses to offer email delivery in the future. To change your delivery preferences, follow the instructions on the Notice.

One of your key privileges as an investor is the right to vote on important matters that affect the company you own shares in.

Please vote. Your vote is important to us and our business.

A Free Gift for Our Shareholders

When you vote, we will offer, at no cost to you, the option of receiving an eco-friendly tote bag or contributing to a tree-planting campaign.

Dear Shareholder:

This package includes your proxy and voting materials. We care about what you think and voting is an important way for you to let us know how we're doing.

To express our appreciation when you vote, we are once again offering you a choice of receiving a specially designed, environmentally friendly tote bag, or contributing to a tree-planting campaign. Since its inception, this program has resulted in over 730,000 trees being planted and provided nearly 525,000 tote bags to our shareholders. This year's tree-planting will continue our work with American Forests in our National Parks.

Whether you vote via the Internet, phone, or mail, you can indicate your choice of either the bag or a tree-planting contribution. If you elect to receive a bag, you can expect to receive your free gift around the end of June.

Thank you,
